

SAFETY DATA SHEET  
Freezer Spray

**SECTION 1: Identification of the substance/mixture and of the company/undertaking**

1.1. Product identifier

Product name                      FASTFREEZE™ Pipe Freeze Spray

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses                      Pipe Freeze Spray for water pipe system isolation.

1.3. Details of the supplier of the safety data sheet

Supplier                              Kibosh Ltd  
Unit 9 Huddersfield Street  
Galashiels  
Scotland, UK  
TD1 3BF  
sales@kiboshinnovation.com

1.4. Emergency telephone number

Emergency telephone: **Kibosh Ltd** +44 (0)1896 753571    **Aztec Aerosols** +44 (0)1270 656380 (Monday to Friday, 9am to 5pm)

**SECTION 2: Hazards identification**

2.1. Classification of the substance or mixture Classification (EC 1272/2008)

Physical hazards                      Aerosol 3 - H229

Health hazards                        Not Classified

Environmental hazards                Not Classified

Physicochemical                      Not considered to be a significant hazard due to the small quantities used. Aerosol containers can explode when heated, due to excessive pressure build-up.

2.2. Label elements

Signal word                              Warning

Hazard statements                      H229 Pressurised container: may burst if heated.

Precautionary statements            P102 Keep out of reach of children.  
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.  
P251 Do not pierce or burn, even after use.  
P260 Do not breathe vapour/ spray.  
P271 Use only outdoors or in a well-ventilated area.  
P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.  
P501 Dispose of contents/ container in accordance with local regulations.

Supplemental label information                      Contains HFO-1234ze (CAS number: 29118-24-9).

## Pipe Freeze Spray

### 2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

HFO-1234ze			60-100%
CAS number: 29118-24-9	EC number: 471-480-0	REACH registration number:	010000019758-54-XXXX
Classification Press. Gas (Liq.) - H280			

The full text for all hazard statements is displayed in Section 16.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

General information	Move affected person to fresh air at once.
Inhalation	Move affected person to fresh air at once. If breathing stops, provide artificial respiration. Keep affected person warm and at rest. Get medical attention immediately.
Ingestion	Rinse mouth thoroughly with water.
Skin contact	Rinse with water. Get medical attention if any discomfort continues.
Eye contact	Rinse with water. Get medical attention if any discomfort continues.

#### 4.2. Most important symptoms and effects, both acute and delayed

General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
---------------------	-------------------------------------------------------------------------------------------------------------

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes for the doctor	Treat symptomatically.
----------------------	------------------------

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

Suitable extinguishing media	The product is not flammable. Cool aerosol containers exposed to heat with water spray and remove container, if no risk is involved.
------------------------------	--------------------------------------------------------------------------------------------------------------------------------------

#### 5.2. Special hazards arising from the substance or mixture

Specific hazards	Containers can burst violently or explode when heated, due to excessive pressure build-up. Decomposes on contact with flames and hot surfaces to produce hydrofluoric acid and fluorophosgene. Containers can burst violently or explode when heated, due to excessive pressure build-up.
------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

#### 5.3. Advice for firefighters

Protective actions during firefighting	Warn firefighters that aerosols are involved. Containers close to fire should be removed or cooled with water.
Special protective equipment protective for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate clothing.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet.
----------------------	-------------------------------------------------------------------------------

## Pipe Freeze Spray

### 6.2. Environmental precautions

Environmental precautions      Not considered to be a significant hazard due to the small quantities used.

### 6.3. Methods and material for containment and cleaning up

Methods for cleaning up          VENTILATE/EVAPORATE.

### 6.4. Reference to other sections

Reference to other sections      For personal protection, see Section 8. For waste disposal, see Section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Usage precautions                Read and follow manufacturer's recommendations.

### 7.2. Conditions for safe storage, including any incompatibilities

Storage precautions              Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50 degrees Centigrade. Do not pierce or burn, even after use.

### 7.3. Specific end use(s)

Specific end use(s)                The identified uses for this product are detailed in Section 1.2.

