# CLEANER, SAFER, BETTER TOGETHER.

For over 30 years, we have been helping UK businesses tackle every type of leak, drip and spill there is.

In a world where expertise matters, our teams' 400+ years of combined experience across Europe means you can trust us to help you choose the right solution from our extensive range of over 1,200 products.

Whether you are looking for more sustainable options, keeping yourself right with regulation compliant solutions or need guidance on which products will meet your needs, our team is here to help.

You'll find all the tools, resources, and expertise you need to manage your liquids here in our 2024 Pigalog.

If you need more information about product applications, have regulatory compliance or chemical compatibility questions, or need help with anything else leaks, drips and spills, visit us at [newpig.co.uk](http://newpig.co.uk) or call our friendly team on 0800 919 900.

**New Pig**

## 1985 CENTRAL PENNSYLVANIA

New Pig is a US-based company that got its start in the Central Pennsylvania town of Tipton. Our company headquarters and manufacturing facilities are there to this day.

## 1993 EUROPEAN EXPANSION

In 1993, New Pig saw an opportunity to bring our products to the international stage, starting with an office and distribution facility in Glasgow, Scotland.

## 2006 WORLDWIDE PRESENCE

By 2006, we expanded our reach to over 70 countries! More than 300,000 industrial, commercial, retail and healthcare facilities worldwide are choosing PIG to solve their leak and spill problems.

## TODAY

Times change, but our mission remains the same: keep on developing products to keep your premises and the environment cleaner, safer, better.

# SHARE A COFFEE ON THE GO!

## PIG Zippo Thermo Flask

Everyone loves PIG's promos! Add this flask to your collection – FREE with any qualifying order over £349.

Free GIFT limited to one per customer. Cannot be redeemed in conjunction with any other offer. Alternative gift may be offered. Available while stocks last. Quote PIGALOG24 to redeem.

# SERVING YOU YOUR WAY

Our Customer Service Representatives are eager to take your order, give you helpful advice and even identify possible savings when you get in touch. You can count on their friendly service before, during and after each sale.

# COUNT ON PIG

## CLEANER

Our comprehensive range of products, from absorbent mats to spill containment and everything in-between, includes more than **250** products that are manufactured using up to 100% recycled content. Look for these icons indicating recycled content throughout this Pigalog.

Percentage of Recycled Content

Varied Recycled Content

## SAFER

For over **30** years New Pig has been providing the high-quality products you need to help protect employees, customers and the environment from your leak and spill problems.

So whether you're keeping walkways dry to reduce slips and falls, absorbing a 98% sulfuric acid spill or handling an oily leak, we have over **1,200** products to help you tackle these problems (and more) safely.

## BETTER

With over **50** patented products to choose from, you can always rely on New Pig for top quality leak, drip, and spill solutions

We're committed to continuous innovation, offering free expert advice and providing first-class service to ensure the highest quality products and advice to better protect your workplace, employees and the environment.

**Look out for all the icons on this page throughout this book.**

PIG products combine top quality and top performance. They'll help you see what sets PIG apart from the rest at a glance.

## A commitment to quality and the environment

You'll find plenty of PIG Products to help you comply with ISO 14001 and promote continuous environmental improvements as identified in an Environmental Management System (EMS). Just look for the icon (above) throughout this Pigalog or phone our Technical Advice Team.

Like you, we are also committed to quality and continuous improvement! You can count on New Pig for exemplary service and environmental commitment as evidenced by our ISO 9001 and ISO 14001 certifications.

# ABSORBENTS

Any liquid, any job, any workplace – soak it up with PIG.

# TRUST YOUR MESS TO THE VERY BEST

## PIG Absorbents — the best you can buy for the worst you've got.

If you work around liquids — leaks, drips, and spills are inevitable. That's where **PIG Absorbents** come in. With over **250 absorbent products** to choose from, including **patented and recycled** solutions, we've got what you need to clean up any mess you've got.

Select from our tried-and-trusted mats, socks and booms, pillows and pans, and loose absorbent products to tackle leaks, drips and spills with confidence — including oils, coolants, solvents, water, fuels, chemicals, and more.

### Nothing tackles liquids quite like PIG Mat!

**PIG Mat's** multi-layered construction delivers the perfect combination of fine-fibre materials, thermal bonding, and multi-layered design. That all adds up to absorption, retention, and durability that just can't be beat.

Join industry professionals worldwide and choose **PIG Absorbent Mat** to keep your workplace cleaner, safer, and better prepared for when spills strike.

### Leaks and spills — we have you surrounded

It's no secret — back in the '80s our **Original PIG Sock** launched the absorbent industry as we know it today. Since then, we've continued to innovate bringing you multiple sock and boom products to help contain leaks and stop spills from spreading both indoors and out.

Choose socks to surround machine bases, or tackle nasty liquids on water with our range of booms.

### Extra absorbency for spill clean-ups

Sometimes spill response calls for added absorbency — that's where **PIG Pillows and Pans** come in!

These high-capacity absorbents are ideal for adding absorbency during spill response efforts or capturing steady leaks and drips around spigots, flanges, machinery, and pipes.

We even offer **Chemical-Resistant Skimmer Pillows** that float to absorb surface oil from tanks and are tough enough to handle acid baths and phosphate tanks!

### Better than clay in every way

An economical addition to your modern spill response programme — **Loose Absorbents** offers a cost-effective way of cleaning up the remnants of a spill from those hard-to-reach cracks and crevices. We may have left the cat litter where it belongs, but our silica-free loose is lighter, more absorbent, and cleans up better than clay.

## INDEX

**"The quality and engineering that go into our absorbents are second to none and we never stop looking for cleaner, safer, better ways to work."**

# UNIVERSAL ABSORBENTS

Perform everyday maintenance and clean up spills of oils, coolants, solvents and water.

## What is **Universal**?

Also called Maintenance, Repair and Operations (MRO) absorbents, they soak up the widest range of liquids for everyday applications, including:

- Hydraulic oil
- Vegetable oil
- Fuel
- Diesel fuel
- Antifreeze
- Water-based solvents
- Propylene glycol
- Acetone
- Toluene & Xylene
- MEK (methyl ethyl ketone)
- Many other noncorrosive liquids

# SOME SPILLS NEED MORE THAN A MAT

Tired of trying to remember which absorbent works for which liquid? Count on Universal.

PIG Universal Absorbents absorb the widest range of liquids for everyday applications, including oils, coolants, solvents, and water. We have a wide variety of Universal Absorbent products to meet all your spill clean-up needs.

### PIG Universal Mat Pads & Rolls

PIG mats are strong and durable enough to last you twice as long as any other brand. Many of our Universal Mats are manufactured using recycled content and are made to work in any environment.

### PIG High Traffic Mats

Soak up those leaks, drips, and spills with our roughest, toughest mats. Their upgraded features such as spunbond layers, zigzag stitching, and adhesive Grippy backing, for example, make them durable enough to handle anything from foot to forklift traffic.

### PIG Specialty Mats

Our unique, patented and invented-here absorbent solutions offer you all the power of PIG Mat with added versatility. Additional features like our Hamouflage design, offer unique grime-hiding properties, while our multi-tasker 4 in 1 Mat offers four absorbent solutions in one.

### PIG Universal Socks

PIG Universal Socks offer superior absorption and liquid containment. Use to surround leaks and spills, preventing liquids from spreading and reducing slip and fall hazards all while containing liquids for easier clean-up.

### PIG Drip Pans & Pillows

PIG Pillows are highly absorbent — they offer a generous surface area to absorb large quantities of liquids, making them ideal for larger spill clean-ups. When nuisance drips are your problem, PIG Drip Pans offer a sturdy solution to catch and contain them to help keep floors clean, dry and safe.

### PIG Universal Loose Absorbents

Better than clay in every way, PIG Universal Loose Absorbents offer fast-excellent spill absorption. The range also includes products that are manufactured using 100% post-consumer recycled cellulose waste.

### PIG Essentials Universal Absorbents Range

PIG Essentials products are an economical choice for everyday use. These budget-friendly basics offer great value without sacrificing performance and are available in mats, rolls, socks and booms.

**LOOKING FOR ECONOMICAL ABSORBENTS FOR EVERYDAY USE? CHECK OUT OUR PIG ESSENTIALS PRODUCTS ON PAGES 22-23, 37-38 & 41.**

# PIG MAT

THERE'S JUST NO MATCH

# PIG MAT

VS

# THEIR MAT

**EXCEPTIONAL STRENGTH**

**RIPS AND TEARS**

**RETAINS LIQUID**

**STRUGGLES TO HOLD LIQUID**

**NO FIBRE RESIDUE**

**LEAVES RESIDUE BEHIND**

**LAB TESTED TO GIVE THE PERFECT BALANCE  
OF DURABILITY, ABSORBENCY & RETENTION**

See PIG Universal Mats on pages 13-23 & 27-33.

# UNIVERSAL MATS

## ► Lasts 2X longer

Tougher than ordinary mats for fewer changeouts.

## ► Strong layered construction

Won't rip, tear or shred, even if soaked.

## ► Highly absorbent

Fine-fibre construction retains liquids.

## ► Exclusive dimple pattern

Quickly wicks liquid for faster, easier clean-up.

## ► Easy-tear perforations

Use only what you need, reduce waste.

Multiple layers of 100% polypropylene make PIG Universal Mat the toughest on the market.

## NEED A UNIVERSAL MAT?

Let us help you choose the right one.

### 1. SELECT FOR POTENTIAL SPILL VOLUME

#### **Lightweight** See page 13

Designed to handle small leaks, drips and spills.

#### **Mediumweight** See page 14

An economical choice when you don't need maximum absorbency.

#### **Heavyweight** See pages 15-18

Absorb more liquid per pad for high-volume leaks and large spills.

### 2. SELECT MAT TYPE AND PACKAGING

#### **Mat Pads**

Mat pads are ideal for catching drips and soaking up spills.

#### **Mat Rolls**

Ideal for covering large areas and soaking up leaks and overspray.

#### **Dispenser Box**

Take, carry and store your mat whilst protecting it from dirt and moisture.

MAT204

## Lightweight Universal Mats — Designed for small leaks, drips and spills.

- Multiple layers of **100% polypropylene** are thermally bonded to make PIG Mat the strongest mat on the market; it won't rip, tear or fray even when saturated
- Lightweight construction is **ideal for small tasks and cleanup**
- Absorbs **common industrial liquids**; oils, water, solvents, coolants and more
- **Dark grey colour hides grime** so mat stays on the job longer
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat whilst on the job
- Contains **25% or more recycled content**

MAT2240

## Absorbent Mat Combo in Dispenser Box — Two of our top mats are now in one box so you can be ready for any spill.

- With two types of Mats in one package, you can **absorb any liquid!** Choose **Universal** for oil, coolants, solvents and water, or **Oil-Only** for petroleum-based liquids
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Double-sided dispenser box** makes it easy to take, carry and store your mat whilst protecting it from dirt and moisture

### Universal Mat

- **Absorbs common industrial liquids;** oils, water, solvents, coolants and more
- **Dark grey colour** hides grime so mat stays on the job longer
- Contains **25% or more recycled content**

### Oil-Only Mat

- **Absorbs and retains oil-based liquids** — including lubricants — without taking in a drop of water
- Bright white colour **makes absorbed oil easier to see**

### PIG® Absorbent Mat Combo in Dispenser Box

## Extra-Duty Mat — Clean up with two-sided toughness.

- Two additional spunbond outer layers **resist ripping and fraying from wiping rough surfaces or parts** that would shred conventional mats
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup; **highly absorbent**, fine-fibre construction won't leave behind liquids or fibre residue
- **Low-lint** for wiping rough parts or equipment and for cleaning in paint booth applications; also great for lining benches
- Contains **25% or more recycled content**

## PIG® Poly-Back Absorbent Mat Pads and Roll — An extra layer of protection to prevent liquids from reaching floors.

- **Backing** prevents absorbed liquids from reaching floors, counters or other surfaces
- Place over a spill with poly-back side up to **suppress potentially harmful, flammable or irritating vapours**
- Heavyweight construction delivers greater durability and absorbency **for demanding tasks and large-volume clean-ups**
- Contains **25% or more recycled content**

### PIG® Poly-Back Absorbent Mat Roll

## PIG® Barrel Top Mat — Keep drum tops clean with a mat that's shaped to fit.

- **Soak up pump drips** without cluttering up your workspace with dirty rags
- **Dispenser box** makes it easy to carry and store your mat while protecting it from dirt and moisture
- **Precut holes** for  $\frac{3}{4}$ " and 2" bungs provide a perfect fit on drum tops
- Layers of 100% polypropylene make PIG Mat the strongest mat on the market; **won't rip, tear or fray** even when saturated
- Contains **25% or more recycled content**

All PIG Barrel Top Mats are packaged in a wall-mount dispenser — hang it anywhere!

### PIG® Barrel Top Absorbent Mat

MAT242

## PIG® Rip-&-Fit Rolls — Create custom sizes without cutting.

- **Extra perforations** in our Rip-&-Fit Mat allow you to easily “rip” this PIG Mat and “fit” it to your application — create the right size mat size and shape for any area without cutting!
- No matter how you rip it, this mat features the proven multi-layered, 100% polypropylene construction of PIG Mat, the **strongest mat on the market**
- Perforated **every 10cm across width** and **every 25cm along length**
- Highly absorbent, fine-fibre construction **won't leave behind liquids or fibre residue**
- Flame-resistant material **won't burn immediately like untreated cellulose mats**; melts when exposed to high heat whilst on the job
- **Dark grey colour hides grime** so mat stays on the job longer
- **Dispenser box (MAT242)** is easy to carry and store your mat while protecting it from dirt and moisture
- Rip-&-Fit design means you use less and waste less, **helping with ISO14001 compliance**; mat can be incinerated to further reduce waste
- Contains **25% or more recycled content**

MAT242

MAT243

Tear at the perforations to create the right mat size for any area, any shape!

### PIG® Rip-&-Fit® Absorbent Mat Rolls in Dispenser Box

## **High Visibility Mat** — Alert workers to slip hazards while cleaning up leaks.

- **High-visibility yellow colour** is easier to see in poorly lit areas to minimise tripping hazards; alerts workers to potential dangers and work in progress
- Multiple layers of 100% polypropylene are thermally bonded to make PIG Mat the **strongest mat on the market**; won't rip, tear or fray even when saturated
- **Highly absorbent**, fine-fibre construction won't leave liquids or fibre residue behind
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Perforated pads and rolls** are easy to tear to size

## **Thick Liquids Mat** — Specially made to soak up paints, glues, resins and more.

- Thirsty air pockets absorb even the **stickiest thick liquids** with only slight pressure
- Quickly absorbs thick, high-viscosity liquids that **conventional absorbents can't handle**
- Can also be used to **filter metal chips and other large debris**
- Ideal for cleaning up **paint spills, glues, resins, liquid chocolate, syrup and varnish**

### **PIG® Thick Liquids Absorbent Mat Pads**

# SUPER SOAKER-UPPER

BLU102

## **Blue Mat** — Our most absorbent mat easily handles high-volume liquids.

- **Max absorbency absorbs more** so you use less on big spills and high-volume leaks; absorbs **oils, coolants, solvents and water**
- **No leak zones!** Consistent construction produces a mat that's free of light spots to absorb liquid evenly for better wicking and retention
- **Stays together**, even when picking up or shifting a fully saturated mat
- **Ideal in situations** where green products are desired or required
- **Fire retardant for added safety**; flame tested in accordance with ASTM Standard E84-08
- Contains **75% recycled content**

Pig Blue soaks up high volumes of liquid from around machinery with ease.

### **A CLOSER LOOK**

Superabsorbent core fuses natural and synthetic fibres to enhance absorbency, strength and loft.

Fused layers create strength and enhance absorbency.

Lofty inner core for superabsorbency.

## **PIG® Essentials Plus Universal Mat Pads — Controls spills and overspray to help keep floors dry and safe.**

- Top layer of low-lint spunbond fabric provides **extra strength and tear resistance**
- A layer of meltblown polypropylene creates high surface area that enables the mat to **quickly soak up liquids on contact**
- Mat **absorbs high volumes of liquid fast**; great for catching overspray or soaking up spills
- Bond points increase speed of absorbency and fuse layers of fibres together — mat **keeps its shape even when completely saturated**
- **Dispenser box** makes it easy to take, carry and store your mat whilst protecting it from dirt and moisture
- **Rolls** are ideal for covering large areas and soaking up leaks and overspray
- **Pads** are ideal for catching drips and soaking up spills

# HIGH-TRAFFIC ABSORBENT MATS

**Our roughest, toughest mats are built for traffic — from feet to forklifts!**

Our original **PIG Mat** offers plenty of *oomph!* for messy jobs all around your workplace. That's why it's used in more workplaces than any other brand. But when leaks, drips and spills hit your aisles, walkways and other high-traffic areas, you need something more.

Our family of **High-Traffic Absorbent Mats** amplify durability — offering you all the power of **PIG Mat** and then some. Upgraded features like spunbond layers, zigzag stitching, heat fusion, needle punching or adhesive backing make these mats the toughest you can buy. They can take a daily barrage of wheels and work boots, and some are even tough enough to withstand forklift traffic.

## NEED A HIGH TRAFFIC ABSORBENT MAT?

Let us help you choose the right one.

### SELECT BASED ON TYPE OF TRAFFIC

Foot Traffic

Light-Wheeled Traffic  
(e.g. Pallet Trucks)

Heavy Traffic  
(e.g. Forklifts)

#### PIG Grippy Adhesive-Backed Absorbent Mat

Spunbond top is zigzag stitched for extra strength. Great for foot traffic, trolleys and pallet trucks. Grippy adhesive backing won't budge.

**See page 27**

#### PIG Elephant Mat

We took our classic PIG Mat and zigzag-stitched it for extra durability. This mat can take whatever your boots dish out.

**See page 28**

#### PIG Traffic Mat

Our most durable absorbent mat! Keep floors dry, even in areas with forklift traffic.

**See page 29**

MAT3200

MAT3250

## Grippy Absorbent Mat — Our exclusive, adhesive-backed mat stays put to prevent slips, trips and falls.

- Adhesive-backed absorbent mat stays exactly where you put it with no shifting, bunching up or flipping over to **prevent slips, trips and falls in workstations and around machinery**
- Proprietary adhesive sticks to the floor with a super-tight grip, but **peels up easily for quick changeouts**; reduces cleanup time to make your facility more productive
- PIG Grippy Mat **will stick to most common commercial floor surfaces**, including: concrete, vinyl tile, ceramic and quarry tile
- Tough, spunbond top layer with **heavy-duty zigzag stitching** stands up to foot and light-wheeled traffic as well as heavy equipment driveovers; replace when mat becomes saturated or shows signs of wear or damage
- Layers of fine-fibre polypropylene **safely absorb leaks, drips and overspray of oils, coolants, solvents and water**
- Contains up to **25% recycled content**

Reduce slip and fall claims by as much as 90%!

Grippy Mat is tested and certified by the National Floor Safety Institute (NFSI) as a high-traction surface, which can reduce slip and fall claims by as much as 90% when used as part of a Floor Safety Program.

Please note: New Pig provides the warranties implied by law only in relation to New Pig adhesive-backed mats. The customer must ensure that these products are suitable for use in their premises and on their flooring. Product lifespan dependant upon usage conditions and traffic patterns. Further details to relevant terms and conditions can be found on page 140.

**SEE OUR FEATURED GRIPPY SECTION ON PAGES 119-140 ►►**

## A CLOSER LOOK

Spunbond top layer stands up to traffic; dark colour hides grime.

Zigzag stitching adds strength.

Layers of fine-fibre polypropylene absorb oils, coolants, solvents and water.

Poly backing stops liquid from passing through to floors.

Fully coated adhesive backing holds tight but leaves no residue.

Zigzag stitching lets you walk all over it.

MAT234

## **Elephant Mat** — Our zigzag-stitched mat offers absorbency plus walk-on durability.

- Mat has **greater wear resistance** so you replace it less often
- Highly absorbent multi-layered PIG Mat is zigzag stitched to offer **excellent walk-on durability**
- Designed specifically for **heavy foot traffic or moderate to light wheel traffic**; put the zigzag side up to extend product life
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Highly absorbent, fine-fibre construction** won't leave liquids or fibre residue behind
- **Dark grey colour hides grime** so mat stays on the job longer
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- Contains **25% or more recycled content**

## A CLOSER LOOK

Zigzag stitching adds strength.

Multiple layers of meltblown polypropylene.

MAT270

Impermeable backing on PIG Poly-Back Elephant Mat prevents oil from getting through to the floor.

MAT218

## PIG Traffic Mat — Keep floors dry, even in forklift areas, with our most durable absorbent mat.

- 100% polypropylene material is heat fused and needle punched for **incredible durability** for walk-on and wheeled traffic
- Our most durable mat **won't rip, shred or fray**, even under heavy forklift traffic
- Dark grey colour **hides grime** so mat stays on the job longer
- **Ideal for walkways** and large areas to soak up leaks and overspray
- **Poly backing** (MAT223) prevents absorbed liquids from reaching floors

### PIG® Traffic Mat® Absorbent Mat

| Item #        | Weight | Size           | # Rolls | Abs. Up To | 1-2            | 3+             |

**WANT TRAFFIC MAT WITH AN ADHESIVE BACK?**  
SEE PIG GRIPPY FLOOR MAT STARTER PACK ON PAGE 131 ►►

Poly backing on MAT223 prevents absorbed liquids from reaching floors or counters.

## A CLOSER LOOK

Barbed needles interlock polypropylene fibres for more durability.

Surface is heat fused for superior durability.

Poly backing (MAT223) to keep liquid from passing through to floors.

Now you see it...

...now you don't!

Oily leaks, drips and spills disappear as they're absorbed.

MAT116

## **pig** Ham-O Mat — Keep it down until it's soaked. The grime-hiding top always looks clean.

- Exclusive **"hamouflage"** top layer saves on product and disposal costs; **absorbed grime is invisible**, so you'll leave mat in place longer and save money
- **Fast-wicking dimple pattern** transfers liquids from the top layer into the absorbent inner layers; spills disappear in seconds
- Tough, scuff-resistant, spunbond top layer **stands up to heavy foot traffic**; won't rip, tear, fray or create a trip hazard, even when saturated
- **Easy-tear perforations** let you take only what you need so you use less mat and save money
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat
- Helps you meet **ISO 14001 guidelines**
- Contains **25% or more recycled content**

grime-hiding colours!

MAT117

## A CLOSER LOOK

Tough spunbond top layer stands up to heavy foot traffic.

Multiple layers of polypropylene provide absorbency and wear resistance.

**1 IT'S A PAD!**

**2 IT'S A ROLL!**

**3 IT'S A WIPE!**

**4 IT'S A SOCK!**

## **4 in 1 Mat** — Stock one absorbent for a variety of leaks, drips and spills.

- Exclusive 4 in 1 Mat is a **pad, roll, sock and wipe** all in one
- Use as a **pad** to catch drips and soak up spills; **roll** out to cover large areas; fold along score lines to make a thick, absorbent **sock**; tear off a piece to use as a low-lint **wipe**
- Builds on the proven multi-layered, 100% polypropylene construction of PIG Mat, **the strongest mat on the market**
- **Scuff-resistant, spunbond outer layer** resists wear and tear, even under heavy foot traffic or abrasive conditions
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup; **highly absorbent**, fine-fibre construction won't leave liquids or fibre residue behind
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- Rolls are perforated every 25.5cm; **easy to tear to size**, use only what you need
- Contains **25% or more recycled content**

MAT2102

## PIG Fat Mat — Double-thick to absorb more plus a durable top layer for long life.

- Extremeweight Fat Mat construction is ideal for jobs that require **long life and high capacity**
- **Twice as many layers** as original PIG Mat; 100% polypropylene is thermally bonded to form one super-absorbent mat capable of drinking up huge volumes of liquid
- Tough, spunbond top layer **stands up to heavy foot traffic**; won't rip, tear, fray or create a trip hazard, even when saturated
- **Fast-wicking action** transfers liquids into the absorbent inner layers to keep moisture away from surface
- **Easy-tear perforations** let you take only what you need, so you use less mat and save money
- Contains **25% or more recycled content**

PIG210

## Super Absorbent Sock — Handle your high-volume leaks with our most absorbent sock.

- **Extra-thirsty, formable socks** hug corners and walls, surround higher-volume machine leaks and contain spills to keep workers safe
- Cellulose filler is **highly absorbent for big leaks and spills**; super absorbency means that you replace them less often
- **Stitch-bonded, polypropylene skin** resists bursting; reduces dust and holds in liquid, even when saturated
- **Absorbs and retains oils, coolants, solvents and water**; not recommended for acids, caustics or other corrosive liquids
- **Wringable** for reclaiming up to 65% of absorbed liquid
- Contains a mixture of **85% pre- and post-consumer recycled cellulose filler** — ideal when green products are desired

PIG210

85% Recycled Cellulose Filler

PIGE700

## Essentials Universal Socks and Booms — Ideal for leaky machines and spill response.

- Easy and convenient to put into place; contain spills to **keep fluids from spreading** into larger areas and becoming slippery hazards
- Socks are ideal for **surrounding spilled fluids or wrapping around leaky machines**
- **Booms include durable, easy-to-use connectors** that provide a simple and efficient way to link Booms together and create a containment system big enough to handle almost any size spill
- **Polypropylene filler** is excellent for both absorbency and liquid retention
- Grey colour signifies Universal absorbency for easy visual identification when responding to spills of **non-aggressive liquids like oils, coolants, solvents and water**

PIGE700

Poly Filler

## PIG® Drip Pan — Low-profile pan traps leaks from drum taps, spigots and flanges.

- Low-profile drip pan fits underneath drum taps and other tight spaces; **wide base won't tip over** like unsturdy buckets
- Soft polypropylene cover **catches drips without splashing** and prevents polypropylene filler from spilling out
- Highly absorbent polypropylene filler **soaks up liquid on contact**
- Ideal for use **under leaking drum taps, spigots and flanges** to absorb nuisance drips; keeps your floors clean and safe
- Contains **98% pre-consumer recycled polypropylene filler**

PIG® Pans are packed with highly absorbent, recycled loose filler that holds up to 2.8L of liquid!

2410PP

98% Pre-Consumer Recycled Polypropylene Filler

### PIG® Absorbent Drip Pan

| Item #    | Size                    | # Pans | Abs. Up To | 1-2     | 3+      |
|-----------|-------------------------|--------|------------|---------|---------|
| ★ 2410PP  | 27cm W x 27cm L x 8cm H | 24     | 67.2L      | £146.00 | £138.70 |

## PIG® Essentials Universal Pillow — Absorb high-volume leaks and spills of oils, coolants, solvents or water.

- Pillows are **easy to place in hard-to-reach areas** — use under machines and leaky hydraulic hoses or wedge in corners cramped for space
- Pulls liquids from the floor like a sock, catches leaks like a pan, absorbs spills like a pad; versatile product that **works for many different jobs**
- Ideal for spill response; pillow's **large surface area speeds the absorption process** and shortens the overall response time

PILE705

### PIG® Essentials Universal Absorbent Pillows

PIL201

## **pig Absorbent Pillow** — Highly absorbent pillows have the capacity for large spills and steady drips.

- Pillow has **large surface area**, high capacity and fast-wicking filler to quickly soak up liquids
- **Polypropylene skin** resists tearing; reduces dust and holds in liquid, even when saturated
- Cellulose filler is **highly absorbent** for long-term use or big spill cleanup
- **Compact design** is great for catching persistent drips and leaks in small spaces or adding absorbency for spill response
- Contains a mixture of **85% pre- and post-consumer recycled cellulose filler**

PIL201

## **Crysta-lite Absorbent Granules** — Economical non-toxic loose absorbent.

P45-1

- Can be used as an absorbent media in enclosed containers; **non-combustible**
- Remains granular, even when saturated; **stands up to heavy traffic** without releasing liquids
- **Particle size of 3.0mm to 6.0mm**
- Countless tiny air bubbles within granules create **ultra light weight**
- High surface area and **excellent absorption**
- **Chemically inert and non-toxic mineral product**; ideal for oil, water, hazardous chemicals, nuclear waste and more
- Non-toxic mineral product is **safe to handle** and use without any risk

Non-Toxic Mineral Particles

P45-1

### **PIG® Crysta-lite Absorbent Granules**

| Item #  | 1-15           | 16-34         | 35+           |
|---|----------------|---------------|---------------|
| ★ <b>P45-1</b> • 1 - 3.5kg Bag • Absorbs up to 18L/bag      | <b>£12.50</b>  | <b>£11.25</b> | <b>£10.63</b> |
| <b>P45-PLT</b> • 70 - 3.5kg Bags • Abs. up to 1,260L/pallet | <b>£705.00</b> |               |               |

NOTE: Packaged by volume; seasonal variance can affect packaged weight.

## **FIRE-DRI** — Organic, renewable and fireproof.

- Vegetable absorbent dried at high temperatures and processed to develop a **fireproof behaviour**
- Absorbs liquid spills, leaving clean, dry and safe surfaces, **free from oily sheen**
- Fire-retardant material is **capable of absorbing more than 3kg of oil per 1kg of product** — perfect for use in locations such as petrol stations, garages, airports and railway stations
- Natural, renewable resource absorbent has a **low environmental impact** since it can be eliminated by incineration
- **Non-abrasive, light-weight material** is ideal solution for logistics and haulage companies, service and cleaning companies, armed forces and emergency services

Fire Retardant Softwood Fibre

### **PIG® FIRE-DRI**

|--|--------------|--------------|--------------|
| <b>PLPE270</b> • 1 - 6kg Bag • Absorbs up to 15L/bag | <b>£9.65</b> | <b>£8.69</b> | <b>£8.20</b> |

NOTE: Packaged by volume; seasonal variance can affect packaged weight.

## **pig** GRIP-DRI — Quick-acting, non-flammable and chemically inert absorbent.

- Fast-acting universal absorbent is chemically inert, making it **compatible with almost any liquid**; soaks up oils, coolants, solvents, water, acids and caustics
- **Remains granular even when saturated** to provide excellent retention; **stands up to heavy traffic** without releasing liquids
- Fire-retardant product is **ideal for use with low flash point solvents and other flammables**
- Micro-granular formulation **absorbs 25% more** than regular moler absorbents
- Low-dust and easy to sweep away; **won't leave behind an oily sheen** or residue
- **Tested as per** UNI CEN/TS 15366:2010, MPA Typ III R and NF P 98-190

### PIG® GRIP-DRI

| Item #  | 1-15   | 16-69  | 70+    |
|---|--------|--------|--------|
| ★PLPE260 • 1 - 15kg Bag • Absorbs up to 19.8L/bag | £15.50 | £13.95 | £13.18 |

## **pig** Essentials Cellulose Fibre Loose Absorbent — Over 3X more absorbent than typical clay.

- Three times more absorbent means you'll use less material on the spill, **reducing your labour and disposal costs**
- European-sourced, post-consumer recycled cellulose is carefully blended, processed into pellets, and then crushed to create the **optimum bulk density for absorbent performance**
- Nonabrasive composition **won't harm finished floors or damage expensive machinery**
- **Lightweight absorbent** is easier than clay to carry and use without injury
- Lightweight 8kg bag is **easy to handle**
- **Environmentally conscious recycled material** reduces the amount of waste entering landfills
- Contains **100% post-consumer recycled cellulose waste**

### PIG® Essentials Cellulose Fibre Loose Absorbent

| Item #  | 1-15   | 16-84  | 85+    |
|---|--------|--------|--------|

PLP213-1

GEN305

### **pig** Dri Loose Absorbent — Heavy absorbent granules won't blow around.

- Unlike clay, fast-wicking cellulose-based kaolin granules **begin to soak up liquid the moment they touch the spill**
- Silica-free composition **does not pose the health hazards** associated with breathing in clay dust
- Contains **100% post-consumer recycled cellulose waste** (a by-product of the papermaking process) — **ideal when green products are desired or required**

#### PIG® Dri Loose Absorbent

# WATER ABSORBENTS

**Keeps floors dry and safe with our range of water absorbents — perfect for condensation and wet weather clean-ups.**

**Stop water in its tracks** before it leads to costly damages or injuries with our highly absorbent mat pads, socks, handy all-in-one kits and superabsorbent water spill pads and strips.

Designed specifically for water clean-up during wet weather, system failures and breakdowns overflows, spills, roof leaks and more. Our **Water Absorbent Mats** absorb a ton of water on contact so there are no pools or puddles to slip on.

**PIG Water-Absorbing Socks** also soak up large volumes of water on contact to stop water leaks, drips, spills and condensation before they become a floor safety hazard.

**Absorb-&-Lock Absorbent Strips and Pads** swell up and lock in high volumes of water on contact so it can't escape. They are perfect for around the base of equipment, appliances and machinery, underneath pipes, or in window wells and doorways.

They're low-profile even when saturated, so they stay out of the way as they work — catching and locking in water leaks, drips and condensation — so they're never a trip hazard like buckets or pans.

**PIG Water-Absorbing Spill Kits** are packed with tried and trusted PIG Water Absorbents for quick spill response — delivering the best retention of water-based leaks and spills.

**PIG Water Hogs** are designed to absorb only water and remove it from fuel tanks. Just drop them into the fuel-tank port to prevent lines from freezing and fuel from gelling.

### WEATHER-RELATED

PIG Water Absorbents can help you manage weather-related issues such as a leaky roof, wet entrance or rising water at the loading dock.

### OPERATIONAL

Our specialised product line can also help you respond to operational problems, such as leaky pipes, toilet overflows or equipment condensation.

WTR001

WTR004

**PIG® Absorb-&-Lock Water Strips** — These low-profile absorbents swell up to pull in high volumes of water.

- **Super Absorbent Polymer (SAP)** filler swells on contact and expands and “locks” large volumes of water quickly; won’t leach or run out when you pick up or dispose, even when fully saturated
- **Ideal for overflows and leaks** at the base of equipment, machinery and appliances such as refrigeration units
- Strips (before water contact) are **low-profile** to fit tight spaces

Strips swell on contact with water to keep absorbing more.

#### PIG® Absorb-&-Lock™ Water Absorbent Strips

| Item # | Size             | Units   | Abs. Up To | 1-2    | 3+     |
|--------|------------------|---------|------------|--------|--------|
| WTR001 | 13cm W x 152cm L | 10/pkg. | 50L/pkg.   | £33.25 | £31.59 |

**PIG® Absorb-&-Lock Water Pads** — Deploy these super absorbent hi-vis pads to absorb high volume leaks and drips in problem areas.

- **Super Absorbent Polymer (SAP)** filler swells on contact and expands and “locks” large volumes of water quickly; won’t leach or run out when you pick up or dispose, even when fully saturated
- **Ideal for sewage and toilet backups** and overflows at the base of equipment, appliances and machinery
- **Expanded pads** prevent further leaks and drips from escaping

Pads swell on contact with water to keep absorbing more.

#### PIG® Absorb-&-Lock™ Water Absorbent Pads

| Item # | Size            | Units   | Abs. Up To | 1-2    | 3+     |
|--------|-----------------|---------|------------|--------|--------|
| WTR004 | 36cm W x 36cm L | 10/pkg. | 40.1L/pkg. | £27.50 | £26.13 |

**PIG® Mildew-Resistant Absorbent Sock** — Clean up the mess, hang it out to dry and redeploy for more.

- Flexible socks **stop leaks, spills and condensation from spreading into walkways**; ideal for placement under freezers and coolers, surrounding equipment and stopping the spread of spills
- 100% polypropylene skin and filler **resist the growth of mildew** unlike cellulose absorbent socks
- Very effective and highly efficient for absorbing water. **Air dry and reuse up to 1-3 times**; squeeze water from sock and let sock air dry before reuse
- **Two colour options**: choose yellow socks for high visibility or blue to blend in with surroundings
- Contained absorbent **makes cleanup quick and easy**

Polypropylene  
Filler

#### PIG® Mildew-Resistant Absorbent Sock

NOTE: Not intended for use in direct sunlight.

WTR018

## **pig** Super Water-Absorbing Sock — Delivers the best retention of absorbed water-based leaks and spills.

WTR020

Overlap socks to keep leaks contained and stop them from spreading.

WTR018

Place socks in trouble spots to soak up leaks, condensation or puddles.

- **Super Absorbent Polymer (SAP)** filler and spunbond skin pulls in large volumes of liquid on contact
- Fast-wicking sock **confines and contains pools and puddles** to prevent property damage and personal injuries
- Locks liquid inside, without leakage, for **faster, more economical liquid clean-up**
- **Ideal for use** with water-based, noncorrosive liquids
- Soaks up water from **windows, cracked foundations and seepage under doors**
- **Great for surrounding machines** during system breakdown; use around pipes, broken hoses, leaking hot water tanks or malfunctioning equipment
- **Soaks up excess washdown water** in food service and food processing areas

WTR020

Super Absorbent Polymer Filler

### PIG® Super Water-Absorbing Sock

| Item # | Size               | Unit | Abs. Up To | 1-2     | 3+      |
|--------|--------------------|------|------------|---------|---------|
| WTR018 | 8cm Dia. x 122cm L | 40   | 265L/box   | £106.00 | £100.70 |
| WTR020 | 8cm Dia. x 122cm L | 20   | 132.5L/box | £57.50  | £54.63  |

NOTE: Not recommended for acids, caustics or other aggressive liquids.

Wring water from mats and redeploy to absorb more during a single water spill!

WTR006

## PIG® Water Absorbent Mat — The ONE mat to stock for water cleanup caused by wet weather, washdowns, ceiling leaks and more.

- Designed and engineered to **pull in large volumes of water on contact**; superfast wicking helps you quickly eliminate puddles to prevent damage and falls
- Wring and re-use** during a single water clean-up for quicker, more economical spill response
- Tough, spunbond top layer holds mat together when it's fully saturated, so it **won't rip or fall apart** when you pick it up
- Easy-tear perforations** let you take only what you need
- Cleaner method** than dirty mops, rags and towels
- Contains **60% pre-consumer recycled cellulose**

WTR006

WTR008

### PIG® Water Absorbent Mats

| Item #   | Size            | Units       | Abs. Up To   | 1-2     | 3+      |

| WTR008   | 76cm W x 46m L  | 1 roll      | 162.4 L/roll | £229.00 | £217.55 |

NOTE: Not recommended for acids, caustics or other aggressive liquids.

Patent 8,182,927

## PIG® Absorbent Mat Roll in Dispenser Box — Cover long, narrow ledges to capture condensation and contain drips.

- 10cm x 46m rolls are **ideal for covering long runs, narrow areas or placing in troughs**; mat absorbs and retains leaks, condensation, and spills to stop them from spreading into walkways
- 100% polypropylene **resists the growth of mildew, tearing and chemicals**; reduces dust and holds in liquids, even when fully saturated
- Perforated every 25cm so you can **tear off as much as you need for the job**
- Very effective and highly efficient for absorbing water; **water-soaked mats can be air-dried and re-used**
- Contains **25% or more recycled content**

### PIG® Absorbent Mat Roll in Dispenser Box

| Item #  | Weight | Size           | # Rolls | Abs. Up To | 1-2    | 3+     |
|---------|--------|----------------|---------|------------|--------|--------|
| MAT4150 | Heavy  | 10cm W x 46m L | 1       | 20.4L      | £34.75 | £33.01 |

## PIG® Water-Absorbing Spill Kits — Clean up flood water and heavy rain with ease.

- Help **protect your assets and inventory** from costly water damage; keep floors dry and safe to eliminate slips and falls
- Kits are packed with the **best absorbents for soaking up water** — use Super Water-Absorbing Socks for blocking and diverting, and Water Absorbent Mat Pads for big leaks and puddles; KIT917 also includes Absorbent Pillows for larger volumes
- **Wring and re-use** PIG Water Absorbent Mat Pads during a single water spill cleanup, then dispose
- **Compact kit with zipper closure** (KIT914) takes up little storage space; kits come in transparent bags to check supply levels at a glance
- **Kits contain recycled content**; PIG Water Absorbent Mat Pads (WTR006) contain up to **60% pre-consumer recycled cellulose**; KIT917 also includes PIG Absorbent Pillows (PIL201, PIL204) that **contain a mixture of 85% pre- and post-consumer recycled cellulose filler**

KIT914

Transparent, compact bag is easy to quickly transport directly to intruding water.

KIT914

KIT917

### PIG® Water-Absorbing Spill Kit in See-Thru Bag

| Item #  | 1-2           | 3+            |

NOTE: Not recommended for acids, caustics or other aggressive liquids.

## PIG® Water Hog — Absorb only water and remove it from your fuel tanks.

WTR202

- Removes water from fuel tanks; **absorbs water but not fuel**
- **Prevents frozen fuel lines and gelled fuel**
- **Combats rust, algae and filter blockage** to prevent premature engine wear and potential failure
- **Heavy-duty rip-stop cotton skin with unbreakable plastic casing** ensures snag-free use in closed tanks and ports
- **Attached string** allows easy deployment and retrieval

WTR200

WTR201

WTR202

WTR203

Drop in a Water Hog, let it work, and pull it out with the attached line to keep fuel lines water-free.

# OIL-ONLY ABSORBENTS

Soak up oily leaks and spills without wasting absorbency on water.

## What is Oil-Only?

Oil-only absorbents are water-repellent. They should be your first choice for any application — indoors or out — where you need to soak up oil but don't want to waste absorbency on water. Use for any oil- or hydrocarbon-based liquids including:

- Motor oil
- Hydraulic oil
- Petrol
- Diesel fuel
- Kerosene
- Vehicle fluids
- Vegetable oil
- Oil-based solvents

# OIL'S IN. WATER'S OUT.

Oil and fuel spills can be a nightmare to clean up — whether they happen on land or water.

Because our range of oil-only absorbents are **water-repellent**, you don't waste absorbency in the rain or on water-borne spills. They won't sink, even when saturated, when deployed on water, and raindrops bounce right off for easy, effective outdoor clean-ups on land.

Indoors or out, you know **you can rely on PIG Oil-Only Absorbents to only clean-up oil-based liquids** — maximising efficiencies and reducing your costs.

If all you need to clean up is oil or oil-based liquids, **Oil-Only Absorbent Pads** are exactly what you need. Because they only absorb oil and repel water, you save money and never waste absorbency. It also makes them great for skimming applications on water. They're ideal for transformer oil, vehicle fluids, grease, petroleum, oil-based solvents and more.

**LOOKING FOR ECONOMICAL ABSORBENTS FOR EVERYDAY USE? CHECK OUT OUR PIG ESSENTIALS PRODUCTS ON PAGES 58-59, 62, 64 & 66.**

## EXPERT ADVICE

### Frequently asked questions:

**Q: Can I use oil-only mats to filter oil out of water?**

**A:** No. Oil-only mats will remove free-floating oil-based liquids from the surface of water or in the rain, but they won't filter oil out of water or demulsify an oil/water solution. For oil filtration products, see pages 68-69.

**Q: Are the mats safe to use around aviation fuel and other flammable liquids?**

**A:** PIG Stat-Mat Pads and Rolls (see page 57) are specially treated to reduce the risk of electrostatic discharge when working with flammables and consistently dissipate static per the ANSI and MIL spec standards for static decay and surface resistivity, making them perfect for fueling areas and solvent clean-up.

**Q: What is the difference between socks and booms?**

**A:** Use a sock for small oil-based spills or maintenance applications to control leaks and drips without absorbing water. Use a boom to surround, absorb and control large-volume oil-based spills on land or water.

# OIL-ONLY MATS

## ► Lasts 2X longer

Tougher than ordinary mats for fewer changeouts.

## ► Strong layered construction

Won't rip, tear or shred, even if soaked.

## ► Highly absorbent

Fine-fibre construction retains liquids.

## ► Exclusive dimple pattern

Quickly wicks liquid for faster, easier clean-up.

## ► Easy-tear perforations

Use only what you need, reduce waste.

Multiple layers of 100% polypropylene make PIG Oil-Only Mat the toughest on the market.

## NEED AN OIL-ONLY MAT?

Let us help you choose the right one.

### 1. SELECT FOR POTENTIAL SPILL VOLUME

#### **Lightweight** See page 51

Designed to handle small leaks, drips and spills.

#### **Mediumweight** See page 52

An economical choice when you don't need maximum absorbency.

#### **Heavyweight** See pages 53-54

Absorb more liquid per pad for high-volume leaks and large spills.

### 2. SELECT MAT TYPE AND PACKAGING

#### **Mat Pads**

Mat pads are ideal for catching drips and soaking up spills.

#### **Mat Rolls**

Ideal for covering large areas and soaking up leaks and overspray.

#### **Dispenser Box**

Take, carry and store your mat whilst protecting it from dirt and moisture.

MAT423

## **Lightweight Oil-Only Mats** — Suited for small leaks, drips and spills.

- **Multiple layers of 100% polypropylene** are thermally bonded to make PIG Mat the strongest mat on the market; it won't rip, tear or fray even when saturated
- Lightweight construction is **ideal for small tasks and clean-ups**
- **Absorbs and retains oils and oil-based liquids** — including lubricants and fuels — without taking in a drop of water
- Bright white colour makes absorbed oil easier to see; **clearly shows saturation level during spill response**
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat whilst on the job
- **Can be wrung out and incinerated after use** to reduce waste or for fuels blending
- **Floats on water** to clean up spills

MAT2240

## PIG® Absorbent Mat Combo in Dispenser Box — Two of our top mats are now in one box so you can be ready for any spill.

- With two types of Mats in one package, you can **absorb any liquid!** Choose **Universal** for oil, coolants, solvents and water, or **Oil-Only** for petroleum-based liquids
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Double-sided dispenser box** makes it easy to take, carry and store your mat whilst protecting it from dirt and moisture

### PIG® Universal Mat

- **Absorbs common industrial liquids;** oils, water, solvents, coolants and more
- **Dark grey colour** hides grime so mat stays on the job longer
- Contains **25% recycled content**

### PIG® Oil-Only Mat

- **Absorbs and retains oil-based liquids** — including lubricants — without taking in a drop of water
- Bright white colour **makes absorbed oil easier to see**

### PIG® Absorbent Mat Combo in Dispenser Box

## PIG® Rip-&-Fit Oil-Only Mat — Create a custom size to fit your workspace and reduce waste.

- **Extra perforations** allow you to easily "rip" this PIG Mat and "fit" it to your application without cutting; reduced usage means a decrease in disposal that helps with ISO 14001 guidelines
- **Multi-layered construction** is the strongest on the market!
- **Bright white colour** makes absorbed oil easier to see; draws attention to machine leaks and clearly shows saturation level during spill response
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Highly absorbent, fine-fibre construction** won't leave behind liquids or fibre residue

MAT442

### PIG® Rip-&-Fit® Oil-Only Absorbent Mat Roll

| Item #        | Weight | Size           | # Rolls | Abs. Up To | 1-2           | 3+            |
|---------------|--------|----------------|---------|------------|---------------|---------------|
| <b>MAT442</b> | Heavy  | 38cm W x 18m L | 1       | 29.7L      | <b>£45.75</b> | <b>£43.46</b> |

Easily tear at perforations and fit mat to your application without cutting.

## **Oil-Only Fat Mat** — Double-thick, so it absorbs more, lasts longer.

- Extremeweight Fat Mat construction is ideal for jobs that require **long life and high capacity**
- **Twice as many layers** as original PIG Mat; 100% polypropylene is thermally bonded to form one super-absorbent mat capable of drinking up huge volumes of liquid
- Tough, spunbond top layer **stands up to heavy foot traffic**; won't rip, tear, fray or create a trip hazard, even when saturated
- **Fast-wicking action** transfers liquids into the absorbent inner layers to keep moisture away from surface
- Absorbs and retains **fuels and oil-based liquids** — including lubricants and fuels — without taking in a drop of water
- Perforations let you **take only what you need**; white colour makes it **easy to see** how much capacity the mat has remaining
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat whilst on the job

### A CLOSER LOOK

Spunbond polypropylene top layer adds walk-on durability.

Twice as many layers of meltblown polypropylene as original PIG Mat for extreme absorbency.

#### PIG® Fat Mat® Oil-Only Absorbent Mat Pads in Dispenser Box

| Item #  | Weight  | Size            | # Pads | Abs. Up To | 1-2    | 3+     |
|---------|---------|-----------------|--------|------------|--------|--------|
| MAT4101 | Extreme | 41cm W x 51cm L | 50     | 83.3L      | £91.00 | £86.45 |

1 IT'S A PAD!

2 IT'S A ROLL!

3 IT'S A WIPE!

4 IT'S A SOCK!

## 4 in 1 Oil-Only Mat — Tackle all your leak, drip and spill problems with our tear-to-size mat.

- Exclusive 4 in 1 Mat is a **pad, roll, sock and wipe** all in one
- Use as a pad to **catch drips and soak up oily spills**; **roll out** to cover large areas; fold along score lines to make a **thick, absorbent "sock"**; tear off a piece to use as a **low-lint wipe**
- **Multi-layered, 100% polypropylene** PIG Mat construction
- Scuff-resistant, spunbond outer layer **resists wear and tear**, even under heavy foot traffic or abrasive conditions
- Highly absorbent, fine-fibre construction **won't leave behind** liquids or fibre residue
- **Absorbs and retains oils and oil-based liquids** — including lubricants and fuels — without taking in a drop of water
- **Flame-resistant material melts** when exposed to high heat

### PIG® 4 in 1® Oil-Only Absorbent Mat Roll

Patent 5,888,604; 5,597,418

## PIG Stat-Mat — The best absorbent mat for flammable fuels and solvents is proven to dissipate static.

- Stat-Mat Pads and Rolls **pass ANSI and MIL spec standards** for static decay and surface resistivity, making them perfect for fuelling areas and solvent cleanup
- **Reduces the risk of electrostatic discharge**; a critical precaution around flammable liquids and vapours
- **Absorbs and retains oils and fuels** — including acetone, benzene, petrol and more — without taking in a drop of water

### PIG® Stat-Mat® Absorbent Mat Pads

| Item #          | Weight | Size            | # Pads | Abs. up to | 1-2            | 3+             |

MAT402

MAT414

Packaged in special bags that **dissipate static charge buildup** for sensitive environments; bright pink colour is easily distinguishable to prevent improper use or pilfering.

# IT ONLY TAKES ONE SPARK!

You can follow guidelines, comply with regulations, bond and ground every tank, fuel pump and container, but one simple fact remains: static electricity hides in plain sight and all it takes is one spark for disaster to strike — especially when there's a spill.

Refueling and liquid transfers create spills, so it makes sense to use absorbents in these areas to conform with environmental standards. The problem with conventional oil absorbents is that they're made from polypropylene — a plastic — and naturally carry a static charge. Independent testing shows that these absorbents can carry a charge large enough to spark an explosion just by pulling one out of the bag. That's why using conventional oil absorbents around flammable liquids puts people in real danger.

The only way to be sure an absorbent is safe to use around flammables is to use one designed specially for static decay and surface resistivity, like PIG Static Dissipative pads and rolls!

There also is a significant potential for shipping and handling to cause friction between the plastic bag and the absorbents inside — resulting in static charging. PIG Stat-Mat is packaged in bright pink, static-dissipative plastic that is similar to the packaging used to protect microconductors and electronics from static.

MATE814

## **PIG® Essentials Plus Oil-Only Mat — Bonded Mat controls spills and overspray in any indoor or outdoor application.**

- Top layer of low-lint spunbond fabric provides **extra strength and tear resistance**
- A layer of meltblown polypropylene creates high surface area that enables the mat to **quickly soak up liquids on contact**
- Mat **absorbs high volumes of liquid fast**; great for catching overspray or soaking up spills
- Bond points increase speed of absorbency and fuse layers of fibres together — **mat keeps its shape** even when completely saturated

### PIG® Essentials Plus Oil-Only Absorbent Mat Pads

MATE837

MATE814

## A CLOSER LOOK

Low-lint spunbond top layer is tear-resistant.

High loft meltblown layer helps to soak up liquid quickly.

MATE805

## **PIG** Essentials Oil-Only Mat — Meltblown Mat offers effective clean-up of high-volume oil spills on land or water.

- High loft meltblown design increases surface area on spill; mat starts wicking on contact to **save time in critical situations**
- Provides **quick, efficient clean-up** to help protect the environment from contamination
- Meltblown polypropylene fibres are **naturally hydrophobic** and repel water (and float) while only absorbing oils and other hydrocarbons
- Fibres are randomly assembled to create a lofty mat that **absorbs high volumes of liquid fast**
- **Works on land or water**; floats when fully saturated

MATE807

## A CLOSER LOOK

High loft meltblown design increases surface area to start wicking on contact. Randomly assembled fibres result in a lofty mat with high absorbency.

## Sheen Clean Oil-Only Absorbent Socks and Pillows — Cleans up thin, oily residue floating on water that other absorbents leave behind.

- Proprietary filler blends high-capacity recycled cellulose with a copolymer that **pulls in thin, "rainbow" sheens of oil**
- Ideal for **long-term deployment** to remove sheen from oil spills or absorb residue in retention ponds, catch basins, tanks and more
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- **Attached string** for tying socks down, together or dipping into tanks
- **Absorbs and retains fuels** and oil-based liquids — including lubricants and fuels — without taking in a drop of water
- Spunbond polypropylene skin is **UV resistant** up to 12 months; meets ANSI and MIL spec standards for static decay
- Contains **90% post-consumer recycled cellulose waste**

### PIG® Sheen Clean® Oil-Only Absorbent Sock

| Item # | Size               | # Socks | Abs. Up To | 1-2     | 3+      |
|--------|--------------------|---------|------------|---------|---------|
| SKM600 | 8cm Dia. x 122cm L | 12      | 45L        | £181.00 | £171.95 |

### PIG® Sheen Clean® Oil-Only Absorbent Pillows

| Item # | Size            | # Pillows | Abs. Up To | 1-2     | 3+      |
|--------|-----------------|-----------|------------|---------|---------|
| SKM602 | 41cm W x 43cm L | 10        | 37.9L      | £191.00 | £181.45 |

## **Oil-Only Absorbent Sock** — A full year of UV resistance makes PIG the best outdoor sock you can buy.

- **Mouldable socks** hug corners and surround machine bases to absorb leaks, contain puddles and keep workers safe
- Cellulose filler is hydrophobic — **absorbs oils and oil-based liquids but not water** — in a variety of environments
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- Ideal for use **on land**, but also floats to clean up oil spills **on water**
- **Attached string** conveniently allows socks to be tied down, tied together or dipped in noncorrosive wash baths
- Spunbond polypropylene skin is **UV resistant** up to 12 months; meets ANSI and MIL spec standards for static decay
- Contains a **95% mixture of pre- and post-consumer recycled cellulose**

95% Recycled  
Cellulose Filler

PIG® Oil-Only Absorbent Sock

| Item #   | Size               | # Socks | Abs. Up To | 1-2    | 3+     |
|----------|--------------------|---------|------------|--------|--------|
| ★ SKM210 | 8cm Dia. x 122cm L | 12      | 45.6L      | £68.75 | £65.31 |

## PIG® Skimmer Sock — Skim and absorb surface oil from acid baths or other caustic environments.

- Tough, **chemical-resistant** polypropylene skin and filler absorb oils but repel water-based liquids; UV resistant
- Ideal for **skimming oil off acid or caustic baths** or in other acidic environments
- Spunbond polypropylene skin is **UV resistant** up to 12 months; meets ANSI and MIL spec standards for static decay
- **Attached string** allows socks to be tied down, tied together or dipped into tanks
- **Socks float** for easy retrieval
- Contains **98% pre-consumer recycled polypropylene filler**

### PIG® Skimmer Sock

| Item # | Size               | # Socks | Abs. Up To | 1-2    | 3+     |
|--------|--------------------|---------|------------|--------|--------|
| SKM203 | 8cm Dia. x 3m L    | 6       | 57L        | £95.00 | £90.25 |
| 104PS  | 8cm Dia. x 122cm L | 10      | 38L        | £77.75 | £73.86 |

## PIG® Essentials Oil-Only Sock — Surround spilled fluids or wrap around leaky machines.

- **Keeps fluids from spreading** into larger areas and becoming slippery hazards
- Flexible to conform around machine bases and **offer a snug fit with no seepage**
- Polypropylene filler is **excellent for both absorbency and liquid retention**
- Stitched spunbond outer skin provides **extra durability**
- White colour makes it easy to see when it's fully saturated — you **save money by not throwing it away too soon**
- **Works on land or water**; floats when fully saturated

### PIG® Essentials Oil-Only Absorbent Sock

| Item #  | Size               | # Socks | Abs. Up To | 1-2    | 3+     |
|---------|--------------------|---------|------------|--------|--------|
| PIGE800 | 8cm Dia. x 120cm L | 20      | 92L        | £52.25 | £49.64 |

SKM403

## **pig** Sump Skimmer — Perfectly sized to pull oil out of your drains, sumps, tanks and bilges.

- **Simply lower floating skimmer** into any water-based liquid to absorb oils without taking in water
- **Bright white colour** makes absorbed oil easier to see; clearly shows saturation level
- Can be **incinerated after use** to reduce waste or for fuels blending
- Spunbond polypropylene skin is **UV resistant** up to 12 months; meets ANSI and MIL spec standards for static decay (**SKM401** and **SKM404** only)
- SKM401 and SKM404 contain **98% pre-consumer recycled polypropylene filler**

## Oil-Only Spaghetti Booms — Specially designed to contain and absorb thick oils on water.

- Mesh skin and **spaghetti strip filler** design are ideal for pulling in thick oil or for use in fast-moving waters
- Tough outer mesh is **UV resistant** for long-term outdoor use without degradation; lets fluids easily pass through to filler material
- Rope running along length of boom withstands up to **182kg loads**, adding strength for deployment and retrieval
- **Absorbs and retains fuels** and oil-based liquids — including lubricants, fuels and crude oil — without absorbing a drop of water. Not recommended for use on land
- **Boom floats** at surface for easy retrieval, even when saturated
- Strong, zinc-plated carbon steel attachment clips and rings allow you to **link booms together**

◆ **Helps you comply** with Environmental regulations

PIG® Oil-Only Spaghetti Booms

NOTE: When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them. Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beaufort Scale #2 or less

Spaghetti strip filler pulls in thick, petroleum-based liquids for effective spill clean-up.

## Essentials Oil-Only Booms — Take control of outdoor spill response with Oil-Only Booms.

- **Strong mesh outer sleeve** encases a poly sock skin filled with highly sorbent filler
  - Poly filler is left in its natural hydrophobic state — **repels water (and floats)** while only absorbing oils and other hydrocarbons — booms won't sink, even when saturated with oil
  - A nylon rope and sturdy hardware ensure **long-lasting durability and easy retrieval**
  - Durable, easy-to-use connectors provide a **simple and efficient way to link booms together** and create a containment system big enough to handle almost any size spill on water
  - White outer skin colour makes it easy to see when it's fully saturated — you **save money by not throwing it away too soon**
  - **100% post-industrial recycled poly blend filler** is **environmentally conscious** by utilising materials otherwise destined for disposal
- ◆ **Helps you comply** with Environmental Regulations

NOTE: When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them. Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beaufort Scale #2 or less

BOM304

## **Oil-Only Absorbent Booms** — Field-proven oil spill control on land or water.

- **Floats** to confine and soak up spills on water; **hugs ground** for land-based spills
- Rope running along length of boom withstands up to **182kg loads**, adding strength for deployment and retrieval
- Spunbond polypropylene skin is **UV resistant** up to 12 months; meets ANSI and MIL spec standards for static decay
- **Bright white colour** makes booms easier to see in outdoor environments and clearly **shows saturation level**
- **Booms float** at surface for easy retrieval, even when saturated
- **Absorbs and retains fuels** and oil-based liquids — including lubricants and fuels — without taking in a drop of water
- **Can be incinerated** after use to reduce waste or for fuels blending
- Contains **98% pre-consumer recycled polypropylene filler**
- ◆ **Helps you comply** with Environmental regulations

BOM304

PIG Oil-Only Booms in bright white are easier to see in outdoor environments and clearly show the saturation level.

### A CLOSER LOOK

Strong, zinc-plated carbon steel attachment clips and rings allow you to link booms.

Tough outer mesh is UV resistant for long-term outdoor use.

#### PIG® Oil-Only Absorbent Booms

| Item #    | Size             | # Booms | Abs. Up To | 1-2     | 3+      |

| BOM406    | 8cm Dia. x 3m L  | 8       | 60L        | £132.00 | £125.40 |

NOTE: When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them. Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beaufort Scale #2 or less

**CONTAIN & DIVERT OIL SPILLS WITH OUR  
NON-ABSORBENT BOOMS, SEE PAGE 158 ►►**

### OIL SPILL ON WATER? NO PROBLEM! PUT PIG OIL-ONLY BOOMS TO WORK.

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

When completely saturated, the boom will "bob" just below the water's surface.

PIL203

## **Skimmer Oil-Only Absorbent Pillows** — When you need more than a mat, our high-capacity pillows keep drinking oil.

- Pillow has **large surface area**, high capacity and **fast-wicking filler** to quickly soak up oils; resists tearing, reduces dust and holds in liquid, even when saturated
- Tough, chemical-resistant polypropylene skin and filler absorb oils but **repel water-based liquids**
- Spunbond polypropylene skin is **UV resistant** up to 12 months; meets ANSI and MIL spec standards for static decay
- Contains **98% pre-consumer recycled polypropylene filler**

PIL405

98% Recycled  
Polypropylene Filler

| ★ <b>PIL405</b> | 30cm W x 30cm L x 2.5cm H | 10        | 19L        | <b>£49.00</b>  | <b>£46.55</b> |

## **Essentials Oil-Only Pillows** — Use to absorb high-volume leaks and spills of oil and other petroleum-based liquids on land or water.

PILE806

- **Pulls liquids** from the floor like a sock, **catches leaks** like a pan, **absorbs spills** like a pad
- Ideal for spill response; pillow's large surface area speeds the absorption process and **shortens the overall response time**
- Pillows are **easy to place in hard-to-reach areas** — use under machines and leaky hydraulic hoses or wedge in corners cramped for space
- **White colour** makes it easy to see when it's fully saturated — you save money by not throwing it away too soon
- **Works on land or water**; floats when fully saturated

PILE805

### PIG® Essentials Oil-Only Absorbent Pillows

| Item #         | Size            | # Pillows | Abs. Up To | 1-2           | 3+            |

| <b>PILE806</b> | 46cm W x 46cm L | 10        | 87L        | <b>£69.50</b> | <b>£66.03</b> |

## **Oil-Only Lite-Dri Loose Absorbent** — Lighter than clay plus it absorbs 3X more oil.

- **Recycled cellulose** repels water while absorbing only oil-based liquids
- **Works instantly** on contact with liquid
- **Ideal for outdoor oil spills on land;** floats to clean up spills on water
- Contains a mixture of **100% pre- and post-consumer recycled cellulose**

### PIG® Oil-Only Lite-Dri® Loose Absorbent

| Item #   | 1-15   | 16-53  | 54+    |
|--|--------|--------|--------|
| ★ <b>PLP410</b> • 1 - 10kg Bag • Absorbs up to 30L/bag | £31.00 | £27.90 | £26.35 |

## **Peat Absorbent** — Our best loose absorbent for cleaning up oil that was spilled on soil.

- Super absorbent non-leaching **activated sphagnum peat moss** absorbs up to 30 litres of oil per bag
- Just throw on a spill and sweep it up; used indoors, it even **removes the oily sheen from your floor**
- **Non-abrasive composition** will not harm floors or expensive machinery

### PIG® Peat Absorbent

| Item #  | 1-15   | 16-39  | 40+    |
|---|--------|--------|--------|
| <b>PLP404</b> • 1 - 5kg Bag • Absorbs up to 30L/bag | £23.00 | £20.70 | £19.55 |

NOTE: Not recommended for oil spills on water.

**GET SCOOPS AND SHOVELS! SEE PAGE 262 ►►**

## PIG® Pour-Through Oily Water Filter — Separate free-floating oils from water.

FLT521

- Just pour liquid into the filter and **filtered water flows out of drain**
- Drum filter handles **up to 30 litres of liquid per minute**
- **Outflow pipe allows hose connection** for easy draining of filtered water
- Absorbents are **replaceable and easy to change** when saturated
- Durable polyethylene drum **won't rust or corrode**

FLT525

Replace the used absorbents in your Oily Water Filter with this Refill. Contains six pillows and one plastic liquid funnel.

### PIG® Pour-Through Oily Water Filter

| Item #  | 1-2            | 3+             |
|---|----------------|----------------|
| <b>FLT521</b> • Absorbs up to 125L • 61cm Dia. x 99cm H | <b>£391.00</b> | <b>£371.45</b> |
| <b>FLT525</b> • Refill • Absorbs up to 125L             | <b>£197.25</b> | <b>£187.39</b> |

**FLT525 & FLT521 Contents** • 6 Pillows • 1 Polyethylene Diffuser Funnel

NOTE: Liquid should always be checked before discharge into the environment.

### Ultra X-Tex Mat — Absorb oil-based liquids with this geo-textile and filter medium.

- **Allows water to pass through** whilst absorbing hydrocarbons, including petroleum, animal and vegetable oils
- When used as a filter medium water passes freely, whilst **absorption of target hydrocarbons begins on contact**
- **Absorbs up to 20 times its own weight** of hydrocarbons
- **Protect enormous surface areas** from oil-based liquids
- Contains **50% post-consumer recycled synthetic fibres**

#### Ultra X-Tex Mat

| Item #          | Weight | Size              | # Rolls | Abs. Up To | 1-2            | 3+             |
|-----------------|--------|-------------------|---------|------------|----------------|----------------|
| <b>MATE4000</b> | Heavy  | 152cm W x 15.2m L | 1       | 197L       | <b>£245.00</b> | <b>£232.75</b> |

### PipeSock — Control and contain oil and sediment during lower-volume dewatering.

- Simply secure PipeSock to 20cm diameter hose or pipe to remove hydrocarbons and sediment from water
- **X-Tex recycled fibres** provide high efficiency and excellent flow
- Ideal for **pumping out** containment areas, collection ponds, utility vaults and sumps
- Contains **100% post-consumer recycled synthetic fibres**
- ◆ **Helps you comply** with Environmental Regulations

#### PipeSock

| Item #   | 1-2           | 3+            |
|--|---------------|---------------|
| <b>FLT564</b> • Fits pipes up to 20cm Dia. • 152cm L x 20cm Dia. • Abs. up to 3L | <b>£83.50</b> | <b>£79.33</b> |

NOTE: Liquid should always be checked before discharging into the environment.

**RFLE700**  
Plant Nappy® Liners  
(sold separately)  
can be added to  
extend the usable life.

**FLTE703**  
Ideal for windy conditions,  
Plant Nappy® Anchoring Pegs  
help to safely secure the Plant  
Nappy into soft surfaces.

**FLTE701**  
A rainy forecast  
is no problem  
for Plant Nappy®.

## Plant Nappy — Catch oily leaks and spills from equipment whilst rainwater passes right through.

- Ideal for outdoor use in wet and rainy conditions; **contain spills on construction sites** or where machinery needs to be left outside
- Non-permeable base fabric is laminated with an oil soak filter and protected by a permeable top fabric to **allow free passage of contaminants**
- Permeable side wall contains filter fabric that **allows free passage of water but not oil**
- UV-resistant design **stands up to harsh weather conditions**

## PIG® Frameless Storm Drain Filter — Catch basin insert protects drains and filters oil, sediment, debris and trash from stormwater.

- “**Witches hat**” is **designed** for better filtration, improved handling and all-around performance
- Frameless design is **ideal for small drains** of any shape, even shallow drains
- **Heavy-duty, hi-vis strap** allows easier handling and removal
- Four-stage filtration process **treats more water and removes more oil** than basic storm drain filters
- **Overflow ports** help prevent blockage during high water flow
- ◆ **Helps you comply** with Environmental Regulations

**FLT116**

### A CLOSER LOOK

Fabric shelf starts removing pollutants immediately.

Hi-viz straps are easy to handle, easy to see.

Filter ring pulls oil from stormwater and channels runoff into collection bag.

Overflow ports prevent blockage.

Grommet lets you attach optional filtration products.

Filter strips act like tentacles to remove hydrocarbons.

### PIG® Frameless Storm Drain Filters

# HAZMAT CHEMICAL ABSORBENTS

Specially treated to absorb most acids, caustics, corrosives and chemicals.

## What is **HazMat**?

PIG HazMat Chemical Absorbents are specially treated to soak up spills without degrading or reacting to corrosive liquids including:

- Sulfuric acid
- Nitric acid
- Phosphoric acid
- Potassium hydroxide
- Hydrochloric acid
- Hydrofluoric acid
- Sodium hydroxide
- Hydrogen peroxide

# ACID SPILLS? THINK PINK!

PIG HazMat outperforms the competition:

## OURS

Even 98% Sulfuric acid is completely absorbed.

## THEIRS

Highly corrosive liquids just puddle on top.

## Specially treated to absorb highly concentrated corrosives.

Only **PIG HazMat Chemical Absorbents** are built to handle the worst of the worst. Highly corrosive liquids like 98% sulfuric acid and 30% sodium hydroxide can cause inferior cellulose mats, socks and pillows to degrade or react.

**PIG HazMat Chemical Absorbents** provide the widest range of chemical resistance you can buy. They're all tough as nails — **PIG Absorbents** are specially treated to absorb high concentrations of chemicals. You get the same strength and durability that make **PIG** one of the world's most popular absorbent brands.

Highly corrosive liquids? **THINK PINK!**

## EXPERT ADVICE

### Frequently asked questions:

#### Q: Do they neutralise acids and caustics?

**A:** No. They help responders with clean up by quickly absorbing spills but don't neutralise (see our neutralising absorbents on page 75).

#### Q: Why do these cost more than universal sorbents?

**A:** Many universal sorbents on the market are made from cellulose or other materials that are unsuitable for corrosive liquids. PIG HazMat Chemical Absorbents are 100% polypropylene and specially treated to provide the widest range of chemical resistance.

#### Q: Why are high concentrations of acids or caustics slow to absorb?

**A:** The surface tension of highly concentrated acids and caustics slows absorption. Lightly misting the absorbent with water will help break the surface tension and allow it to be absorbed more quickly.

ABSORBENTS FOR EVERYDAY USE?  
CHECK OUT OUR PIG ESSENTIALS  
PRODUCTS ON PAGES 76-77.

**HAZMAT NOTICE:** Independent testing indicates that PIG HazMat Chemical products are compatible with and absorb most acids and caustics. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat Chemical products prior to purchase.  
If you have any questions or need samples to test, please call us on 0800 919 900.

**CHEMICAL NOTICE:** To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG Essentials products prior to purchase. If you have questions or need samples to test, please call 0800 919 900.

# HAZMAT CHEMICAL MATS

## ► Lasts 2X longer

Tougher than ordinary mats for fewer changeouts.

## ► Strong layered construction

Won't rip, tear or shred, even if soaked.

## ► Highly absorbent

Fine-fibre construction retains liquids.

## ► Exclusive dimple pattern

Quickly wicks liquid for faster, easier clean-up.

## ► Easy-tear perforations

Use only what you need, reduce waste.

Multiple layers of 100% polypropylene make PIG HazMat the toughest on the market.

## NEED A HAZMAT CHEMICAL MAT?

Let us help you choose the right one.

### 1. SELECT FOR POTENTIAL SPILL VOLUME

#### **Lightweight** See page 73

Designed to handle small leaks, drips and spills.

#### **Heavyweight** See pages 74-75

Absorb more liquid per pad for high-volume leaks and large spills.

### 2. SELECT MAT TYPE AND PACKAGING

#### **Mat Pads**

Mat pads are ideal for catching drips and soaking up spills.

#### **Mat Rolls**

Ideal for covering large areas and soaking up leaks and overspray.

#### **Dispenser Box**

Take, carry and store your mat whilst protecting it from dirt and moisture.

MAT325

## **Lightweight HazMat Chemical Absorbent Mats** — Absorbs highly concentrated corrosives.

- Absorbs the widest range of acids, caustics and unknown liquids — even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Lightweight construction is ideal for small tasks and clean-ups
- Chemical-resistant mat won't degrade or cause a dangerous reaction upon contact with corrosive spills
- Pink colour is easily distinguishable to assure workers use the correct mat during a spill emergency

◀ MORE INFORMATION ON PAGE 72

## **Rip-&-Fit® HazMat Chemical Rolls** — Create a custom size to fit your workspace and reduce waste.

- **Extra perforations** allow you to easily "rip" this PIG Mat and "fit" it to your application without cutting; reduced usage means a decrease in disposal that helps with ISO 14001 guidelines
- No matter how you rip it, this mat features the proven **multi-layered, 100% polypropylene construction** of PIG Mat, the strongest mat on the market
- Perforated every **10cm across width and every 25cm across length**; "rip" the perfect sized mat, then "fit" it into place

MAT342

MAT343

### **PIG® Rip-&-Fit® HazMat Chemical Absorbent Roll**

| Item # | Weight | Size           | # Rolls | Abs. up to | 1-2     | 3+     |
|--------|--------|----------------|---------|------------|---------|--------|
| MAT343 | Heavy  | 38cm W x 46m L | 1       | 74.3L      | £104.25 | £99.04 |

### **PIG® Rip-&-Fit® HazMat Chemical Absorbent Roll in Dispenser Box**

| Item # | Weight | Size           | # Rolls | Abs. up to | 1-2    | 3+     |
|--------|--------|----------------|---------|------------|--------|--------|
| MAT342 | Heavy  | 38cm W x 18m L | 1       | 29.7L      | £59.50 | £56.53 |

HazMat/Chemical Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat Chemical and PIG Essentials Chemical products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

MAT342

Tear at the perforations to create the right mat size for any area.

## **HazMat Chemical Mat Pad in Bench Box® Dispenser** — Notches on back of box allow for wall mounting or hanging on hooks.

- **Protects a personal supply of PIG HazMat Pads** from dirt and moisture; easy to store nearby or take on the go
- **Absorbs the widest range of acids, caustics and unknown liquids** — even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant mat **won't degrade or cause a dangerous reaction** upon contact with corrosive spills

### **PIG® HazMat Chemical Absorbent Pads in a Bench Box® Dispenser**

| Item #  | Weight | Size            | # Pads | Abs. up to | 1-2    | 3+     |
|---------|--------|-----------------|--------|------------|--------|--------|
| MAT3510 | Heavy  | 33cm W x 25cm L | 100    | 37.1L      | £68.25 | £64.84 |

HazMat/Chemical Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat Chemical and PIG Essentials Chemical products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

MAT304

Colour-change technology takes the guesswork out of safe handling.

## **Encapsulating/Neutralising Mats** — One step for safer acid or caustic clean-up.

- **Mats help encapsulate and neutralise** common acids or caustics in one step; gelling agents solidify liquids during neutralisation
- **Acid neutraliser (MAT304)** instantly absorbs up to 98% concentrations of sulfuric and other acids
- **Caustic neutraliser (MAT353)** instantly absorbs up to 50% potassium hydroxide & other caustics

### **PIG® Acid Encapsulating & Neutralising Mat**

| Item # | Size            | # Pads | Abs. Up To | 1-2    | 3+     |
|--------|-----------------|--------|------------|--------|--------|
| MAT304 | 28cm W x 30cm L | 25     | 2.4L       | £69.75 | £66.26 |

Notice: Not for use with hydrofluoric acid.

### **PIG® Caustic Encapsulating & Neutralising Mat**

| Item # | Size            | # Pads | Abs. Up To | 1-2    | 3+     |
|--------|-----------------|--------|------------|--------|--------|
| MAT353 | 28cm W x 30cm L | 25     | 2.4L       | £69.75 | £66.26 |

HazMat/Chemical Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat Chemical and PIG Essentials Chemical products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

MATE913

## PIG® Essentials Chemical Mats — Absorbs high-volume spills of acids, caustics and unknown liquids.

- Meltblown mat **quickly absorbs most caustic, hazardous or unknown liquids** — including acids, caustics, solvents and chemicals
- High loft design increases surface area on spill; **mat starts wicking on contact** to save time in critical situations
- Provides **quick, efficient clean-up** to help protect the environment from contamination
- Fibres are randomly assembled to create a lofty mat that **absorbs high volumes of liquid fast**
- **Colour-coded yellow** for fast identification in an emergency spill situation
- Easy-tear perforations let you take only what you need so you **use less mat and save money**

- **Pads** are ideal for catching drips and soaking up spills
- **Rolls** are ideal for covering large areas and soaking up leaks and overspray

### PIG® Essentials Chemical Absorbent Mat Pads

| Item #    | Weight | Size            | # Pads | Abs. Up To | 1-2    | 3+     |
|-----------|--------|-----------------|--------|------------|--------|--------|
| ★ MATE913 | Light  | 40cm W x 50cm L | 200    | 86L        | £81.75 | £77.66 |
| MATE910   | Heavy  | 40cm W x 50cm L | 100    | 86L        | £81.25 | £77.19 |

### PIG® Essentials Chemical Absorbent Mat Rolls

| Item #  | Weight | Size            | # Rolls | Abs. Up To | 1-2     | 3+      |
|---------|--------|-----------------|---------|------------|---------|---------|
| MATE915 | Light  | 50cm W x 40m L  | 1       | 43L        | £35.25  | £33.49  |
| MATE911 | Heavy  | 100cm W x 40m L | 1       | 173L       | £136.00 | £129.20 |
| MATE912 |        | 50cm W x 40m L  | 1       | 86L        | £69.50  | £66.03  |

HazMat/Chemical Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat Chemical and PIG Essentials Chemical products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

## PIG® Essentials Plus Chemical Multi-Perf Mat Roll in Dispenser Box — Easily rip along the perforations and fit into place to control spills and overspray.

- **Extra perforations** in our Multi-Perf Bonded Mat Roll allow you to easily tear this mat to fit your application without cutting
- 100% polypropylene mat **quickly absorbs most caustic, hazardous or unknown liquids** — including acids, caustics, solvents and chemicals
- Top layer of low-lint spunbond fabric provides **extra strength and tear resistance**
- Bond points increase speed of absorbency and fuse fibres together — Mat **keeps its shape even when completely saturated**

### PIG® Essentials Plus Chemical Multi-Perf Absorbent Mat Roll in Dispenser Box

| Item #  | Weight | Size           | # Rolls | Abs. Up To | 1-2    | 3+     |
|---------|--------|----------------|---------|------------|--------|--------|
| MATE938 | Heavy  | 33cm W x 46m L | 1       | 53L        | £61.00 | £57.95 |

HazMat/Chemical Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat Chemical and PIG Essentials Chemical products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

## **PIG** Essentials Chemical Socks and Pillows — Soak up acids, caustics and unknown liquids fast.

- 100% polypropylene pillows **quickly absorb nearly any type of caustic, hazardous or unknown liquid** — including acids, caustics, solvents and chemicals
- **Colour-coded yellow outer skin** for fast identification in an emergency spill situation
- Polypropylene filler is **excellent for both absorbency and liquid retention**
- Stitched spunbond outer skin provides **extra durability**
- **Socks contain spills** to keep fluids from spreading into larger areas and becoming slippery hazards
- **Pillows are easy to place in hard-to-reach areas** — use under machines and leaky hoses or wedge in corners cramped for space
- Ideal for spill response; pillow's large surface area speeds the absorption process and **shortens the overall response time**
- **100% post-industrial recycled filler** is **environmentally conscious** by utilising materials otherwise destined for disposal

| PIG® Essentials Chemical Absorbent Socks |                    |          |            |        |        |
|--|--------------------|----------|------------|--------|--------|

If you have any questions or need samples to test, please call Technical Services.

# CONTAIN AND ABSORB CHEMICAL SPILLS

## **piG HazMat Chemical Socks, Pillows and Dikes** — Contain and absorb spreading spills of highly concentrated corrosives.

- Absorbs the **widest range of acids, caustics and unknown liquids**, even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant socks and dikes **won't degrade or cause a dangerous reaction** upon contact with corrosive spills
- Polypropylene skin **resists chemicals and tearing**; reduces dust and holds in liquid, even when saturated
- Polypropylene filler is **highly absorbent** for containing corrosive or reactive spills
- **Socks** (124CR and PIG301) are excellent for quickly diking and stopping the spread of **smaller chemical spills**; **dikes** (HA1010) are excellent for quickly diking and stopping the spread of **larger chemical spills**
- **Pink colour is easily distinguishable** to assure workers use the correct dike during a spill emergency
- **Can be incinerated** after use to reduce waste
- **Pillows won't degrade** or cause a dangerous reaction upon contact with corrosive spills
- Pillows have large surface area, high capacity and fast-wicking filler to quickly soak up liquids; **great for adding absorbency during spill response**

# SPILL KITS

Be prepared for fast spill response.

# WHEN SECONDS COUNT, DON'T THINK TWICE

## Reach for PIG!

Spills are a serious business. With harmful consequences like slip-and-fall injuries, environmental contamination and fines, you can't risk a failed response with inferior absorbents or a clumsy container — choose **PIG Spill Kits** for peace of mind.

**PIG Spill Kits** are:

**Packed with PIG Absorbents.** **PIG Mats, Socks, Pillows** and **Loose** are the best you can buy — and you'll only find them in **PIG Spill Kits**.

**Filled for fast response.** You can count on our kits to be filled in the order you need the contents. Clean-up starts the second you open the lid — no digging required!

**Offer a huge range of sizes and styles.** From wheeled bins to grab-and-go bag kits and everything in between, you'll find a **PIG Spill Kit** that's perfect for your clean-up application and workplace.

**HAZMAT NOTICE:** Independent testing indicates that PIG HazMat Chemical products are compatible with and absorb most acids and caustics. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat Chemical products prior to purchase.

If you have any questions or need samples to test, please call us on 0800 919 900.

**CHEMICAL NOTICE:** To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG Essentials products prior to purchase. If you have questions or need samples to test, please call 0800 919 900.

### ■ UNIVERSAL

*For oils, coolants, solvents and water.*

Also called "MRO" absorbents, they soak up the widest range of liquids — oils, coolants, solvents and water.

### ■ WATER

*For water, NOT oil-based liquids or unknown fluids.*

PIG Water Absorbents are designed specifically to absorb water. They'll help you quickly clean up water from wet weather, condensation, pipe leaks and more.

### ■ OIL-ONLY

*For fuels and oil-based liquids, NOT water.*

PIG Oil-Only Absorbents repel water to clean up oil and fuel spills, even outdoors. Only PIG Kits include Stat-Mat, the best absorbent mat for flammable liquids, proven to dissipate static.

### ■ HAZMAT

*For most acids, caustics and unknown fluids.*

PIG HazMat Chemical Absorbents are specially treated to soak up high-concentration acids and caustics without degrading or reacting.

## EXPERT ADVICE

### Frequently asked questions:

#### Q: What size kit do I need?

**A:** Statistics show that most industrial spills are less than 190 litres. Placing kits in spill-prone locations throughout your facility can help you respond quickly and keep spills under control until they can be cleaned up.

#### Q: Why don't you put PPE in most of your spill kits?

**A:** Spill kits are used to absorb thousands of different liquids and a one-size-fits-all approach to PPE doesn't work. Instead, stock kits with your own PPE that's appropriate for your liquids and responders (see PPE on pages 108-109).

#### Need help making a selection? Call us!

Our Technical Advice Team is well versed in choosing Spill Kits and PPE. Further assistance is available before, during or after the sale at no cost. Simply contact us on 0800 919 900.

## Mercury Spill Cleanup and Decontamination — Safely cleans up to five spills.

KITL500

- **Easy-to-follow instructions** are based upon COSHH and British Dental Association methodologies
- **Contains adsorbent alloy wool**, clean up tools, shatter-proof waste container, PPE and detailed instructions
- Corrugated cardboard storage box **reduces plastic used by 75% (by weight)**

### Mercury Spill Cleanup & Decontamination Kit

# WE SUPERSIZED OUR CUSTOMER FAVOURITE

◀◀ REGULAR SIZE  
SPILL CADDY  
AVAILABLE ON  
PAGE 97

Choose from three versions of our Large Spill Caddy.

**UNIVERSAL**  
KITE205

**OIL-ONLY**  
KITE405

**HAZMAT**  
KITE305

Swivel casters let you pivot and move from a resting position without tipping it back.

20cm rear wheels can easily roll over uneven, rugged surfaces.

Ergonomic features make it easy to transport kit to the site of the spill.

## Large Spill Caddy — Over 2X larger and absorbs over 2X more than our regular Spill Caddy.

- Respond to large spills or use as a **highly visible central station** for absorbents and spill supplies
- Doors and lid open for instant, full access; **pre-packed and thoughtfully designed** so you can find what you're looking for without rummaging
- 20cm rear wheels roll easily over uneven surfaces**; front swivel casters let you pivot cart and move from a resting position without tipping it back
- Holds a mounted roll** of PIG Mat for easy pull-and-tear dispensing; also contains PIG Absorbent Socks, Mat Pads, Pillows and Wipes for fast cleanup
- Lockable cart (padlock not included) features **adjustable shelves** and built-in door pocket for documents and instructions
- 76cm width** fits through doors and aisles
- Top shelf** for site specific spill accessories and PPE storage
- Universal Kit (KITE205)** includes PIG Mat Pads and Roll containing **25% or more recycled content** and PIG Absorbent Pillows that contain a mixture of **85% pre- and post-consumer recycled cellulose filler**
- Oil-Only Kit (KITE405)** includes PIG Skimmer Socks and Pillows containing **98% pre-consumer recycled polypropylene filler**

# **Poly Disposal Bags** — Temporarily store hazardous or contaminated waste safely.

- Durable polyethylene **resists punctures and chemicals**; bright yellow colour with black caution message alerts workers. Self-locking ties included
- **BAG201, BAG202** and **BAGE203** feature a thickness of 3 mil/75 microns
- **BAG111** is **twice as thick** at 6 mil/150 microns
- Choose standard **Poly Bags** (BAG201, BAG202 and BAG111) or **Regran Bags** (BAGE203)
- **BAG201** and **BAG202** contain **30% recycled polymer**
- **BAGE203** contains a **100% mixture of pre-and-post consumer recycled plastic**

|--|---------------|
| <b>LBL100</b> • Yellow • 100/pack • 5cm W x 15cm L | <b>£26.25</b> |

## PIG SPILL KITS AND PERSONAL PROTECTIVE EQUIPMENT

Since the wrong protection can be as dangerous as no protection, New Pig **does not include Personal Protective Equipment (PPE) in our Spill Kits**. Selecting the appropriate PPE requires understanding specific responder, compatibility and application needs, which cannot be done safely with a one-size-fits-all approach.

### Size Matters

One size of protective suit, glove or other PPE won't fit every person. If too small, it may tear, split or burst. If too big, the suit or gloves will reduce dexterity and can catch or snag easily.

### Compatibility Matters

One type of protective suit, glove or other PPE won't resist every chemical. For example, nitrile gloves have varying levels of resistance to common hydrocarbons such as diesel (>480 mins), petrol (>480 mins), mineral oil (untested), toluene (10 mins), acetone (1-5 mins) or MEK (none).

### Check the SDS

Refer to the Safety Data Sheets (SDS) for the liquids you're working with to determine what type of PPE is recommended. If you still need assistance choosing the right PPE, we're happy to help. Call our Technical Advice Team at 0800 919 900.

Designed for easy movement and continuous wear.

### Nitrile Gauntlets — Resistant to a range of solvents, animal fats and other chemicals.

- Full Nitrile coating with bisque texture finish allows **secure handling in wet and dry conditions**; features a longer 330mm length
- Flexible glove **offers dexterity and tactile feel** to protect hands from oils, hydrocarbons and grease; flock-lining absorbs perspiration

#### SHOWA 730 Nitrile Gauntlets

Specify size: 09/L or 10/XL

| Item #   | 1-2   | 3+    |
|--|-------|-------|
| WPL588 • Full Nitrile Coating; Flock-lining; 0.38mm • 1 pair • 330mm L | £2.00 | £1.90 |

### Neoprene Gauntlets — Comfortable protection against acids and caustics.

- Full Neoprene coating with rough texture finish over entire surface for enhanced grip; **cotton flannel lining**
- A flexible glove that offers great dexterity and tactile feel, with **good resistance to tearing**; protects from oils, hydrocarbons, grease and abrasion

#### SHOWA 6784R Neoprene Gauntlets

| Item #   | 1-2    | 3+     |
|--|--------|--------|
| WPL367 • 10/XL • Neoprene; Gauntlet Cuff; Cotton Lining; 0.41mm • 1 pair • 355mm L | £11.00 | £10.45 |

### Butyl II Gauntlets — Acetone and Ketone (MEK) resistant chemical protection.

- Full Butyl composition with rough texture finish over entire surface for **enhanced grip**; impermeable for working in damp or greasy areas
- A thin, light glove with an anatomical shape provides a '**second skin**' feel; **protects the hand** from a wide array of chemical hazards

#### SHOWA 874R Butyl II Gauntlets

Specify size: 09/L or 10/XL

| Item #   | 1-2    | 3+     |
|--|--------|--------|
| BES0018 • Full Butyl Coating; Unlined; 0.35mm • 1 pair • 350mm L | £49.95 | £47.45 |

### General Purpose Safety Goggles — Affordable protection from debris and chemical splashes.

- Soft PVC frame is **comfortable to wear**
- **Direct vent** helps prevent lens from misting
- Lightweight design with an adjustable elasticated strap to ensure a **comfortable fit**

#### General Purpose Safety Goggles

| Item #           | 1-2   | 3+    |
|------------------|-------|-------|
| GLSE102 • 1 pair | £2.50 | £2.38 |

## Single-Use Nitrile Gloves — Single-use examination glove is a stronger alternative to latex.

- A **single-use, 100% nitrile disposable glove** with a beaded cuff
- Powder-free and approved for food-handling; also **Latex-free to avoid type I and type IV latex allergies**
- **Chlorinated inside** to offer increased comfort and reduce friction when donning
- **Textured finish on fingertips** enhance grip
- **High resistance** to penetration and projections of many chemicals
- **Dual labelled for PPE and Medical**

### SKYTEC TX424 Single-Use Nitrile Gloves

Specify size: M, L or XL

| Item #  | 1-2    | 3+     |
|---|--------|--------|
| GLVE003 • PPE & Medical Grade; 0.1mm • 100 gloves/dispenser • 240mm L | £12.50 | £11.88 |

### SKYTEC TX830 Single-Use Nitrile Gloves

Specify size: M, L or XL

| Item #   | 1-2    | 3+     |
|--|--------|--------|
| GLVE004 • PPE Grade; 0.2mm • 50 gloves/dispenser • 240mm L | £21.25 | £20.19 |

## Silver Shield/4H Gloves — Resist permeation and breakthrough of over 280 chemicals.

- **Resists even the most dangerous liquids** like aromatics, ketones, alcohols, esters and chlorinated and aliphatic solvents
- Ambidextrous design makes these **ideal for single glove use** — one glove can be discarded if necessary without wasting a pair
- Lightweight glove can be used as a secondary inner glove, allowing worker **maximum protection in heavy duty jobs**

### Silver Shield®/4H® Gloves

Specify size: 08/M, 09/L or 10/XL

| Item #   | 1-9    | 10+   |
|--|--------|-------|
| WPL262 • Norfoil® laminate; Unlined; 0.07mm • 1 pair • 410mm L | £10.00 | £9.50 |

## ChemTape — Withstands chemical attack better than standard duct tape.

- **Perfect for creating a seal between your suit and other PPE** to keep out dangerous chemicals, especially liquids; designed and tested to ensure chemical resistance
- Provides a **higher level of protection** and durability than duct tape

### Kappler™ ChemTape®

| Item #                          | 1-2    | 3+     |
|---------------------------------|--------|--------|
| WPL591 • 1 roll • 55m L x 5cm W | £41.25 | £39.19 |

# WIPES & RAGS

The best wipes for any task – from rough scrubbing jobs to fine dusting.

# WE'VE GOT YOUR NUMBER

Performance Ratings (PR) help you zero in on the right wipe for your job and budget.

- **PR100 Ultra-Duty** can be used all day and provide the highest levels of abrasion and solvent resistance
- **PR60–80 Heavy-Duty** provides the extra toughness you need for jobs like wiping rough parts, gears and sprockets
- **PR30–40 Medium-Duty** delivers a balance of toughness, absorbency, and economical cost per use
- **PR10–20 Light-Duty** is made for high-volume use during light wiping or surface drying jobs

## Featured Products

### PR100 Disposable Polishing & Wiping Cloths

Highly absorbent, no-scratch material stands up to solvents and harsh degreasers.

**See page 112**

### PR70 Heavy-Duty Maintenance Wipes

Low-lint blend is our top seller for heavy-duty wiping jobs.

**See page 114**

### PR40 All-Purpose Wipes

Versatility makes these tough but soft wipes our most popular choice.

**See page 115**

### WYPALL L10 Extra+ Wipes

Use these wipes to clean everyday spillages and grime.

**See page 116**

## PR100 Disposable Polishing & Wiping Cloths — Tiny pores nab dust, wax and other contaminants. Great for final wiping.

- Perfect for **no-scratch** removal of wax, polishing compound, fingerprints and smudges from surfaces, or for prepping products for painting
- Rayon/poly blend stands up to **harsh sanitisers, degreasers, cleaners and solvents**
- **Highly absorbent** and textured cloth pulls contaminants away from parts and surfaces whilst soaking up liquids
- **Can be rinsed and reused** for long life and less frequent replacement

Tiny pores are great for capturing contaminants.

# Rags in Bags — Screened, sized and scanned so you get only quality, usable rags.

Boxed rags are weighed after they're packed, so their weight includes a box that's as heavy as 1kg. Our Rags In Bags come in a compression-packed poly bag, so the FULL weight of the product is usable rags. With no bulky box, you can store more in less space. And, you don't just get more, you get better quality.

## WorkWipes New Material Rags in Bags

**New White T-Shirt** (WIP554, WIP555) from factory mill ends; low lint and pre-laundered for staining and wiping

**New Coloured T-Shirt** (WIP559) is new, coloured cotton material; low-lint and pre-laundered for polishing and general wiping

- Made using **100% pre-consumer recycled textiles**

## Rags in Bags

**Recycled Rags** (WIPE600–WIPE605) give old textiles a new life, limiting the amount of waste entering our landfills

- T-Shirt** is great for staining, wiping, polishing and other general-use jobs
- Strong **Sweatshirt** and flexible **Towelling** offer superior absorbency for wiping, soaking up spills and cleaning hands
- Sheeting** is soft and low-lint for polishing
- Linen** works well for tasks requiring durability and low-linting material
- Made using **100% post-consumer recycled textiles**

## GRIPPY ADHESIVE-BACKED MATS

The answer to preventing slips, trips and falls?  
It's right under your feet.

Award-winning PIG Grippy Adhesive-Backed Mats are the perfect addition to your floor safety measures.

Our team perfected New Pig's exclusive stick-and-release technology and invented the world's first adhesive-backed absorbent mat. Over 10 years later, no one comes close in quality, range and reliability.

Our Adhesive-Backed Mats range is proven to never disintegrate or leave any residue behind – even when saturated. They stick tight to most commercial floor surfaces and won't ripple, bunch up or flip over. They offer the perfect solution for reducing slips, trips and falls, as well as the costly legal claims often associated with these types of incidents.

They provide a safer, lower-profile, more durable and aesthetically-pleasing floor safety solution when compared with traditional rubber-backed mats.

Isn't it time to take your floor safety to the next level with PIG Grippy Adhesive-Backed Mats?

**PIG Grippy Adhesive-Backed Mats**  
**EASY FIT — EASY CLEAN — EASY CHANGEOUT**  
Find out just how easy on page 139.

### TESTED & CERTIFIED.

**EU: DIN 51130:2014** — Grippy Floor Mat classified as slip resistance R13 according to DIN51130 - suitable for use on floors in workrooms and work areas where there is increased risk of slipping due to grease, oil, water, foods, left-overs, dust, flour, paint clippings etc.

**BS7976-2:2002+A1:2013** - Low slip. Tested in accordance with BS 7976-2:2002+A1:2013, and demonstrated low slip potential in both wet and dry conditions.

**BS EN 13501-1:2007+A1:2009** - Fire classification Bfl-s1 when tested according to BS EN 13501-1.

**US: National Floor Safety Institute (NFSI):** When used as part of your floor safety program, high-traction surfaces such as Grippy Floor Mat have been proven to reduce slip-and-fall claims by as much as 90%.

# EXCLUSIVE BENEFITS OF PIG GRIPPY ADHESIVE-BACKED MATS

## SAFER

### Reduce hazards.

Trap dirt and liquids for months at a time to prevent their spread for cleaner, safer, drier floors.

## CLEANER

### Keep floors cleaner for longer.

Traps dirt, grease, salt and a variety of liquids to keep floors looking their best.

## LONGER LASTING

### Stays down longer.

Durable mat construction lasts longer than traditional-style floor mats — stays on the job for up to 6 months.

## CUSTOMISABLE

### Easily cut to fit.

Create perfect, continuous coverage in any size or shape. No gaps. No ripples. No overlaps.

## GREENER

### Environmental choice.

PIG Grippy Floor Mat has up to 91% lower environmental impact than rental floor mats. Grippy Absorbent Mat is made using 25% pre-consumer recycled content. Grippy Carpet Entrance Mat's absorbent layer is made from 100% post-consumer recycled polyester fabric.

## ECONOMICAL

### Save time and money.

Protect floor surfaces and decrease cleaning time, all while reducing slip, trip and fall claims.

# Grippy Adhesive-Backed Mats Selection Guide

Absorb WATER and trap dirt, grease, salt, mud and oils.

## GRIPPY FLOOR MATS - See Pages 126-131

Durable and low-profile mats stay in place and trap dirt, grease, salt and moisture. Available in original Floor Mat, Custom Printed Floor Mat and Floor Mat with Safety Borders varieties.

**Impermeable Poly Layer**  
Stops liquids from passing through to floor.

**Adhesive Backing**  
Sticks tight, but peels up easily. Won't disintegrate in wet conditions.

**Tough Absorbent Top**  
Traps dirt and grime, quickly wicks liquid and dries fast.

**Interlocked & Heat Fused Fibres**  
Trap dirt and offer incredible durability.

Styles:

Floor Mat

Custom Printed Floor Mat

Floor Mat with Safety Borders

### 91% LOWER environmental impact than rubber-backed mats.\*

Depending on conditions and traffic patterns, Grippy Floor Mat only needs replaced twice per year. Grippy Floor Mat would have to be replaced 47 times per year to have the equivalent environmental impact of rubber-backed mats. Even if you OWN rubber-backed floor mats and don't launder them, Grippy Floor Mat still has a LOWER environmental impact of at least 40%.

\*Based on an independent Energy and Environmental Impact Comparison of the PIG® Grippy® Floor Mat and Rental Floor Mat study. Conducted by the Golisano Institute for Sustainability, Rochester Institute of Technology, March 20, 2017. Full study available upon request.

## GRIPPY CARPET ENTRANCE MATS - See Pages 132-133

Plush and attractive alternative to outdated rubber-backed entrance mats. High-performance, low-profile surface, with stylish texture for entrances that impress.

**Impermeable Poly Layer**  
Stops liquids from passing through to floor.

**Adhesive Backing**  
Sticks tight, but peels up easily. Won't disintegrate in wet conditions.

**Tough Absorbent Top**  
Traps dirt and grime, quickly wicks liquid and dries fast.

**100% Recycled Top Layer**  
Absorbent top layer is constructed from 100% post-consumer recycled polyester.

**Textured Surface**  
Attractive fibre construction resists fading, staining and crushing.

Colours:

Black

Burgundy

Grey

Absorb WATER, URINE, soap and sanitiser.

## GRIPPY ANTIMICROBIAL MATS - See Pages 134-135

All the safety features of Grippy Floor Mat plus a permanently infused antimicrobial technology that fights odour-causing bacteria and mould.

### Impermeable Poly Layer

Stops liquids from passing through to floor.

### Adhesive Backing

Sticks tight, but peels up easily. Won't disintegrate in wet conditions.

### Tough Absorbent Top

Quickly wicks liquids and dries fast.

ANTI-MICROBIAL

### DW-30 Ultra-Fresh Infused

Permanent infusion of DW-30 Ultra-Fresh antimicrobial technology to help fight odours, mould and bacteria growth.

### Interlocked & Heat Fused Fibres

Trap dirt and offer incredible durability.

Styles:

Sink & Dryer

Runners

Absorb OILS, coolants, solvents and water.

## GRIPPY ABSORBENT MATS - See Pages 136-137

Improve industrial floor safety and reduce slips, trips and falls around machines, equipment and workstations where oily overspray is an issue.

### Impermeable Bottom Layer

Prevents absorbed liquids from leaking through to the floor.

### Adhesive Backing

Keeps mat in place, pulls up easily and won't disintegrate in wet conditions.

### Strong Construction

Tough spunbond top layer, with zigzag stitching for added strength, stands up to heavy foot traffic and equipment drive-overs.

### 25% Recycled Content

Manufactured using 25% pre-consumer recycled content.

### Multi-Layered

Layers of fine-fibre polypropylene quickly absorb and trap oils, coolants, solvents and water.

# NO SHIFTING, BUNCHING OR FLIPPING OVER.

Create a safe amount of walk-off coverage with **PIG Grippy Floor Mat.**

# PIG GRIPPY FLOOR MAT RANGE

**Stop slips, trips and falls for good with the thinnest commercial floor mats you can buy.**

- ▶ Install a high traction, customised walking surface anywhere you need it
- ▶ Won't obstruct doors or become a tripping hazard
- ▶ Leave mat in place and vacuum, mop, or even deep clean with a floor scrubber
- ▶ Durable construction withstands constant traffic for up to 6 months

Our Floor Mat range makes it easy to install a high-traction, customised walking surface anywhere you need it — with no dangerous gaps or overlaps — in entrances, aisles, transition areas, walkways and more.

They are absorbent, quick-drying and dirt-trapping to prevent the tracking and seepage associated with traditional rubber-backed mats, which often leads to dangerous slip and fall incidents and unsightly floors.

Unlike traditional rubber-backed mats, Adhesive-Backed Grippy Floor Mats are less than 3mm thick, making them the thinnest commercial floor mat you can buy with no rippled or ramped edges to obstruct doors or create tripping hazards. See note below.

The full Floor Mat range can be cleaned along with the rest of your floor — just leave mat in place and vacuum, mop or even deep clean with a floor scrubber for super-easy, stay-in-place maintenance.

Their durable construction withstands constant traffic for up to six months, so you change them out less often — saving you time and money. But, when the time does come to replace them, our exclusive adhesive formulation pulls up easily without leaving any residue behind.

So, for cleaner, safer floors, replace your outdated rental and rubber-backed mats with PIG Grippy Adhesive-Backed Mats — the mat that stays put no matter what.

Note: Building Regulations Approved Document M states that floor surfaces should not impede the movement of wheelchairs (eg. not coir matting) and changes to the floor material should not present a trip hazard; at less than 3mm thick, Grippy Floor Mat is the thinnest commercial floor mat you can buy with no rippled or ramped edges to obstruct doors or create tripping hazards

## GRIPPY FLOOR MAT

See Pages 126-127

Our original adhesive-backed mat is the ideal solution for commercial environments like offices, receptions and retail environments.

## GRIPPY CUSTOM-PRINTED FLOOR MAT

See Pages 128-129

Adhesive-Backed Custom-Printed Floor Mat reduces slip, trip and fall risks while keeping your brand, marketing or even safety messaging front and centre.

## GRIPPY FLOOR MAT WITH SAFETY BORDERS

See Page 130

Hi-vis, chevron-bordered mat is great for industrial applications, such as warehouses and manufacturing floors, where delineating spaces and walkways is essential.

## GRIPPY FLOOR MAT STARTER PACK

See Page 131

Start creating safer floors and experience how easy our Floor Mat range is to fit, maintain and changeout with this handy all-in-one kit.

# PIG GRIPPY FLOOR MATS

The original adhesive-backed, high-traction mat — for coverage everywhere you need it.

- ▶ Extremely-durable and low-profile floor safety solution
- ▶ Effortless to maintain and easy to clean
- ▶ Customisable floor protection that stops dirt at the door

Our original Grippy Adhesive-Backed Floor Mats range offers a highly absorbent, extremely durable and low-profile floor safety solution that's perfect for reducing slips, trips and falls in high-traffic areas.

It traps dirt, grease, salt, mud and moisture to prevent it being tracked through your premises. And its innovative construction is effortless to maintain and easy to clean using everything from a vacuum to a commercial floor scrubber.

The exclusive adhesive sticks to most commercial floor surfaces and stays put, preventing the dangerous shifting, bunching and flipping associated with traditional rubber-backed mats.

Available in pre-cut mat lengths or continuous rolls, up to 30m long, for customisable floor protection that stops dirt at the door.

## DURABILITY

Stays down for up to **6 months**

## WHERE IT WORKS

# PIG GRIPPY CUSTOM-PRINTED FLOOR MATS

All the benefits of original Grippy Floor Mat plus your logo or message custom printed.

- ▶ High-definition custom printing
- ▶ Highly-absorbent, extremely durable and easy to maintain
- ▶ Lightweight, low-profile, no-budge design

We combined all the floor safety features and convenience of our original Grippy Adhesive-Backed Floor Mat with the added benefit of high-definition custom printing.

Just like the original Grippy Floor Mat, our custom-printed version offers the same highly absorbent, extremely durable and easy-to-maintain walking surface.

State-of-the-art, UV-resistant, digital printing gives you the flexibility to change your look and/or messaging every three to six months. And the smooth, flat surface produces sharper, more detailed images that won't distort over time like carpet mats do as the pile crushes.

Its lightweight, low-profile, no-budge design is the perfect solution for trapping dirt, grease, salt, mud and moisture to prevent it being tracked through your premises and reducing trip hazards to improve floor safety.

## DURABILITY

Stays down for up to 6 months

# PIG GRIPPY FLOOR MATS WITH SAFETY BORDERS

Put the path to floor safety front and centre.

- ▶ Highlight dangers and create safer pathways
- ▶ Durable enough to withstand even the toughest of industrial wear and tear

We combined all the floor safety features and convenience of our original Grippy Adhesive-Backed Floor Mat with a high-vis yellow chevron border to help highlight dangers and create safer pathways through hazardous industrial environments.

The exclusive adhesive backing keeps the mat exactly where you put it with no shifting, bunching up or flipping over.

Its high-traction surface is durable enough to withstand even the toughest of industrial wear and tear, standing up to forklift, pallet truck and heavy foot traffic for up to six months.

# PIG GRIPPY CARPETED ENTRANCE MATS

Safe floors never looked so good.

- ▶ Absorbent fibres are made from 100% post-consumer recycled polyester
- ▶ Safer no-trip walking surface that doesn't budge, curl or flip
- ▶ Commercial-grade durability that stays down for up to 6 months

Using the same adhesive backing and offering the same floor safety features as our Grippy Floor Mat range, our Carpeted Entrance Mats are a cost-effective and stylish replacement for those outdated trip-prone traditional rubber-backed entrance and scraper mats.

The absorbent fibres are made from 100% post-consumer recycled polyester and offer a highly absorbent surface that dries out quickly to prevent moisture from reaching your floors.

The mats absorb water, oil and grease, as well as trap dirt and debris to prevent them from being tracked around and becoming a slip hazard. The mat also sticks tight to most commercial floor surfaces, offering a safer no-trip walking surface that doesn't budge, curl or flip.

The attractive Berber texture of our mats adds a plush, high-end look to your premises, offering commercial-grade durability that stays down for up to six months, is easily cleaned in place and can be cut to size easily without fraying or unraveling.

PIG Grippy Adhesive-Backed Berber Carpeted Entrance Mats contain up to **100% post-consumer recycled polyester fabric**.

## Grippy Antimicrobial Mats

HAND WASHING AREAS

HAND DRYERS

SINKS

# PIG GRIPPY ANTIMICROBIAL MATS

All the power of Grippy Floor Mat PLUS antibacterial and antifungal protection.

- ▶ Permanent infusion of DW-30 Ultra-Fresh antimicrobial technology
- ▶ Wicks liquids away and dries out quickly to stop them reaching your floors
- ▶ Can withstand daily mopping and scrubbing

Our Antimicrobial Floor Mats combine all the floor safety features of original Grippy Floor Mat with a permanent infusion of DW-30 Ultra-Fresh antimicrobial technology to help fight odours, mould and bacteria growth.

The polypropylene top layer, combined with the impermeable backing layers, captures water, soapy residue, sanitiser and urine on contact. It wicks liquids away and dries out quickly to stop them reaching your floors, creating a barrier that prevents staining, grout damage and, most importantly, reduces slip and fall incidents.

The full-coverage adhesive backing sticks tight to most commercial floor surfaces and won't budge underfoot or during routine cleaning. And the durable surface can withstand daily mopping and scrubbing, as well as heavy foot traffic, maintaining a high-traction, non-slip, no-trip walking surface that won't shift, curl or bunch.

These durable, low-profile mats stay in place for up to six months without any deterioration in the antibacterial and antifungal properties, offering cleaner, safer, fresher-smelling washrooms and lavatories for longer.

## Antimicrobial Floor Runners

The "industry-first design" of our Antimicrobial Floor Runners lets you roll out and cut to length the perfect size runner for continuous coverage. Use in front of sinks, shower cubicles and even urinals.

## Antimicrobial Floor Mats for Sinks and Dryers

Provides effective drip and splash coverage in front of sinks and underneath hand dryers and towel dispensers. Floor mats also help to control slip and trip hazards and prevent the growth of bacteria and mould.

## Grippy Absorbent Mats

**MACHINE OVERSPRAY**

**DRUM STORAGE**

**LEAKING EQUIPMENT**

**WALKWAYS**

# PIG GRIPPY ABSORBENT MATS

**Tough, low-profile, sticks-tight floor protection for industrial environments.**

► Can withstand heavy foot traffic, pallet truck and equipment drive-overs

► No-slip, no-trip solution for cleaner and safer industrial floors

Grippy Absorbent Mats, with their layers of fine-fibre polypropylene, safely absorbs leaks, drips and overspray of oils, coolants, solvents and water around workstations, machinery, equipment and walkways in industrial environments.

With its tough spunbonded layer, heavy-duty zigzag stitching and low-profile design, our Absorbent Mats can withstand heavy foot traffic, pallet truck and equipment driveovers in challenging industrial environments without shifting, bunching up or flipping over.

The exclusive adhesive backing sticks tight on most commercial floor surfaces to provide a no-slip, no-trip solution for cleaner and safer industrial floor. Peels up easily when the time comes to replace — stays put for up to three months or until the mat is saturated or showing signs of wear.

Mats are also great for lining workbenches, countertops, toolboxes and more to prevent oily stains and grime.

Use in conjunction with our original Grippy Floor Mat and Grippy Floor Mat with Safety Borders as part of your industrial floor safety programme for cleaner and safer floors throughout your premises.

PIG Grippy Absorbent Mats contain up to **25% recycled content**.

**MAT32100**

# PIG GRIPPY ADHESIVE-BACKED MAT ACCESSORIES

Straight cuts, smooth placement, simple removal — tools to make an easy job even easier.

## Grippy Adhesive-Backed Mats Utility Board

Produce clean, accurate cuts with this convenient, pre-scored template and use as a float to quickly smooth out Adhesive-Backed Mat in one pass.

Helps create perfect 45° angles for fitting around obstacles or cutting awkward shapes. Two boards can be connected together to create an extra-long cutting guide for making long diagonal cuts or applying wide mats.

| Utility Board for Grippy® Adhesive-Backed Mats |        |
|--|--------|
| Item #   | 1+     |
| GRP001 • 97cm W x 15cm D • 1 each              | £26.25 |

## Grippy Adhesive-Backed Mats Safety Cutting Knife

Make clean, professional and precise cuts when fitting Grippy Mat with the safety-first knife.

Recessed blade, with protective edges, makes quick, clean cuts, helping to eliminate injuries. Perfect tool to use in combination with pre-scored guidelines of our Utility Board (GRP001).

| Safety Cutting Knife                 |        |
|--------------------------------------|--------|
| Item #                               | 1+     |
| GRP012 • Safety Knife with 2 blades  | £18.50 |
| GRP011 • Replacement Blades • 10/bag | £16.50 |

## Grippy Adhesive-Backed Mats Smoothing Roller

Ergonomic design for comfortable grip and upright operation makes applying long runs of Grippy Mat quicker, easier and less demanding on your knees and back.

Simply push along to smooth Grippy Mat into place without creating air pockets or bubbles.

| Smoothing Roller for Grippy® Adhesive-Backed Mats |         |
|---|---------|
| Item #  | 1+      |
| GRP021 • 97cm W x 147cm L • 1 each                | £147.00 |

## Grippy Adhesive-Backed Mats Removal Tool

Tool's claw-like jaws "lock" onto the mat material to provide a firm, comfortable handgrip that won't dig into your hands when pulling up and removing Grippy Mat.

Made of durable, high-quality aluminium and features a rounded handle for easy grip.

| Removal Tool for Grippy® Adhesive-Backed Mats |        |
|---|--------|
| Item #  | 1+     |
| GRP020 • 9cm W x 19cm L x 13cm H • 1 each     | £29.00 |

NOTE: Most Grippy Adhesive-Backed Mats pull up easily by hand. This Removal Tool is helpful for removing long runs, wide sizes or mats that have been in place for extended periods of time.

## EASY TO INSTALL

Use our Utility Board as a guide for straight cuts, then pick it up and use it to smooth Grippy Adhesive-Backed Mat into place. Also works for cutting corners at 45° angles to extend product life.

### 1. Prepare Floor

Clean, rinse and dry your floor thoroughly to remove detergent film so Mat will properly adhere.

### 2. Cut to Fit

Roll out Grippy Mat and cut to size using a safety knife, scissors or utility blade.

### 3. Stick It Down

Smooth out mat and press it into place using Utility Board, Roller or other flat edge.

### 4. Trim Edges and Corners

Cut angled corners during application and trim during use to reduce potential lifting.

## EASY TO MAINTAIN

Leave Grippy Mats in place and clean along with the rest of your floor for super easy, stay-in-place maintenance.

### Routine Cleaning\*

You can sweep, vacuum and mop to keep mat clean and fresh without shifting.

### Floor Scrubbers and Extractors\*

Pre-treat tougher stains by spot-cleaning before using your scrubber/extractor's low speed/water settings to clean.

### Trimming Edges and Corners

If edges become worn or begin to lift, peel back mat until fresh adhesive is exposed, trim and press the new edge into place.

### Handling Excess Water\*

Remove excess water when your mat becomes saturated. Use a wet-vac or extractor to remove excess water and use fans/blowers to reduce drying times.

\*Note: Absorbent Mats NOT suitable for mop, spot, or extractor cleaning. Neither Absorbent Mats nor Carpeted Entrance Mats are compatible with floor scrubber cleaning. Handling Excess Water instructions do NOT apply to Absorbent Mat range.

## EASY TO REMOVE & REPLACE

Replacing Grippy Adhesive-Backed Floor Mats is easy — just pull them up. Our exclusive adhesive formulation won't leave any residue behind so you don't need to worry about sticky floors.

### Frequency of Changeouts

Our mats are long lasting and extremely durable. When they show obvious signs of wear, or a weakened bond to the floor, they should be replaced.

### Removing Mats by Hand

1. Peel up a corner of the mat using your fingers or the scraper side of the Safety Knife.
2. Bend at the knees while lifting the corner until the mat can be gripped by both hands.
3. Pull the mat up in a smooth, continuous motion, inching backwards as you go — do NOT use jerking motions to remove.

### Removing Mats with our Removal Tool

Most Grippy Mats pull up easily by hand. Our Removal Tool is helpful for removing long runs, wide sizes or mats that have been in place for extended periods of time. Simply lock the tool's jaws onto the mat material and pull.

New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive-backed mats, please be sure to use only on carpeted surfaces and never on uncarpeted, hard surfaces. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through and, as such, are considered to be non-breathable and may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, and finishes. All adhesive mats have some potential to leave residue or lift or discolour finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floors or other surfaces. For these reasons and others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discrete or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months depending on conditions and traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage and should always be replaced no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.

PIG LEAK DIVERTERS

# BETTER BY DESIGN

**EASIER, SECURE  
HANGING**

**STRONGER  
MATERIALS**

**BETTER SHAPE  
FOR MAX FLOW**

**FASTER  
DRAINING**

**PIG Leak Diverters are engineered to outperform cheap  
tarp-and-hose contraptions.**

# SPILL CONTROL

Take charge of spill situations with  
PIG-proven solutions.

# THE SPILL STOPS HERE

Protecting your drains is all about keeping unwanted liquids out. Containing liquids at the source is a proactive and smart defence. Create your perfect drain defence system using a combination of **PIG Spill Control** products, including solutions from our selection of patented dikes, drain covers and customisable barriers.

## PIG DrainBlocker Drain Covers

**Keep fluids out of your drains during spill emergencies or washdowns.**

When a spill strikes, it's a good move to seal off drains entirely, so no unwanted liquids escape. Unlike magnetic drain covers, **PIG DrainBlocker Drain Covers** form an impenetrable seal around your drains thanks to their super-sealing, tacky urethane bottom layer.

## PIG Drain Plugs

**Keep liquids out. Plug drains or block pipes with removable plugs.**

In a spill emergency or during routine washdowns, preventing liquids from going down your drains is essential. Our reusable, removable **PIG Drain Plugs** create a liquid-tight, chemical-resistant seal in seconds to keep unwanted liquids out.

## PIG SpillBlocker Dikes, Barriers & Booms

**Seal tight to confine and channel liquids away from drains.**

When a spill is heading right for your drain **PIG's SpillBlocker range** guarantees fast protection, indoors and out. This super-flexible and customisable solution seal tight to contain, confine or channel liquids for extremely effective drain protection.

## PIG-Build-A-Berm

**Build your own berm for customisable, long-term liquid containment anywhere you need it.**

Create semi-permanent containment, indoors or out, in any size or shape for peace of mind drain protection. Perfect for use around leaky machines, battery or drum storage areas, liquid transfer locations or anywhere liquids have the potential to make their way to your drains.

## EXPERT ADVICE

### Frequently asked questions:

**Q: Can I reuse my DrainBlocker and SpillBlocker?**

**A:** Yes, we use very high-quality urethane and our patented formulations are built to last. They clean easily with soap and water so you can reuse them over and over again.\*

**Q: Can I leave my DrainBlocker out in the sun?**

**A:** Our Drive-Over DrainBlockers are built for long-term outdoor use.

**Q: Can I drive over a SpillBlocker Dike?**

**A:** No, but we do offer a Drive-Over SpillBlocker that's built for traffic. You'll find it on page 155.

**Q: Is it difficult to install a Build-A-Berm system?**

**A:** No, installation is easy. Just cut to length with a utility knife, secure to your floor with silicone sealant and seal seams with silicone sealant or vinyl cement.

**Q: How do I choose the right size DrainBlocker?**

**A:** All PIG DrainBlocker Drain Covers must be at least 15-16cm (approximately 8cm on all sides) larger than the drain itself to create a liquid tight seal.

\*SpillBlocker Rough Surface Dike is designed for one-time use only on tarmac.

# NEED SPILL CONTROL?

Let us help you choose the right one.

## THREE PIG-PROVEN WAYS TO CONTROL LIQUIDS AND AVOID FINES:

### Cover Drains

#### Drain Covers, Seals and Plugs

Perfect for fast spill response. Seal or plug drains tight to keep out unwanted liquids and prevent pollution.

**For PIG DrainBlockers,  
PIG Essentials Drain Covers,  
Drain Seals and PIG Drain Plugs**  
see pages 145-150

### Confine & Channel Spills

#### Dikes

Flexible and formable, with a tacky bottom layer that seals tight so no liquid seeps underneath. Perfect for confining and channeling spills or washdowns without absorbing any liquids.

**For PIG SpillBlocker Dikes**  
see pages 152-155

### Build Custom Containment

#### Barriers

Semi-permanent, configurable barriers for leak-prone areas. Offers big savings compared with more permanent solutions like concrete curbs or cutting angle iron.

**For PIG Build-A-Berm Barriers**  
see pages 156-157

# SOME LIQUIDS JUST CAN'T CONTAIN THEMSELVES

PIG can help! Shop reliable containment like Pallets, Decks, Roll Tops, IBCs, Collapsible Containment and Spill Trays.

## **Drive-Over DrainBlocker Drain Cover** — The only drain cover you can buy that withstands lorry traffic.

- **Patented design is the only cover tough enough** to handle driveovers, only from New Pig
  - **Ideal for long-term drain protection** where liquid transfers, washdowns or other leak- and spill-prone jobs are common
  - **Eliminates the need to frequently deploy and remove** a temporary cover or permanently seal your drains
  - Tough, patented-rubber HogHyde Skin stands up to punctures, tearing and abrasion, **even under heavy vehicle traffic from tankers, lorries or forklifts**
  - **Super-sealing urethane bottom layer** conforms for a tight seal over drain openings to block liquid
- ◆ **Helps you comply** with Environmental regulations

Stands up to debris and sharp objects that ruin other covers.

### PIG® Drive-Over DrainBlocker® Drain Cover

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| PLR900 • 46cm W x 46cm L x 1cm H • Includes Nylon Storage Bag   | £145.00 | £137.75 |
| PLR901 • 61cm W x 61cm L x 1cm H • Includes Nylon Storage Bag   | £219.00 | £208.05 |
| PLR902 • 76cm W x 76cm L x 1cm H • Includes Nylon Storage Bag   | £325.00 | £308.75 |
| ★ PLR903 • 91cm W x 91cm L x 1cm H • Includes Nylon Storage Bag | £409.00 | £388.55 |

Patent 8,117,686

NOTE: The physical properties of the softer urethane bottom may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Inspect product regularly to ensure usability. For more details and chemical compatibility, call our Technical Advice Team on 0800 919 900 or visit our website at [newpig.co.uk](http://newpig.co.uk). For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes.

PLR903

# TOUGH ENOUGH TO REUSE

## **pig** Original DrainBlocker Drain Covers — Strong, heavy cover makes a tight, temporary seal to keep out unwanted liquids.

- Exclusive New Pig formulation features a super-durable, **tear-resistant top layer** that withstands repeated use and abrasion combined with a **flexible, tacky bottom layer** that tightly seals drain openings
- **Chemical-resistant polyurethane** resists water, oil and many chemicals
- Flexible cover is 1.3cm thick and **moulds to uneven surfaces** to create an instant, temporary drain seal that prevents pollution
- Unlike messy alternative clay mats, it's **easy to clean and re-use**
- For best performance, **make sure cover overlaps drain opening at least 8cm on each edge**
- ◆ **Helps you comply** with Environmental regulations

Flexible, tacky bottom layer tightly seals drain openings and is tough enough to wash, repackage and use again.

Protect drains near washdown areas or workstations.

Rectangular covers are perfect for long narrow drains.

#### PIG® Original DrainBlocker® Drain Covers

| Item #    | Size                        | Use with                              | 1-2     | 3+      |
|-----------|-----------------------------|---------------------------------------|---------|---------|
| PLRE241   | 46cm W x 46cm L x 1.3cm H   | Square Drains up to 30cm              | £99.25  | £94.29  |

| PLRE245   | 76cm W x 76cm L x 1.3cm H   | Square Drains up to 60cm              | £241.75 | £229.66 |
| ★ PLRE242 | 91cm W x 91cm L x 1.3cm H   | Square Drains up to 75cm              | £339.00 | £322.05 |
| PLRE246   | 107cm W x 107cm L x 1.3cm H | Square Drains up to 91cm              | £419.00 | £398.05 |
| PLR255    | 46cm W x 152cm L x 1.3cm H  | Rectangular Drains up to 30cm x 136cm | £325.00 | £308.75 |

NOTE: The physical properties of the softer urethane bottom may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Inspect product regularly to ensure usability. For more details and chemical compatibility, call our Technical Advice Team on 0800 919 900 or visit our website at [www.newpig.co.uk](http://www.newpig.co.uk). For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes. These covers should not be walked on.

#### Tear Resistant

Tougher than standard covers to resist ripping.

#### Chemical Resistant

Stands up to water, oils and many chemicals.

#### Easy to Clean

Dirt and grime won't stick to the surface, so the top wipes clean.

#### Reusable

Durable enough to wash and use again later.

## DID YOU KNOW?

Our DrainBlocker Drain Covers are an excellent spill response tool, helping prevent water contamination. They may not, however, be suitable for long-term, daily exposure to certain chemicals. For a chemical resistance guide, please call our Technical Advice Team on 0800 919 900 or visit [www.newpig.co.uk](http://www.newpig.co.uk).

**TRANSPORT YOUR DRAIN COVER IN A CARRY CASE OR BAG SEE PAGE 148 ►►**

PLR286

## **PIG** DrainBlocker Cases and Bags — Keep your drain cover protected and ready for quick response.

- Carry your DrainBlocker Drain Cover right to the spill or mount it to a wall near drains for faster response times. **Both styles work with all Drain Covers** sold on pages 145-149
- **Rigid Carrying Case** (PLR285 – PLR287) is made from corrosion-resistant polypropylene. **Soft Carry Bag** (PLR232) is made from PVC-supported nylon
- **Cases and Bags are compatible with** all PIG and PIG Essentials drain covers on pages 145-149

### Carrying Case for PIG® DrainBlocker® Drain Cover

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| PLR285 • For use with 46cm Sq. and 61cm Sq. Blockers • 79cm L x 19cm Dia.  | £104.75 | £99.51  |
| PLR286 • For use with 76cm Sq. and 91cm Sq. Blockers • 109cm L x 19cm Dia. | £125.75 | £119.46 |
| PLR287 • For use with 107cm Sq. Blockers • 140cm L x 19cm Dia.             | £146.50 | £139.18 |

### Carry Bag for PIG® DrainBlocker® Drain Cover

| Item #   | 1-2    | 3+     |
|--|--------|--------|
| PLR232-24IN • For use with 46cm and 61cm Sq. Blockers • 70cm L x 18cm Dia. | £54.25 | £51.54 |
| PLR232-36IN • For use with 76cm and 91cm Sq. Blockers • 98cm L x 18cm Dia. | £68.00 | £64.60 |
| PLR232-48IN • For use with 107cm Sq. Blockers • 128cm L x 23cm Dia.        | £79.25 | £75.29 |

## **PIG** Essentials Drain Cover with Handles — The economical choice for easy deployment.

PLRE612

- Handles allow for fast, easy installation during an emergency
  - Silicone fabric top layer enables rolling up the mat without need of protective plastic film; polyurethane bottom layer seals tightly over the drain
  - Durable and chemical-resistant
  - Clean after using and store for repeat use
- ◆ **Helps you comply** with Environmental regulations

### PIG® Essentials Drain Cover with Handles

| Item #  | Size                      | Use with                 | 1-2     | 3+      |
|---------|---------------------------|--------------------------|---------|---------|
| PLRE613 | 45cm W x 45cm L x 0.8cm H | Square Drains up to 30cm | £71.50  | £67.93  |
| PLRE611 | 60cm W x 60cm L x 0.8cm H | Square Drains up to 45cm | £119.75 | £113.76 |
| PLRE614 | 75cm W x 75cm L x 0.8cm H | Square Drains up to 60cm | £171.75 | £163.16 |
| PLRE612 | 90cm W x 90cm L x 0.8cm H | Square Drains up to 75cm | £225.00 | £213.75 |

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services. For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes.

# EASY TO CLEAN AND REUSE

DC6161

## **PIG** Essentials Drain Covers — Create a tight, temporary seal over drains to keep out unwanted liquids.

- Durable, tear-resistant top layer that **withstands repeated use and abrasion**
- **Chemical-resistant** polyurethane resists water, oil and many chemicals
- Flexible 1cm thick cover **moulds to uneven surfaces** to create an instant, temporary drain seal that prevents pollution
- Unlike messy alternative clay mats, it's **easy to clean and reuse**
- ◆ **Helps you comply** with Environmental regulations

### PIG® Essentials Drain Covers

| Item # | Size                    | Use with                 | 1-2     | 3+      |
|--------|-------------------------|--------------------------|---------|---------|
| DC4646 | 46cm W x 46cm L x 1cm H | Square Drains up to 30cm | £78.75  | £74.81  |

| DC7676 | 76cm W x 76cm L x 1cm H | Square Drains up to 60cm | £192.75 | £183.11 |
| DC9191 | 91cm W x 91cm L x 1cm H | Square Drains up to 75cm | £259.00 | £246.05 |

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services.

## Disposable Drain Seals — Eliminates the need for decontamination after use.

PLRE165

- Economical choice for drain protection when a disposable product is required; **clay composition creates a 100% seal**, even sticking to rough, irregular surfaces like tarmac or concrete
- Instantly **protects a range of different sized drains** from spilt oils and chemicals; for larger sized drains, overlap multiple drain seals
- **Used by most fire services** as first line pollution defence
- **Resistant to the most common oils and chemicals**, remains flexible at low temperatures to -20°C and treated with a formula which prevents mould growth
- ◆ **Helps you comply** with Environmental and ADR regulations

### Disposable Drain Seal

| Item #                            | 1-2     | 3+      |
|-----------------------------------|---------|---------|
| PLRE165 • 4/box • 45cm W x 45cm L | £89.00  | £84.55  |
| PLRE166 • 4/box • 45cm W x 65cm L | £112.00 | £106.40 |

## PIG® Conical Drain Plugs — Ideal for plugging the outflow on long channel and trench-style drains.

Drain plug (PLR209) fits right underneath your drain cover.

PLR209

- Durable polyurethane plug forms a **liquid-tight**, chemical-resistant seal in seconds
- Simply wedge plug in drain
- Installed plug is **low-profile** enough to fit below floor grate
- **Removes easily** with hand tools
- Conical drain plugs **available for drain sizes from 5cm to 15cm in diameter**

PLR252

PLR210

PLR209

PLR208

### PIG® Conical Drain Plugs

# SEALS TIGHT TO STOP THE SPILL.

**PLR267**  
Quick-deploy system with built-in connectors let you create barriers of any length.

## **SpillBlocker Dikes** — Fast protection for spreading spills or leaking machines.

- **Formulation resists tearing** and a tacky bottom layer seals tight to smooth surfaces
- Reusable dike is flexible and formable to shape to the spill; **confines and diverts fluids without absorbing** them, making cleanup or reclamation simpler
- **Quick-deploy solution with built-in connectors creates a liquidproof seal** and allow you to join as many sections as you need (except for PLRE204, which requires a separate connector)
- Polyurethane material **resists water, oils and many chemicals; cleans easily** with soap and water
- **High-vis colour** draws attention to spill for increased safety
- ◆ **Helps you comply** with Environmental regulations

**PLR253**

Our tallest dikes can handle high volume spills and pooling liquids.

## AVAILABLE IN MULTIPLE HEIGHTS

Contain spills from shallow to deep with our wide range of SpillBlockers.

6cm H – PLRE204

7.6cm H – PLR267

11cm H – PLR253

17cm H – PLR254

PLRE205  
Connector

Contain washdown liquids or  
channel to drains.

PLR204

Surround your machine with a  
dike to contain leaking liquid  
until you can make repairs.

PLR254

Patent 5,236,281

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services.

All SpillBlocker® Dikes shown on pages 152-155 are designed for temporary use only. Pick up after each use, clean, then store properly. Do not leave down for extended periods of time. SpillBlocker® Rough Surface Dike (PLR230, shown on page 154) is intended for one-time use only.

PLR284

Simplify storage and decrease response time  
with this case.

PLR205

PLR206

Add corners and connectors (PLR205 and  
PLR206) to PLR204 to join dike sections.

FOR MACHINES WITH CONSTANT LEAKS, SEE SEMI-PERMANENT BARRIERS ON PAGES 156-157 ►►

## **pig** SpillBlocker Rough Surface Dike — Stop a spill on rough cement or tarmac from seeping under your dike.

Bottom surface "seeps" into surface cracks to form a tight seal.

- **Exclusive New Pig formulation** resists tearing and has a super-tacky bottom layer for tight seals on rough surfaces
- Specially designed bottom layer "seeps" into surface cracks; **our best blocker for tarmac**
- **Fast protection** when a spill is heading for your drain
- **Confines and diverts fluids** without absorbing them, making cleanup or reclamation simpler
- 6cm high dike **contains spills up to 5cm deep**
- **Intended for one-time use only**, and should not be left down for extended periods

### PIG® SpillBlocker® Rough Surface Dike

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| PLR230 • 5cm W x 3m L x 6cm H<br>Includes connector and yellow disposal bag | £275.00 | £261.25 |

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services.

## **pig** SpillBlocker Dike — Stop a machine leak from spreading with this quick-deploy dike.

- **Fast protection** for when a leak is starting to spread; just surround machine with dike to contain liquid until you can make repairs
- **Exclusive New Pig formulation** features a flexible, tacky bottom that seals tight to smooth surfaces and blocks liquids
- **Built-in, interlocking end joints** create a **liquidproof seal** and allow you to join as many sections as you need

### PIG® SpillBlocker® Dike

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services.

## A CLOSER LOOK

Interlocking end joints connect dike sections to create longer lengths.

## PIG® Drive-Over SpillBlocker Dikes — The ONLY barrier designed for traffic and long-term outdoor use.

- First flexible barrier **designed for traffic and long-term outdoor use**; driveovers won't rip, tear or crush it to compromise containment
- **HogHyde skin** stands up to heavy traffic driveovers and resists UV rays
- **Moulds easily** around mounting brackets or other obstacles
- **Provides a full-width bond** that strengthens over time
- **Re-usable** — cleans up with soap and water; picks up and repositions as needed

### PIG® Drive-Over SpillBlocker® Dikes

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services. For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes.

### A CLOSER LOOK

HogHyde skin stands up to heavy traffic and resists UV rays.

Super-sealing urethane bonds to concrete and smooth surfaces without adhesives.

Corner pieces let you make sharp 90° turns for a fully enclosed containment area.

## PIG® Water-Filled Containment Dikes — Keep washdown liquids in check with a water-filled containment dike.

- Heavy-duty dike is **durable and mouldable** (not 100% watertight); just place on ground and fill with water to create a gravity-based berm
- **Re-usable**; simply drain water, fold up dike and store for future use
- High-vis orange dike **helps prevent trips and falls** during washdowns; features **steel reinforced ends** and convenient valve for quick filling and emptying

### PIG® Water-Filled Containment Dike

| Item #                                      | 1-2     | 3+      |
|---|---------|---------|
| PLR266 • 24cm W x 7.6m L • 8cm H when full  | £132.75 | £126.11 |
| PLR260 • 24cm W x 15.2m L • 8cm H when full | £255.00 | £242.25 |

## PIG® Water-Filled Containment Barrier — Reusable barrier contains and channels water during washdowns or small floods.

- Sandbag alternative is **easy to use, move and store**
- **Reusable water-filled dike** equips you with flood protection across repeated short-term deployments, saving money; gravity-based berm **stays in place under its own weight**
- Thick, industrial-hose material, made from PVC, provides **heavy-duty strength**; **threaded cap** holds water in reliably

Drain the water and roll it up for compact storage.

### PIG® Reusable Water-Filled Barrier

# TOUGH ENOUGH FOR HEAVY TRAFFIC.

PLR283  
Drive-Over Barrier

PLR108  
Corner

## **PIG** Drive-Over Build-A-Berm Barriers — Build a spill berm that can handle heavy vehicle driveovers.

- Provides **semi-permanent containment** in high-traffic areas on concrete, asphalt or most sealed surfaces; for best results, use on a smooth, sealed surface
- Constructed of vinyl-coated fabric with an open-cell foam core, berm compresses to approximately 6cm when driven over; **springs back to shape when vehicles pass**
- **Durable enough to withstand indoor or outdoor traffic** from trucks, loaded tow motors and other heavy vehicles with sufficient ground clearance
- Predrilled aluminium mounting strips with **anchors secure berm to most surfaces**; remove anchors to reposition and **create any configuration**
- Ends overlap and **can be sealed together for liquid-proof containment** (Sealant PTYL301 sold separately)

Patent 5,820,297

#### Dow Corning 895 Sealant

| Item #   | 1+      |
|--|---------|
| PTYL301 • 310ml cartridge • 12/box • Up to 8.5 linear metres of BAB per tube with 6mm x 6mm bead | £325.00 |

When used with standard Build-A-Berm Barriers (page 157), orange colour indicates area where drivers can enter and exit.

**PLRL222-999**  
Install a 5cm-high  
Build-A-Berm Barrier  
around machines to keep  
leaks and drips away from walkways.

PLR117

Specially designed Wall End eliminates  
excessive caulking and seepage.

PLR264

Open-cell foam interior springs back into  
shape after you walk on it or roll over it  
with a trolley.

## Build-A-Berm Barriers — Configure a custom-sized barrier to fit your leak-prone area.

- PIG Build-A-Berm Barriers can be constructed into a **semi-permanent, high-visibility barrier** that's exactly the size and shape you need — indoors or out
- Pliable open-cell foam barrier **springs back into shape** after you walk or roll over it with light, wheeled equipment
- For best sealing results, **secure to a smooth, sealed surface**
- **Kit (PLRL222-999) includes** straight sections, corners and sealant; create any length or configuration
- Ends overlap and **can be sealed together for liquid-proof containment** (Sealant PTYL301 sold separately)

### Add these components to your layout:

- **Corners** let you create liquidproof junctions; join two Build-A-Berm sections at a 90-degree angle
- **Vented corner** prevents seam rupture by letting air escape during a cart driveover
- **Wall end** seals flush against the floor and wall for a seepage-free connection

## PIG® Oil & Debris Containment Booms — Keep oil spills from spreading using this durable, UV-resistant, non-absorbent floating boom.

- Floats to surround and **stop oil spills** or debris in calm waters from spreading
- **UV-resistant, PVC-coated** shell is packed with lightweight foam
- Above water height of **15cm**; submerged depth of **30cm**
- Quality construction provides **340kg actual breaking strength**
- **Highly visible** yellow colour for instant recognition in emergency situations
- **Snap hooks** secure and overlap booms
- ◆ **Helps you comply** with Environmental regulations

Booms have an above water height of 15cm and a submerged depth of 30cm.

### PIG® Oil & Debris Containment Booms

NOTE: Not recommended for use in open seas.

# ABSORB SPILLS WITHOUT DRAINING YOUR BUDGET.

PIG Oil-Only Mats save you money by only absorbing oil-based liquids, never water.

SHOP THE RANGE OF OIL-ONLY MATS  
ON PAGES 51-59.

# STORMWATER & WEATHER DEFENCE

## Freeze the day – plan ahead now.

Winter weather is unpredictable. Ice and snow have the potential to cause problems wherever there are paths and walkways. You might not be able to avoid the weather, but you can prepare for it. Make sure you're ready to tackle winter's worst with **grit bins** on-hand and ready to deploy.

## Filter pollutants from stormwater runoff to stay in compliance.

When rain falls, surface water runoff can pick up a range of pollutants, including oils, fuels, heavy metals, rubbish and debris. To collect and filter all those contaminants, you need a **Stormwater Drain Filter** or **Filter Sock**. Manage runoff and capture stormwater pollutants before they enter your drains to help you comply with regulations and reduce damage to the environment.

## Flood defence in a flash.

Flash flooding happens quickly and can cause catastrophic damage. We offer a range of easy-to-store, quick to deploy **flood defence systems** to help you divert unwanted water flows and protect people and property when tides rise.

YOUR PREMISES. BE PREPARED  
WITH OUR RANGE OF WATER  
ABSORBENT PRODUCTS ON  
PAGES 43-47.**

## Interstacking Grit Bins — Stackable grit and salt bins are ideal when space is tight.

- Manufactured from tough, medium density polyethylene, this bin is also **UV stabilised** and will not discolour through long-term exposure to sunlight
- **Nestable design** makes storage and transport of empty bins easier
- **Forklift channels** to aid transport and storage (not 100 litre design)
- **Hinged Lid** protects salt from the elements

## Standard Grit and Salt Bins — Compact, well designed, and extremely strong.

- **Wide-body design** prevents the bin from easily tipping over and spilling the contents
- Manufactured from tough, medium density polyethylene, this bin is also **UV stabilised** and will not discolour through long term exposure to sunlight
- **“GRIT” is moulded into the lid** so will not scratch off

### Interstacking Grit Bins

## Frameless Storm Drain Filters — There's no easier way to control oily runoff and sediment.

- **“Witches hat” is designed** for better filtration, improved handling and all-around performance
- Frameless design is **ideal for drains** of any shape, even in shallow drains
- **Heavy-duty, hi-vis strap** allows easier handling and removal
- Four-stage filtration process **treats more water and removes more oil** than basic storm drain filters
- **Overflow ports** help prevent blockage during high water flow
- ◆ **Helps you comply** with Environmental regulations

Our affordable filters let you protect all your storm drains — even the smaller ones.

Secure PipeSock to the end of a pipe or hose up to 20cm in diameter.

PLSE305

## PipeSock — Control and contain oil and sediment during lower-volume dewatering.

- Simply attach to hose or pipe to **remove hydrocarbons** and sediment from water
- **Ultra-filter-Tex fibres** provide high efficiency and excellent flow
- Ideal for **pumping out** containment areas, collection ponds, utility vaults and sumps after heavy wet weather events
- Contains **100% post-consumer recycled synthetic fibres**
- ◆ **Helps you comply** with Environmental regulations

### PipeSock

| Item #  | 1-2    | 3+     |

| FLT564 • Fits pipes up to 20cm Dia. • 152cm L x 20cm Dia. • Abs. up to 3L | £83.50 | £79.33 |

NOTE: Liquid should always be checked before discharging into the environment.

## FloodSax — Self-inflating flood defence system used to prevent water damage.

- Lightweight (dry) product is **easy to carry, store and deploy**
- **Simple to use** — just soak with water from the sink, hosepipe, watering can or even the floodwater itself; will become taut and puncture-proof within five minutes
- Semi-porous inner liner contains absorbent crystals which **absorbs up to 22 litres of water in just 3-5 minutes** and will stay energised for up to 12 weeks if in contact with liquid without leaking

## HydroSnake — The perfect substitute for traditional, old sandbags.

- **Unique three-section structure controls spread of filler** to prevent contents from accumulating or moving side to side
- **Extremely flexible** for snug fit into openings and door wells; suitable for domestic and commercial properties
- Soak with water before installation, and **in only 2-3 minutes**, each HydroSnake **absorbs up to 20 litres of water** and is ready to use
- Retain their saturated weight for up to 6 months and, since its **components are harmless to the environment**, simply cut open and dispose of contents into soil

### HydroSnakes

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| PLSE327 • 2/pack • 145cm L x 25cm W • Abs. up to 40 L/pack   | £16.50  | £15.68  |
| PLSE338 • 20/case • 145cm L x 25cm W • Abs. up to 400 L/case | £154.00 | £146.30 |

PLSE325

## HydroSack — Create a barrier against floods in domestic and commercial properties.

- **Weights less than 10% of the weight of a sandbag** before contact with water
- Soak with water before installation, and **in only 2-3 minutes**, each HydroSack **absorbs up to 20 litres of water** and is ready to use
- Retain their saturated weight for up to 6 months and, since its **components are harmless to the environment**, simply cut open and dispose of contents into soil
- **Unique three-section structure controls spread of filler** to prevent contents from accumulating or moving side to side

### HydroSacks

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| PLSE325 • 2/pack • 60cm L x 48cm W • Abs. up to 40 L/pack   | £16.50  | £15.68  |
| PLSE336 • 20/case • 60cm L x 48cm W • Abs. up to 400 L/case | £154.00 | £146.30 |

PRE-ORDER NOW

Works on roads, pavements and pathways as well as grass or soil.

PLSE300

PLSE301

## Floodstop Barrier Pods — Use rising floodwater to create a quick-to-deploy flood defence barrier.

- **Deploy in emergencies** or use as a semi-permanent or permanent solution for flood defence, road traffic delineation or reservoir system
- Works on hard standings such as **roads, pavements, pathways, as well as grass or soil** (not gravel)
- Self-balancing pods with a unique foam gasket base create a seal with the ground — **no anchoring required**
- Pods fill with rising floodwater that, when combined with the included weighted connection key (PLSE300 and PLSE301 only), means the **assembled barrier is always denser than the flood water**; interlocking key creates a seal and applied ballast between Modular and Multi-hub Units
- **Designed to handle a flow velocity of 0.5m/s** and withstand strong winds when deployed
- **Floodstop Barrier Multi-hub Connection Pod** (PLSE310, PLSE311) allows you to meet various gaps and angles with ease; creates a clean connection to objects walls and buildings

PRE-ORDER NOW

Be prepared for when floods strike. Floodstop Barriers are made-to-order. Allow 6-8 weeks for delivery.

NOTE: Every 3rd Pod is supplied as a pre-fill unit.

IN STOCK NOW

NEW

Line units outside your premises to protect it from water damage.

## FloodFence Units — Protect your property from floodwater with a lightweight diversionary system.

- Lightweight, reusable system **can be easily connected and deployed rapidly by one person**, making it ideal to protect against flash flooding; does not require any pre-applied ballast
- **System self-balances**, with each unit incorporating a slim line base gasket to allow an effective seal to hard-standing ground terrain
- **Ideal for controlling and deflecting flowing water**, responding to flash floods from heavy rain, drain or river overflows, or for burst water mains; can also be used for fire water runoff control
- When connected to other units, the effective linear length of each is 0.91m, and **can be used for water flows up to 40cm deep**
- **Corner** (PLSE316) allows inner and outer corners to be deployed in conjunction with standard units — two connected units make an 'outer' corner; **Wall Connector** (PLSE317) allows barrier to connect to and seal against vertical surfaces; **Outer Corner Locking Pin** (PLSE318) locks two Corner Units together

IN STOCK. Order now for immediate delivery.

Water flow forces units down against the ground, allowing them to self-balance.

Hard-wearing gaskets create a seal with ground terrain.

# LEAK DIVERTERS

Safeguard your assets.

# THERE'S NO LEAK WE CAN'T CATCH

**The UK's largest range of styles, sizes and colours — available right here.**

Who has time to repair roofs, ceilings or pipes in the midst of an emergency leak? Minimise damage, reduce downtime and safeguard your assets with a little help from PIG.

**PIG Leak Diverters** install fast, channelling liquids away from floors, helping to protect people and property from the hazards and damage that overhead leaks can cause.

Choose from our extensive range of customisable solutions and pre-packaged kits for roofs, ceilings, pipes and appliance and machinery leaks.

You can find out more about the technology below and, for help choosing the **PIG Leak Diverter** that's right for you, check out our handy selection guide on page 166 or call us on 0800 919 900.

**LEARN HOW TO CHOOSE A  
LEAK DIVERTER AND FIND OUT MORE  
ABOUT THE RANGE  
ON PAGE 166.**

#### WON'T RIP, TEAR, PUNCTURE OR LEAK

Heavy-duty materials withstand rough handling and multiple uses. RF welding creates leakproof seams, unlike sewn corners and edges.

#### MULTIPLE POINTS FOR EASY HANGING

Multiple metal grommets provide plenty of connection points for easier hanging in more places.

#### SHAPED TO WORK FOR MAX FLOW

Reinforced pinched corners and folded edges create and maintain a funnel shape. No drooping, bowing or sagging.

#### FAST, CLOG-FREE DRAINING

Extra-large opening with built-in debris cage stops clogs and keeps leaks flowing. Debris is collected but it won't go down the drain.

#### HERE'S HOW IT WORKS

Collection tarp captures liquid and funnels it to the hose connection.

Hose channels liquid to a floor drain or collection container.

Bucket  
not included.

# NEED A LEAK DIVERTER? LET US HELP YOU CHOOSE THE RIGHT ONE.

New Pig offers the largest range of **Leak Diverter** styles and options, each tailored to specific leak and drip challenges in your workplace. Follow these simple steps to pick the right one for your application.

- 1 **Survey the spots where you're most likely to have a leak:** roof, ceiling, pipes, HVAC, etc.
- 2 Now, based on your answer to #1, you can **choose to custom-build your Leak Diverter** to meet your specific needs, prefer the convenience of an **all-in-one kit**, or prefer to go for one of our **specialty solutions** to meet your needs from the options and styles below.

## CUSTOM BUILD

### FOR ROOFS

**PIG Roof Leak Diverters** hang in problem spots to channel leaks to a drain or container.

Required Accessories: **A B**      Optional Accessories: **C D**

See range on pages 167-169

### APPLIANCES, MACHINERY & CONVEYORS

**PIG Trough Style Leak Diverters** are ideal for catching condensation from duct work & pipes, as well as runoff from conveyors.

Required Accessories: **A B**      Optional Accessories: **C D**

See range on page 168

### FOR PIPES

**PIG Pipe Leak Diverters** hang easily to catch and divert leaks and condensation from pipes and duct work.

Required Accessories: **A B**      Optional Accessories: **C D**

See range on page 175

## SPECIALTY SOLUTIONS

### FOR CEILING

**PIG Ceiling Leak Diverters** offer discreet, low-profile management of overhead leaks — perfect for office areas.

Optional Accessories: **D**

See range on pages 170-171

### QUICK-DEPLOY KITS

**PIG Umbrella-Style Leak Diverters** are the fastest solution you can buy — installs in seconds.

Optional Accessories: **C D**

See range on pages 169, 172

## ALL-IN-ONE KITS

### ALL-IN-ONE KITS

**PIG Leak Diverter Kits** are perfect for quick and easy grab-and-go leak response. Everything you need all in one kit.

Optional Accessories: **C D**

See range on pages 170-174

## ACCESSORIES

### REQUIRED ACCESSORIES

All the essentials you'll need to start using your Leak Diverter

Hanging Straps

Drainage Hose

### OPTIONAL ACCESSORIES

Extras that will help you get the most out of your Leak Diverter

Hose Connectors

Buckets

See full Accessories range on pages 176-177

TLS462

## Leak Diverters for Roofs — Help protect your people, equipment and inventory from a roof leak.

- **Ideal for quick response** to avoid downtime after a roof leak or for long-term prevention in leak-prone areas
- Impermeable **tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew for long life
- Pinched corners **help funnel liquid** toward center for better drainage; grommets or D-rings **resist tearing** and make installation easy
- Water flow rate of **12.6-litres per minute** when used with a 1/2" ID hose
- **Hose and hanging straps** sold separately on page 177

### PIG® Leak Diverter for Roofs

| TLS554 • 305cm W x 610cm L   | £260.75 | £247.71 |

NOTE: Not suitable for temperatures over 170°F/77°C.  
Dimensions are nominal size due to pinched corners and reinforced side walls.

TLS672

Rectangular leak diverter is ideal for catching leaks and drips from long cracks or fissures.

**SEE LEAK DIVERter ACCESSORIES ON PAGES 176-177 ►►**

## Trough Style Roof Leak Diverters — Long and narrow diverters are perfect for leaks between joist spans and around pipes.

- **Hangs easily in problem spots** to catch nuisance leaks and channel them to a floor drain or collection container
- Non-permeable tarps are **vinyl coated for strength and durability**; resist punctures, UV and mildew for long life.
- **41cm wide** to fit between joist spans underneath beams
- **Edges feature stiffening rods** along length for additional stability; rods break down for easy storage
- **Hanging straps and drainage hoses** sold separately on page 177

### PIG® Trough Style Roof Leak Diverters

| Item #                           | 1-2            | 3+             |

NOTE: Not suitable for temperatures over 170°F/77°C.  
Dimensions are nominal size due to pinched corners and reinforced side walls.

TLS561

TLS676

## High Flow Leak Diverters — High-flow roof leak? No problem. Catch and divert 38 litres of liquid per minute.

- **Diverts liquids from pressure washing or hosedowns**; catches liquid and channels it to a drain, preventing puddling and wet floors
- Integrated 5cm x 762cm L flat vinyl hose drains up to 38L of liquid per minute; reinforced vinyl is **chemical, puncture and UV resistant**; 90-degree elbow between hose sections prevents kinking
- **Hanging straps** sold separately on page 177

### PIG® High Flow Leak Diverters

| Item #                            | 1-2            | 3+             |
|-----------------------------------|----------------|----------------|
| <b>TLS675</b> • 183cm W x 183cm L | <b>£186.25</b> | <b>£176.94</b> |
| <b>TLS676</b> • 340cm W x 340cm L | <b>£289.25</b> | <b>£274.79</b> |

**Contents** • 1 Leak Diverter • 1 Flat Hose • 1 90° Elbow • 2 Hose Clamps

NOTE: Not suitable for temperatures over 170°F/77°C.  
Dimensions are nominal size due to pinched corners and reinforced side walls.

# **PIG® Umbrella-Style Roof Leak Diverter Kits** — Pop open the fastest solution you can buy to catch a roof leak.

- Hang from a single point near the leak, remove the cover and it **opens like an umbrella**
- **All-in-one kit** is perfect for quick response to prevent damage to inventory or machinery and avoid slip hazards
- **Hangs easily to catch nuisance leaks**; flexible PVC drain hose (included) channels them to a floor drain or collection container
- Impermeable **tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew for long life
- Tapered **sides help funnel liquid toward centre** for better drainage
- 1.9cm drain fitting **accepts longer hoses**
- **Flow rate is 12.6L per minute** when used with 1.2cm ID hose
- **Three colours available**: yellow draws attention; clear shows liquids and lets light pass through; translucent shows liquids and blends in with white ceilings

Hang the diverter from a single point near the leak.

The flexible hose channels the leak to a floor drain or collection container.

Dimensions are nominal size due to pinched corners and reinforced side walls.

Magnets easily attach to metal.

## **PIG® Magnetic Roof Leak Diverter Tarp** — Quickly respond to metal roof leaks.

- **Sewn-in magnets** allow for easy, fast deployment anywhere that metal is present; magnets provide a strong hold in areas where traditional leak diverter tarps may be difficult to hang
- Diverter tarp **can hold up to 23kg or 23-litres using magnets alone**; grommets along the sides can provide extra support

NOTE: Not suitable for temperatures over 170°F/77°C.  
Dimensions are nominal size due to pinched corners and reinforced side walls.

## PIG® Ceiling Tile Absorbent Pad — Catch minor drips before they stain your tile.

- **Absorbent pad** rests on top of your ceiling tile to catch minor drips
- **Poly backing** prevents absorbed liquids from staining the ceiling tile
- **Low-profile and lightweight;** won't interfere with above-ceiling structures or cause tiles to sag
- **Dimpled surface pattern** speeds wicking of liquid for rapid absorption
- Absorbent pads contain **25% or more recycled content**

## A CLOSER LOOK

Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the toughest mat on the market.

Poly backing keeps liquid from passing through to ceiling tiles.

### PIG® Ceiling Tile Absorbent Pad

| Item #  | 1-2           | 3+            |
|---|---------------|---------------|

1

Remove the stained portion of drywall.

2

Cover the opening with the leak diverter.

3

Connect a hose to divert leaks into a drain or container.

Hose sold separately on page 177.

## PIG® Drywall/Plasterboard Ceiling Leak Diverter Tarp — Stop damage across drywall ceilings.

- **Capture and divert drips from drywall/plasterboard ceilings** before they become a bigger, more expensive problem; saves money by preventing the spread of stains and damage
- **Attaches above the drywall/plasterboard** after removal of damaged ceiling section (37cm x 37cm), leaving only partial visibility of full diverter; maintains a professional look
- **Can remain in ceiling** until you're able to repair the leak
- Features a **clog-blocking debris cage** and a 12.6 litre/minute flow rate with used with a 1.9cm hose; hose connector included

Leak diverter tarp comes with two hanging rods and a hose connector. Hose sold separately.

### PIG® Drywall/Plasterboard Ceiling Leak Diverter Tarp

| Item #                                    | 1-2           | 3+            |
|---|---------------|---------------|
| <b>TLS830</b> • 41cm W x 41cm L x 7.5cm H | <b>£78.75</b> | <b>£74.81</b> |

**Contents** • 1 76cm x 107cm vinyl sheet • 1 PVC Frame • 1 762cm Hose • 2 hose clamps

NOTE: Not suitable for temperatures over 170°F/77°C.

Patent 7,331,357

Hang it in places where you need fast response.

TLS753

## PIG® Spring-Open Leak Diverter Kits — Hangs and levels easily to capture and divert overhead leaks.

- Coiled diverter **springs open** for easy installation
- Straps, hooks and clamps can be adjusted in seconds; just **nudge diverter until it's centered and leveled**, even if hanging points are uneven
- **Rigid outer rim holds diverter open** for easy handling
- All diverter **components are pre-attached for speedy set-up**; flexible PVC drainage hose (included) clicks into place with preinstalled quick-connect adapter
- **Conical shape** funnels leaks toward center for better drainage; translucent for easy monitoring
- **Hangs easily** in problem spots to catch nuisance leaks and channel them to a floor drain or collection container
- **Nonpermeable tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew for long life
- Includes **hose and adjustable hanging straps**

### PIG® Spring-Open Roof Leak Diverter Kits

| Item #                      | 1-2     | 3+      |
|-----------------------------|---------|---------|
| TLS752 • 76cm Dia. x 25cm H | £118.50 | £112.58 |
| TLS753 • 132cm L x 86cm W   | £123.00 | £116.85 |

**Contents** • 1 Leak Diverter • 1 Quick Connect Set • 1 762cm L Drainage Hose • 2 Adjustable Length Bungee Cords  
4 Hanging Hooks • 1 Vinyl Storage Bag

NOTE: Not suitable for temperatures over 170°F/77°C.

Includes five PIG Water Mats for leaks that may have reached the floor.

Kit includes your choice of hanging straps or magnets.

## PIG® Quick Response Roof Leak Diverter Tarp Kit — All-in-one Kit catches roof leaks.

- **Super-easy installation:** choose between magnetic or adjustable hanging straps
- **Multiple hanging points** with tear-resistant brass grommets preserve shape and keep diverter stable
- **Clear, compact drawstring bag** is easy to grab for quick response
- Includes five wringable, reusable **PIG Water Absorbent Mats** for cleaning up any leaks that may have hit the floor
- PIG Water Absorbent Mats **contain up to 60% pre-consumer recycled cellulose**

### PIG® Quick Response Roof Leak Diverter Tarp Kit

Specify with Hanging Straps or with Magnets

| Item #                    | 1-2     | 3+      |
|---------------------------|---------|---------|
| TLS1120 • 76cm W x 76cm L | £123.50 | £117.33 |

**Contents** • 1 Leak Diverter • 1 Drainage hose • 4 Adjustable Hanging Straps or 4 Magnetic Hanging Clips • 1 Quick Connect Set • 5 Mat Pads • Clear Drawstring Bag

NOTE: Not suitable for temperatures over 170°F/77°C.  
Dimensions are nominal size due to pinched corners and reinforced side walls.

Use bucket as a collection container for diverted liquid.

TLS121

## PIG® Leak Diverter Bucket Kits for Roofs — Be ready for roof leaks with all-in-one diverter kits.

- Contains supplies for rapid response to roof leaks, **all in a 24.6-litre bucket**
- **Non-permeable tarp** is vinyl coated for strength and durability; resists punctures, UV and mildew for long life
- Flow rate of **12.6-litres per minute** when used with a 1/2" ID hose
- **Basic kits** (TLS950, TLS121, TLS951) have diverter, hose and adjustable hanging straps
- TLS667 and TLS668 have preinstalled **quick-connect set** for speedy set-up
- TLS667 and TLS668 include high-vis yellow **PIG Mat Pads** soak up puddles to keep floors safe while "Caution" message draws attention to spills; **PIG All-Purpose Wipes** are great for cleaning up small spills

Printed "Caution" message on back of buckets doubles as a warning sign.

NOTE: Not suitable for temperatures over 170°F/77°C.  
Dimensions are nominal size due to pinched corners and reinforced side walls.

## PIG® High-Reach Roof Leak Diverter Tarp Kit — Funnel leaks from high ceilings safely.

- **Telescoping high-reach leak diverter** quickly routes small leaks from high ceilings that have difficult access and no attachment points
- **Ideal for heavy foot-traffic areas**; sturdy, hard-to-tip weight distribution and hi-vis yellow legs with "Caution" message warn pedestrians and prevent tripping
- **Telescoping pole adjusts to 2.7m** — no ladder required
- Extra-large drain opening features **anti-clog cage**
- **Capture drips from ceilings up to 4.5m high** without the risk of splash-out; included mat pad catches splashes from ceilings over 4.5m

### PIG® High Reach Roof Leak Diverter Tarp Kit

| Item #   | 1-2            | 3+             |
|--|----------------|----------------|
| <b>TLS820</b> • 69cm W x 89cm L • Telescopes up to 2.74m H | <b>£439.75</b> | <b>£417.76</b> |

**Contents** • 1 Leak Diverter • 1 Drainage hose • 1 Telescoping Pole • 1 Bucket • 1 Mat Pad

NOTE: Not suitable for temperatures over 170°F/77°C.

## PIG® Oil Pipe Leak Diverter Kit — Quick response to overhead leaks.

- Hangs from a leaking pipe or other overhead oil system to **catch nuisance leaks** and channel them to a collection pail (included)
- Nonpermeable tarp is vinyl-coated for strength and durability and tested for **compatibility with high-viscosity oils**
- 24.6L bucket has removable plug to allow drainage hose to be inserted **without having to remove the lid**
- **Included absorbents and wipes** soak up small oil spills

### PIG® Oil Pipe Leak Diverter Bucket Kit with Absorbents

| Item #                                  | 1-2            | 3+             |
|---|----------------|----------------|
| <b>TLS707</b> • Ext. Dia. 46cm x 46cm H | <b>£177.00</b> | <b>£168.15</b> |

**Contents** • 1 Leak Diverter • 1 762cm L Drainage Hose • 4 Rubber Hanging Straps • 1 Quick Connect Set • 1 75-Pack Wipes • 10 Mat Pads • 1 24.6-litre bucket

NOTE: Not suitable for temperatures over 170°F/77°C.

## PIG® High-Reach Leak Diverter — Installs up to 6m in the air without a ladder.

- Lengthen **telescoping pole 183cm-610cm** to quickly catch leaks and channel them to a floor drain or collection container
- Tension mounted pole with **rubber cups** secures pole to floor and ceiling; **easy for one person to install** or move a Leak Diverter from one location to another
- Nonpermeable tarp is **vinyl-coated for strength and durability** and it resists punctures, UV and mildew for long life
- **Hoses sold separately** on page 177

### PIG® High-Reach Leak Diverter

| Item #                             | 1-2            | 3+             |

NOTE: Not suitable for temperatures over 170°F/77°C.

TLS248

### PIG® Leak Diverter for Pipes — Capture pipe leaks at the source before slips and falls occur.

- Hangs from a leaking pipe to **catch nuisance leaks** and channel them to a floor drain or collection container
- Impermeable tarp is vinyl coated for strength and durability; **resists punctures, UV and mildew** for long life
- Hose coupling accepts **drainage hoses** (sold separately on page 177)

#### PIG® Leak Diverter for Pipes

Specify Colour: ☐ Clear ☐ Grey ☒ Yellow

| Item #  | 1-2    | 3+     |
|---|--------|--------|
| TLS200 • 30cm Dia. x 30cm H • Not Available in Grey | £61.75 | £58.66 |
| TLS248 • 46cm Dia. x 46cm H                         | £71.75 | £68.16 |
| TLS691 • 61cm Dia. x 61cm H                         | £96.75 | £91.91 |

**Contents** • 1 Leak Diverter • 1 Drain fitting • 4 Rubber straps

NOTE: Not suitable for temperatures over 170°F/77°C.

### PIG® Horizontal Leak Diverter for Pipes — Purpose-built design catches pipe leaks or condensation.

- Wraps completely around pipes from 1.9cm to 10cm diameter to contain spraying liquids; hangs easily with hook-and-loop fasteners
- Hangs from a leaking pipe to **catch nuisance leaks** and channel them to a floor drain or collection container
- Tapered design helps funnel liquid toward centre for better drainage
- Impermeable tarp is vinyl coated for strength and durability; **resists punctures, UV and mildew** for long life
- Hose coupling accepts **drainage hoses** (sold separately on page 177)

#### PIG® Leak Diverter for Pipes - Horizontal

| Item #                   | 1-2    | 3+     |
|--------------------------|--------|--------|

TLS470–TLS472

## Rubber Hanging Straps

| Item #                   | 1-9    | 10+    |
|--------------------------|--------|--------|
| TLS470 • 4/pack • 36cm L | £18.75 | £17.81 |
| TLS471 • 4/pack • 48cm L | £21.00 | £19.95 |
| TLS472 • 4/pack • 61cm L | £24.00 | £22.80 |

## A Rubber Hanging Straps

- Rubber hanging straps are **sunlight-resistant** and will not rot or crack

TLS559

## Adjustable Hanging Straps

- Straps are designed to hang Leak Diverters from uneven surfaces. Adjustable tension and length offer a variety of uses, while the co-polymer hook design is up to **five times stronger than most rubber cord hooks**

## Adjustable Hanging Straps

| Item #                                  | 1-9    | 10+    |
|---|--------|--------|
| TLS559 • 4/bag • From 152cm L to 15cm L | £28.00 | £26.60 |

TLS680

## Quick Connect Set

| Item #                               | 1-9   | 10+   |
|--------------------------------------|-------|-------|
| TLS680 • 8cm L x 3.8cm Dia. • 1 each | £9.25 | £8.79 |

## B Quick Connect Set

- Provides **instant connection/disconnection** between your Leak Diverter and Drainage Hose — just click the ends together.

TLS682

## Elbow Hose Connector

- PVC elbow connector lets you connect a drainage hose to your leak diverter at a **90-degree angle**

## Elbow Hose Connector

| Item #                           | 1-9    | 10+    |
|----------------------------------|--------|--------|
| TLS682 • 5cm W x 5cm L x 2.5cm H | £11.50 | £10.93 |

TLS679

## Clear Drainage Hose

| Item #   | 1-9    | 10+    |
|--|--------|--------|
| TLS679 • Use With Leak Diverter w/ .75" Connection • 1.2cm ID x 762cm L              | £23.50 | £22.33 |
| TLS690 • Use With Leak Diverter w/ .75" Connection • 1.2cm ID x 305cm L              | £15.25 | £14.49 |
| TLS174 • Reinforced • Use With Leak Diverter w/ .75" Connection • 1.6cm ID x 305cm L | £55.50 | £52.73 |

## C Clear Drainage Hose

- Channels liquid from Leak Diverters and allows you to **monitor flow at a glance**

TLS645

## Garden Hose Adaptor

- Standard with PIG Leak Diverters, this replacement item has a tapered end which inserts easily into the bottom of a diverter and accepts a common 3/4" hose

## Garden Hose Adaptor

| Item #          | 1-9   | 10+   |
|-----------------|-------|-------|
| TLS645 • 1 each | £5.00 | £4.75 |

TLSE155

## D PIG Leak Diverter Bucket & Lid

- Channel liquids into a collection bucket that has a **removable plug** to allow a drainage hose to be inserted without having to remove the entire lid
- "**Leak Diverter**" identification on one side; "**Caution**" message on reverse

## PIG® Leak Diverter Bucket & Lid

| Item #   | 1-2    | 3+     |
|--|--------|--------|
| TLSE155 • 24.6L Storage Capacity • Ext. Dia. 36cm x 45cm H | £39.50 | £37.53 |

## Featured Products

### PIG Grippy Adhesive-Backed Floor Mat

Adhesive-backed floor mat stays exactly where you put it with no shifting, bunching up or flipping over.

**See page 181**

### PIG Grippy Adhesive-Backed Floor Mat with Safety Borders

This floor safety solution combines a hi-vis border with a high-traction surface and adhesive backing.

**See page 183**

### Worksafe Anti-Fatigue Mat

Hard-wearing workstation mat provides anti-slip and fatigue relief in all industrial areas.

**See page 196**

# NEED AN ENTRANCE MAT?

## LET US HELP YOU CHOOSE THE RIGHT ONE.

**Entrance Mats** are designed to absorb rainwater and dry footwear, helping to reduce slip hazards and keep floors looking cleaner around entrances and reception areas.

Our **PIG Grippy Adhesive-Backed Floor Mat** range takes entrance and floor mats to the next level. Not only do they absorb rainwater quicker than traditional entrance mats, but they also trap dirt and other nasties to prevent them from being trodden across your floors.

New Pig also offers a whole host of innovative **floor and entrance mat solutions** for a variety of environments — from offices to warehouses, factories to showrooms and everywhere in between.

GRP36200

## PIG Grippy Adhesive-Backed Floor Mats — Turn wet, slippery floors into worry-free walkways.

- PIG Grippy Adhesive-Backed Floor Mat is highly absorbent, very low profile, **extremely durable and effortless to maintain**; traps dirt, salt and moisture to keep it from being tracked around
- Adhesive-backed floor mat **stays exactly where you put it with no shifting, bunching up or flipping over** but peels up easily when it's time to replace
- PIG Grippy Adhesive-Backed Floor Mat **will stick to most common commercial floor surfaces**, including: concrete, vinyl tile, ceramic tile, quarry tile and linoleum
- **Extreme durability that stands up to heavy traffic** to keep it on the job for up to 6 months, depending on conditions and traffic patterns
- **Easy to use**: roll out continuous walk-off coverage for entrances and walkways with no gaps, ripples or overlaps that cause slips and trips
- **Easy to customise**: lets you create custom-size floor mats for transition areas and wet problem spots
- PIG Grippy Adhesive-Backed Floor Mat has up to a **91% lower environmental impact than rental floor mats** (see page 122)

# HI-VIS MEETS HIGH-TRACTION.

GRPSB36200

## Grippy Adhesive-Backed Mats with Safety Borders — Provide a no-slip path for foot traffic with our hi-vis, adhesive-backed runner.

- Yellow and black pattern runs down both edges of mat roll, helping you **indicate hazards and boost safety**
- Adhesive-backed floor mat **stays exactly where you put it with no shifting, bunching up or flipping over** but peels up easily when it's time to replace
- **Will stick to most common commercial floor surfaces**, including: concrete, vinyl tile, ceramic tile, quarry tile and linoleum
- **Extreme durability that stands up to heavy traffic — even forklifts** — to keep it on the job for up to 6 months, depending on conditions and traffic patterns
- **Easy to clean:** you can sweep, vacuum, mop, use your shop/wet vac or run your floor scrubber over the mat and it won't budge (cleaning helps to restore hi-vis properties of safety border)
- **Easy to customise:** lets you create custom-size floor mats that promote the safest path, even around corners

Rubber-backed mats don't stay in place and can cause trip hazards.

GRP916X10

## **PIG** Grippy Adhesive-Backed Berber Carpeted Entrance Mats — Complement modern, upscale vestibules, entry-and-walkways and more.

- Adhesive-backed floor mat **stays exactly where you put it** with no shifting, bunching up or ripples that cause slips and trips
- **Dries out quickly** without moisture soaking through to the floor; absorbs water, oil and grease and traps dirt, debris and sand to keep it from being tracked around
- Sticks to the floor with a super-tight grip, but **peels up easily without leaving a residue or damaging floors**
- Commercial-grade durability allows you to **keep mat in place for 3 to 6 months** depending on your conditions; carpet fibres resist fading, staining and crushing
- **Easy to clean:** you can sweep, vacuum, mop or use your carpet extractor with mat in place
- **ADA compliant** for wheelchairs and walkers
- Absorbent fibres are made from **100% post-consumer recycled polyester**

## Accessories — Everything you need to apply and remove Grippy Mat.

### Smoothing Roller — Walk-behind roller makes applying Grippy faster and easier.

- Eliminates the need to get down on your knees during Grippy Adhesive-Backed Mat installation
- Smoothing roller **unrolls the mat** as you push it along and **smooths it into place** without creating air pockets or bubbles
- **Ergonomic design** has a comfortable grip and angled handle for upright operation; eliminates back strain and knee pain
- **Kickstand** lets you stand roller upright without falling over or rolling away; **hook on handle** lets you hang roller on chain-link fencing or other hanging systems for long-handled tools

#### Smoothing Roller for Grippy® Adhesive-Backed Mats

| Item #                             | 1+      |
|------------------------------------|---------|
| GRP021 • 97cm W x 147cm L • 1 each | £147.00 |

### Utility Board — Cutting guide allows you to make precise cuts and smooth mat.

- Convenient, pre-scored “template” guides your blade, **producing clean, accurate cuts**
- **Create perfect corners or 45° angles** for working around obstacles or making specific shapes; serves as a cutting board to prevent damage to floors during cutting
- Can also be used as a float to **quickly smooth out Grippy Adhesive-Backed Mat** in one pass
- **Connect two boards together** for cutting or applying mats wider than 91cm or making diagonal cuts

#### Utility Board for Grippy® Adhesive-Backed Mats

| Item #                            | 1+     |
|-----------------------------------|--------|
| GRP001 • 97cm W x 15cm D • 1 each | £26.25 |

GRP012

### Safety Knife — Make precision cuts to Grippy Mats with a safety-first knife.

- Recessed blade has **protective edges** to help eliminate worker injuries and property damage
- **Makes quick, clean cuts** to PIG Grippy Adhesive-Backed Mats without the risk of handling scissors or box cutters
- **Blades can be easily changed out** when worn; GRP012 comes with two replacement blades
- **Replacement blade pack** (GRP011) comes in a set of 10 blades

#### Safety Cutting Knife

| Item #                               | 1+     |
|--------------------------------------|--------|
| GRP012 • Safety Knife with 2 blades  | £18.50 |
| GRP011 • Replacement Blades • 10/bag | £16.50 |

### Removal Tool — Claw-like tool makes removing Grippy Mat even easier.

- Removal Tool “**locks**” its jaws onto mat material, providing a firm handgrip for pulling up adhesive-backed mat
- **Rounded handle adds comfort**; won't dig into your hand as you pull
- High-quality aluminium construction is **durable and reliable**

#### Removal Tool for Grippy® Adhesive-Backed Mats

| Item #                                    | 1+     |
|---|--------|
| GRP020 • 9cm W x 19cm L x 13cm H • 1 each | £29.00 |

NOTE: Most Grippy Adhesive-Backed Mats pull up easily by hand. This Removal Tool is helpful for removing long runs, wide sizes or mats that have been in place for extended periods of time.

## Superdry Entrance Mats — Premium waffle mat features optimum moisture retention.

- Ideal for **heavy foot traffic areas**, for loose lay placement indoors
- **Raised, reinforced “waffle” pattern** scrapes dirt away from footwear, helping to reduce the amount of dirt/debris brought into the building
- Slip resistant vinyl base and ramped edges have a low 7mm height for **easy wheelchair access**; able to retain up to 5.4 litres water
- **Exceptional moisture wiping properties**; able to retain up to 5.4 litres water / m<sup>2</sup>
- Ideal for placement inside **entrances of schools, offices, shops and more**

### Superdry Entrance Mats

Specify Colour: Black Blue Brown Grey Red

| Item #                      | 1-2    | 3+     |
|-----------------------------|--------|--------|
| FLME375 • 60cm W x 90cm L   | £17.25 | £16.39 |
| FLME376 • 90cm W x 150cm L  | £58.00 | £55.10 |
| FLME377 • 120cm W x 180cm L | £93.25 | £88.59 |

## Entraplush Entrance Mats — Economical solution to stop dirt and cut cleaning costs.

- Suitable for **light foot traffic** areas; for loose lay placement indoors
- Economical mat saves you money with a **low price and inexpensive maintenance**
- Cleans easily with a standard vacuum cleaner, **no need for expensive laundering or professional cleaning**
- **Crush-resistant, quick-drying polypropylene fibres** create a durable mat that captures dust, dirt and moisture to keep them from entering your facility
- **PVC backing prevents mat from sliding** for added safety on hard surfaces; backing also keep liquids from reaching the floor below the mat to prevent staining
- **Attractive pattern hides dirt**; choose from a variety of colours to match your existing decor

### Entraplush Entrance Mats

Specify Colour: Blue Brown Grey Red

| Item #                      | 1-2    | 3+     |
|-----------------------------|--------|--------|
| FLME303 • 60cm W x 90cm L   | £17.00 | £16.15 |
| FLME301 • 90cm W x 150cm L  | £42.25 | £40.14 |
| FLME302 • 120cm W x 180cm L | £67.00 | £63.65 |

## Fingerbrush Mats — Heavy-duty mat holds litres of disinfectant to clean shoes.

- Manufactured using premium quality rubber, this durable mat combined with its weight and non-slip backing, **will stay firmly in place in the most extreme conditions**
- Heavy-duty rubber mat is **designed for external use** and withstands weather extremes and heaviest foot traffic
- **Thousands of flexible rubber bristles** clean shoes fast
- **Anti-trip bevelled rubber border** to reduce the risk of trips
- **Gripper underside** detail to prevent mat movement
- **Thick surrounding border** stands higher than finger-scrapers to contain disinfectant solution\*

### Fingerbrush Mats

| Item #                     | 1-2     | 3+      |
|----------------------------|---------|---------|
| FLME430 • 60cm W x 80cm L  | £41.50  | £39.43  |
| FLME431 • 80cm W x 100cm L | £62.00  | £58.90  |
| FLME432 • 90cm W x 180cm L | £129.00 | £122.55 |

\*Use quaternary ammonium, iodine, chlorine or any other sanitiser but always test its concentration. Most sanitisers are concentrated and must be diluted before use in a footbath. Follow label directions for appropriate dilutions.

FLME430

## Washable Entrance Mats — Machine-washable mat saves money.

- Suitable for **medium foot traffic** areas, for loose lay placement indoors
- Absorbs up to **3.5L/m² of water** and traps **800g of dry dust**
- **Washable in a domestic washing machine**; can be vacuumed or hosed between laundings
- **Anti-slip nitrile backing** grips both hard and carpeted surfaces to prevent mat for sliding for added safety; keeps liquids from reaching the floor below the mat to help prevent staining
- Crush-resistant pile **maintains a luxurious look**, even in busy entranceways; choose from a variety of colours to match your existing decor
- **Bleach and fade-resistant carpet pile** keeps your mat looking great for years

### Washable Entrance Mats

MAT566

## **Sticky Steps Mats** — Pull dirt off shoes and keep floors clean.

MAT567

Choose from three colour options to best match your premises.  
(MAT565 not available in White)

- Low-profile mat's "tacky" top layer **lifts dirt and debris from shoes and cart wheels** without transferring the adhesive, keeping dirt out of offices, classrooms and other areas where clean floors are vital
- **30-sheet mat pack**, with numbered pull tab system, shows you when you're running low
- Each box comes complete with **4 pads of 30 sheets**
- **Used sheets tear off** easily and individually
- **Easy to apply** — adhesive backing adheres to the floor

# NEED AN ANTIMICROBIAL MAT?

## CHOOSE A RUNNER OR PADS FOR YOUR PREMISES.

**PIG Grippy Adhesive-Backed Antimicrobial mats** incorporate all the floor safety features of our original **Grippy Adhesive-Backed Floor Mat** with the additional infusion of DW-30 Ultra-Fresh antimicrobial technology to help combat odours, mould and bacterial growth.

The polypropylene top layer, combined with the impermeable backing layers allows the mat to be used in a wide variety of settings — sinks, hand dryers, washrooms, shower rooms and lavatories.

### USE THESE ICONS TO HELP YOU SELECT THE RIGHT MAT FOR YOUR APPLICATION

Application Key

Use for **HEAVY** foot traffic

Use for dust control

Absorbing

No bunching

Slip-resistance

Carts/wheeled access

Oil Resistant

Scrub over

Indoor use

Wheelchair accessible

NSFI

## GRIPPY ADHESIVE-BACKED ANTIMICROBIAL MATS

**Absorb WATER, URINE, soap and sanitiser**

#### Impermeable Poly Layer

Stops liquids from passing through to floor.

#### Adhesive Backing

Sticks tight, but peels up easily. Won't disintegrate in wet conditions.

#### Tough Absorbent Top

Quickly wicks liquids and dries fast.

**DW-30 Ultra-Fresh Infused**  
Permanent infusion of DW-30 Ultra-Fresh antimicrobial technology to help fight odours, mould, and bacteria growth.

#### Interlocked & Heat Fused Fibres

Trap dirt and offer incredible durability.

Sink & Dryer

Runner

## Grippy Adhesive-Backed Antimicrobial Floor Runner — Freshen up with our range of antibacterial and antifungal floor protection.

- The **“industry-first design”** of our Antimicrobial Floor Runner lets you roll out and cut to length the perfect size runner for continuous drip and splash coverage wherever custom sizes are needed
- **Permanently infused with DW-30 Ultra-Fresh antimicrobial technology** to help fight odours, mould and bacteria growth in front of sinks, shower cubicles and even urinals
- Adhesive-backed mats **stay in place for up to six months**

# NEED AN ANTI-FATIGUE MAT?

## LET US HELP YOU CHOOSE THE RIGHT ONE.

New Pig offers a wide range of anti-fatigue mats designed to reduce the fatigue caused by standing for prolonged periods of time.

Available for a wide range of applications, Anti-Fatigue Mats act as a barrier, absorbing shocks from floor surfaces and encouraging movement to improve blood flow, minimise leg and back strain and reduce fatigue.

### USE THESE ICONS TO HELP YOU SELECT THE RIGHT MAT FOR YOUR APPLICATION

Protection/cushioning

Tiles

## DID YOU KNOW?

### ANTI-FATIGUE MATS INCREASE COMFORT AND PRODUCTIVITY.

#### Effects of long-term standing.

- Standing on hard surfaces for long periods of time causes muscles to restrict and reduce blood flow. As a result, muscles and joints hurt and the blood stagnates.
- Long-term standing also causes pronation, or excessive flattening of the foot. This is tiring, painful and can lead to plantar fasciitis and lower back pain.

#### How Anti-Fatigue Mats help.

- Anti-fatigue mats encourage subtle leg and calf muscle movements, which increase blood and oxygen flow and keeps it from stagnating in the veins, which is what causes workers to feel fatigued.
- Anti-Fatigue mats significantly improve productivity and employee satisfaction while reducing absenteeism and chronic illnesses related to long-term standing.

## Orthomat Comfort Plus Anti-Fatigue Mats — Thicker foam construction.

- Recommended **for light-duty use** in dry indoor industrial environments; can be installed in a wide array of workplaces
- A thicker, single layer foam anti-fatigue mat for **maximum levels of comfort**
- **Insulates against cold concrete floors**
- **Checkerplate surface** provides an attractive appearance
- Brush/mop the top surface for **easy cleaning**

### FLME165

Ramped edges help avoid creating a trip risk.

FLME155

## Bubblemat Anti-Fatigue Mats — Get smart fatigue relief.

- Raised bubble patterned **surface stimulates feet and legs to aid circulation**
- Underfoot cushioning also **makes prolonged occupational standing more comfortable**
- Recommended **for medium-duty use** in dry industrial environments
- **Made of 100% heavy-duty natural rubber compound (FLME418, FLME419)**, ideal for general purpose applications at workstations
- **Made of 100% heavy duty nitrile rubber compound (FLME428, FLME429)**, resistant to most industrial oils, ideal for general purpose applications at workstations

**FLME419**  
Moulded edges on all four sides are bevelled to prevent tripping.

Plus for  
FLME428 &  
FLME429:

### Bubblemat Anti Fatigue Mats

## Workzone Nitrile Mat — Multi-purpose mat with anti-slip surface.

- Hard wearing nitrile rubber mat is recommended **for heavy-duty use**
- Suitable **for oily and greasy environments**, as well as standard wet and dry areas
- Honeycomb structure **provides a safe working surface**; traps swarf and allows liquids to disperse quickly
- **Slip-resistant surface** ensures safer footing
- At 13mm thick, the mat is durable yet **easy to handle and clean**

### FLME412

Honeycomb structure allows liquids to disperse, and bevelled sides prevent tripping.

#### Workzone Nitrile Mat

| FLML402 • 90cm W x 5m L x 12mm H | £427.50 | £406.13 |

FLML402

FLME235

### Workstation Mats — Relieves worker fatigue and increases traction.

- Recommended **for medium-duty use** in wet industrial environments, suitable for frequent oil spills
- Interwoven, loose lay PVC mat **resists many oils, greases, mild acids and alkalis** so it can be used in a variety of industrial settings
- Slip resistance **R10** according to EN 13552

#### Workstation Mats

| Item #                               | 1-2     | 3+      |
|--------------------------------------|---------|---------|
| FLME233 • 60cm W x 120cm L x 12mm H  | £113.50 | £107.83 |
| FLME234 • 100cm W x 150cm L x 12mm H | £211.00 | £200.45 |
| FLME235 • 120cm W x 180cm L x 12mm H | £289.50 | £275.03 |

FLME214

### Rampmat — Economical mat offers superior slip resistance.

- Recommended **for medium-duty use** in wet industrial environments
- Raised surface provides **superior slip resistance in wet conditions**; Large drainage holes and raised circular surface provide aeration and allow fluids and debris to fall through
- Moulded edges on all four sides are **bevelled to prevent tripping on the mat**; slip resistance R10 according to EN13552

#### Rampmat

| Item #                              | 1-2    | 3+     |
|-------------------------------------|--------|--------|
| FLME213 • 80cm W x 120cm L x 14mm H | £29.75 | £28.26 |
| FLME214 • 90cm W x 150cm L x 14mm H | £41.75 | £39.66 |

### Worksafe Mats — Hard-wearing workstation mat provides anti-slip and fatigue relief in all industrial areas.

FLME197

**FLME196**  
Moulded edges on all four sides are bevelled to prevent tripping.

- Recommended **for heavy-duty use** in wet industrial environments
- **Large drainage holes provide aeration** and allow fluids and debris to fall through, leaving a dry and tidy top surface
- Hardwearing, yet **comfortable to stand on**
- **Anti-slip underside** helps hold the mat in position
- Cleaning with detergent and water-jet is recommended for **extended service life**
- **FLME196**: Blend of SBR rubber and nitrile **reduces the risk of slipping on floors**
- **FLME197**: Made of nitrile rubber compound **designed to withstand industrial oils and harsh chemicals**

#### Worksafe Mats

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| FLME196 • Standard • 90cm W x 150cm L x 15mm H | £76.00  | £72.20  |
| FLME197 • Oil Spec • 90cm W x 150cm L x 15mm H | £109.00 | £103.55 |

## Fatigue-Step Anti-Fatigue Mat — Modular rubber mats with holes provide excellent drainage for a dry, clean work area.

- Recommended **for heavy-duty use** in wet industrial environments
- Soft, yet resilient rubber floor tiles **link together to provide an anti-fatigue surface** for particularly wet areas
- Open holes (22mm dia) allow **efficient drainage of spilt liquids**
- **Slip resistance R10** according to DIN51130
- Contains **50% post-consumer recycled rubber**
- **FLME437: Grit Top Anti-Fatigue Mat** features a gritty top layer that provides exceptional grip even in oily conditions
- Choose male and female attachable edges **FLME435 (for use with FLME417)** and **FLME445 (for use with FLME437)** for smart, safe bevelling solutions to **minimise the risk of tripping**

**FLME417**  
Liquids drain easily through 22mm diameter holes.

## ToughDeck Workplace Modular Tile — Non-slip interlocking decking is ideal for wet working environments.

- Recommended **for heavy-duty use** in wet industrial environments indoors
- Manufactured from **100% recycled rubber and plastic**
- Combination of substantial product height and large holes offers **excellent drainage**
- **Can be installed into almost any configuration** to protect nearly any size or shape floor
- Edges and Corner Edges (sold separately) add a finished bevelled edge that **helps prevent trips and falls**

### ToughDeck Workplace Modular Tile

# LIQUID & MATERIAL HANDLING

Dispense and transport liquids  
quickly and safely with  
PIG-proven solutions.

# WANT TO STORE & TRANSPORT LIQUIDS IN A CLEANER, SAFER & FASTER WAY?

Count on PIG's unparalleled range of innovative material handling solutions to do just that.

We're dedicated to making liquid handling safer and faster for you.

Our range of **patented drum funnels** offer a quick, clean way for you to handle fluids safely. Our extensive range of **manual or powered industrial drum pumps** also provide quick and easy liquid transfers from drums, tanks and storage containers – proven to handle your thickest oils and lubricants.

Our **drum accessories** include **gauges, taps, wrenches and tools** to help make your work with drums easier and safer. You can also choose from our variety of **drum trucks** to load steel, poly, or fibre drums onto pallets and racks.

We even have **UN-approved drums** to help you get the job done right.

**CHECK COMPATIBILITY WITH YOUR LIQUIDS**  
CALL 0800 919 900 WITH YOUR SPECIFICATIONS.

## Tight-Head Poly Drum and IBC Funnels — Pour liquids easily and safely into your drums, totes, tanks and buckets.

- Non-threaded funnels **stay securely in place** after installation and are easily removed
- **Molded-in nozzles** easily fit 2" bungs (DRM1406), 10-15cm IBC openings (DRM1407)
- Lightweight LLDPE **resists chemicals and corrosion**
- Clamshell design directs the flow of liquid toward the drum opening, **reducing splashing and spilled liquid**
- Smooth surface allows for **easy clean-up**
- Black colour **hides grime**

### PIG® Tight-Head Poly Drum and IBC Funnels

| Item #   | 1-2    | 3+     |
|--|--------|--------|
| <b>DRM1406</b> • Use with 76L to 210L Tight-Head Steel & Poly Drums with a 2" bung<br>30cm L x 16.5cm W x 13cm H Draining Area | £95.00 | £90.25 |
| <b>DRM1407</b> • Use with 1000L IBCs • 30cm L x 16.5cm W x 15cm H Draining Area  | £95.00 | £90.25 |

NOTE: Not for use with flammables (f.p.<141°F/60.5°C). For chemical compatibility call Technical Advice Team at 0800 919 900 or visit [www.newpig.co.uk](http://www.newpig.co.uk)

Now you can easily pour into your IBCs without struggling to reach over the top of the container.

## Essentials Poly IBC Funnel — Use this large diameter funnel for clean and easy draining and pouring.

- Large diameter funnel rests on top of your IBC to **minimise drips and spills**
- Fitted with an **85mm diameter stainless steel strainer plate** to capture solid particles larger than 6mm
- **Lift-off lid blocks out dirt and contaminants** whilst still allowing quick access
- **High 7cm sidewalls** add splash protection
- Level inside surface allows **easy draining of containers, parts or filters**
- **10cm long downspout** drains liquids directly into the 15cm diameter top opening on your IBC
- Polyethylene construction **resists corrosion and most chemicals**

### PIG® Essentials Poly IBC Funnel

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| <b>DRME400</b> • Use with 1,000L IBCs • Ext. Dia. 64cm x 15cm H | £109.00 | £103.55 |

NOTE: Not for use with flammables (f.p.<141°F/60.5°C). For chemical compatibility call Technical Advice Team at 0800 919 900 or visit [www.newpig.co.uk](http://www.newpig.co.uk)

DRM672

## Poly Drum Funnels — Cover your entire drum top for clean, easy draining and pouring.

Level surface keeps draining containers from tipping. Zig-zag ridges prevent splashes and catch parts.

- **DRM672** features 10cm-high sidewalls for added splash protection; large-diameter funnel fits 210L steel or poly tight-head drums; attached hinged lid keeps out contaminants
- **DRM452** features 6.7cm-high sidewalls for pouring of up to 23 litres; Funnel fits 210L closed-head steel and 115L closed-head or open-head steel drums
- **DRM454** includes all the features of DRM452 with a detached cover
- **DRM459** filters debris from fluid poured into a waste drum

DRM452

**DRM454**  
Funnel with  
detached  
cover.

### PIG® Universal Poly Drum Funnels

Specify Lid Colour:  Black  Red  Yellow

| Item #  | 1-2    | 3+     |
|---|--------|--------|
| <b>DRM672</b> • Funnel with hinged lid • Ext. Dia. 74cm x 28cm H    | £89.00 | £84.55 |
| <b>DRM454</b> • Funnel and detached cover • Ext. Dia. 63cm x 19cm H | £65.25 | £61.99 |
| <b>DRM452</b> • Black Only • Funnel only • Ext. Dia. 60cm x 14cm H  | £43.25 | £41.09 |

NOTE: Not for use with flammables (f.p.<141°F/60.5°C). For chemical compatibility call Technical Advice Team at 0800 919 900 or visit [www.newpig.co.uk](http://www.newpig.co.uk).

### PIG® Poly Drum Funnel Strainer

| Item #                      | 1-2    | 3+     |
|-----------------------------|--------|--------|
| <b>DRM459</b> • 7.5 cm Dia. | £12.75 | £12.11 |

DRM1680

DRM138

## PIG® Burpless Poly Drum Funnels — Drains as fast as you can pour without burps or splashbacks.

- Burpless design **vents during pouring** for fast, smooth flow with no dangerous splashback; pour without venting through 3/4" bung
- Thick-wall, **100% polyethylene construction** resists UV rays, rust, corrosion and most chemicals
- **Lockable** to prevent unauthorised access
- **Multiple lid colour options** let you segregate drums
- Attached hinged lid **won't get lost or separated** from funnel
- **DRM1680** includes overfill preventer that **acts as a shutoff valve** that tells you to stop pouring

- **DRM1680** includes PTFE tape to **provide an excellent seal** between funnel and drum

### PIG® Burpless® Poly Drum Funnels

Specify Lid Colour: Black Red Yellow

| Item #  | 1-2           | 3+            |
|---|---------------|---------------|
| <b>DRM1680</b> • Standard w/Overfill Preventer • Use with 115L and 210L Steel and Poly Drums w/ 2" BSP • 23cm Dia. x 17cm H | <b>£69.00</b> | <b>£65.55</b> |
| <b>DRM138</b> • Large • Use with 115 and 210 Ltr. Steel Drums w/ 2" BSP Bung 56cm Dia. x 29cm H                             | <b>£91.50</b> | <b>£86.93</b> |

Patent 5,676,185 / 5,402,835  
NOTE: Not for use with flammables (f.p.<141°F/60.5°C). For chemical compatibility call Technical Advice Team at 0800 919 900 or visit [www.newpig.co.uk](http://www.newpig.co.uk)

## Pop-Up Fill Gauges — Signals when drum is nearly full. Never overfill a drum again.

- Gauges fit in the 3/4" bung of steel 115L and 210L drums; **"pops-up" when drum is nearly full**; gives time to slow pouring and prevent overfilling
- Made of **corrosion-resistant polyethylene**

DRM245

DRM317

### Corrosive Liquids Pop-Up Drum Gauges

| Item #   | 1-2           | 3+            |
|--|---------------|---------------|
| <b>DRM245</b> • 13cm L • Use with 210L and 115L drums with 3/4" bung | <b>£15.75</b> | <b>£14.96</b> |
| <b>DRM317</b> • 28cm L • Use with 210L and 115L drums with 3/4" bung | <b>£17.00</b> | <b>£16.15</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

DRM245

## PIG® Burpless Funnels — Clean pouring, no splashback and a one-handed latch that seals tight.

- **Patented Burpless internal vent tubes** prevent pressure buildup, splashback and “burping” back
- **Convenient, single-handed latching lid** opens and closes quickly and easily; seals tight
- Nitrile gasket and locking mechanism **seals lid securely** to help reduce vapour emissions; available in multiple colours for colour coding
- NPT/BSP threads screw into **standard 2" bung openings**; bung does not need to be removed for venting
- **DRM1127** includes Overfill Preventer to close off drum when nearly full
- **DRM617**: Spark-snuffing insert makes it safer to funnel flammable liquids; FM approved for use in temporary drum fills

### PIG® Burpless® One-Hand Sealable Drum Funnels

Specify Lid Colour: Black Red Yellow

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| ★