## SECTION 8: Exposure controls/Personal protection

### 8.1. Control parameters

Ingredient comments              WEL = Workplace Exposure Limits

#### HFO-1234ze (CAS: 29118-24-9)

Ingredient comments              SUP = Supplier's recommendation.

DNEL                                  Workers - Inhalation; Long term systemic effects: 3902 mg/m<sup>3</sup>  
Consumer - Inhalation; Long term systemic effects: 830 mg/m<sup>3</sup>

PNEC                                  - Fresh water; 0.1 mg/l

### 8.2. Exposure controls

Appropriate engineering controls      This product must not be handled in a confined space without adequate ventilation.

Personal protection                Do not eat, drink or smoke when using this product.

Eye/face protection                Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles.

Hand protection                    Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.

Other skin and body protection      Not relevant

Hygiene measures                  Good personal hygiene procedures should be implemented. Clean equipment and the work area every day.

Respiratory protection              If ventilation is inadequate, suitable respiratory protection must be worn.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Appearance                        Aerosol.

## Pipe Freeze Spray

Colour	Colourless.
Odour	No characteristic odour.
pH	Neutral.
Melting point	-108°C
Initial boiling point and range	-19°C @
Flash point	Boils without flashing.
Vapour pressure	4.192 hPa @ 20°C 10.998 hPa @ 54.4°C
Vapour density	4
Relative density	1.206
Solubility(ies)	0.373 g/l @ °C
Partition coefficient	log Pow: 1.6
Auto-ignition temperature	368°C
Comments	Information given is applicable to the major ingredient.

### 9.2. Other information

Other information	Not available.
Molecular weight	102.4 g/mol
Volatile organic compound	This product contains a maximum VOC content of 0 g/l.

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Reactivity	Stable at normal ambient temperatures and when used as recommended.
------------	---------------------------------------------------------------------

### 10.2. Chemical stability

Stability	Stable at normal ambient temperatures and when used as recommended.
-----------	---------------------------------------------------------------------

### 10.3. Possibility of hazardous reactions

Possibility of hazardous reactions	Does not decompose when used and stored as recommended.
------------------------------------	---------------------------------------------------------

### 10.4. Conditions to avoid

Conditions to avoid	Avoid heat, flames and other sources of ignition.
---------------------	---------------------------------------------------

### 10.5. Incompatible materials

Materials to avoid	Keep away from oxidising materials, heat and flames.
--------------------	------------------------------------------------------

### 10.6. Hazardous decomposition products

Hazardous decomposition products Does not decompose when used and stored as recommended. Thermal decomposition or products combustion products may include the following substances: Toxic and corrosive gases or vapours.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

General information	This product has low toxicity. Only large quantities are likely to have adverse effects on human health.
Inhalation	May cause respiratory system irritation.

## Pipe Freeze Spray

Ingestion	No specific health hazards known.
Skin contact	Skin irritation should not occur when used as recommended.
Eye contact	Irritating to eyes.
Acute and chronic health hazards	This product has low toxicity. Only large quantities are likely to have adverse effects on human health.
Route of exposure	Inhalation
Target organs	Respiratory system, lungs
Medical symptoms	Gas or vapour in high concentrations may irritate the respiratory system. Symptoms following overexposure may include the following: Headache. Fatigue. Nausea, vomiting.

### Toxicological information on ingredients.

#### HFO-1234ze

##### Germ cell mutagenicity

Genotoxicity - in vitro	Chromosome aberration, Human lymphocytes.: Negative. Ames test: Negative.
Genotoxicity - in vivo	Gene mutation, (Mammalian bone-marrow cytogenetic test, chromosomal analysis), Mouse, Micronucleus., Inhalation: Negative.

##### Reproductive toxicity

Reproductive toxicity - fertility	Two-generation study - NOAEL >20000 ppm, Inhalation, Rat F1, P
Reproductive toxicity development	Maternal toxicity:, NOEC, Developmental toxicity:, NOAEC - : 15000 ppm, Inhalation, Rat

### **SECTION 12: Ecological information**

Ecotoxicity	No data on possible environmental effects have been found.
-------------	------------------------------------------------------------

#### 12.1. Toxicity

Toxicity	Not available.
----------	----------------

### Ecological information on ingredients.

#### HFO-1234ze

##### Acute aquatic toxicity

Acute toxicity - fish	LC <sub>0</sub> , 96 hours: >117 mg/l, Cyprinus carpio (Common carp)
Acute toxicity - aquatic invertebrates	EC <sub>50</sub> , 48 hours: >160 mg/l, Daphnia magna
Acute toxicity - aquatic plants	NOEC, Biomass ., Growth rate, 72 hours: >170 mg/l, Algae
Acute toxicity - terrestrial	LC <sub>0</sub> , 4 hours: >207000 ppm, Rat NOEC, Repeated Dose Toxicity, 90 days: 5000 ppm, Rat

#### 12.2. Persistence and degradability

Persistence and degradability	Not available.
-------------------------------	----------------

### Ecological information on ingredients.

#### HFO-1234ze

Persistence and	Aerobic Not readily biodegradable. degradability
-----------------	--------------------------------------------------

#### 12.3. Bioaccumulative potential

Bioaccumulative potential	Not available.
---------------------------	----------------

## Pipe Freeze Spray

Partition coefficient                      log Pow: 1.6

### Ecological information on ingredients.

#### HFO-1234ze

Partition coefficient                      log Pow: 1.6

#### 12.4. Mobility in soil

Mobility                                      Not known.

#### 12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB assessment      Not available.

#### 12.6. Other adverse effects

Other adverse effects                      Not available.

### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

General information                      Do not puncture or incinerate, even when empty.

Disposal methods                          Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

### **SECTION 14: Transport information**

General                                      This product is packed in accordance with the Limited Quantity Provisions of CDGCPL2, ADR and IMDG. These provisions allow transport of aerosols of less than 1 litre packed in cartons of less than 30kg gross weight to be exempt from control providing that they are labelled in accordance with the requirements of these regulations to show that they are being transported as Limited Quantities. Aerosols not so packed and labelled must show the following.

#### 14.1. UN number

UN No. (ADR/RID)                          1950

UN No. (IMDG)                              1950

UN No. (ICAO)                               1950

UN No. (ADN)                                1950

#### 14.2. UN proper shipping name

Proper shipping name (ADR/RID)          AEROSOLS

Proper shipping name (IMDG)              AEROSOLS

Proper shipping name (ICAO)              AEROSOLS

Proper shipping name (ADN)              AEROSOLS

#### 14.3. Transport hazard class(es)

ADR/RID class                                2.2

ADR/RID classification code              5A

ADR/RID label                                2.2

IMDG class                                    2.2

ICAO class/division                        2.2

## Pipe Freeze Spray

ADN class 2.2

Transport labels

14.4. Packing group

ADR/RID packing group None

IMDG packing group None

ICAO packing group None

ADN packing group None

14.5. Environmental hazardsEnvironmentally hazardous substance/marine pollutant  
No.14.6. Special precautions for user

EmS F-D, S-U

ADR transport category 3

Tunnel restriction code (E)

14.7. Transport in bulk according to Annex II of MARPOL and the IBC CodeTransport in bulk according to Not  
applicable. Annex II of MARPOL 73/78 and  
the IBC Code**SECTION 15: Regulatory information**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations EH40/2005 Workplace exposure limits.  
The Control of Substances Hazardous to Health Regulations 2002 (SI 2002 No. 2677)  
(as amended).  
The Aerosol Dispensers Regulations 2009 (SI 2009 No. 2824).  
The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment  
Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].

EU legislation Commission Regulation (EU) No 2015/830 of 28 May 2015.

Guidance Approved Classification and Labelling Guide (Sixth edition) L131.

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

**SECTION 16: Other information**

Revision comments Supplemental information added.

Revision date 03/01/2020

Revision 2

SDS number 21355

SDS status Approved.

Hazard statements in full H229 Pressurised container: may burst if heated.  
H280 Contains gas under pressure; may explode if heated.

## Pipe Freeze Spray

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
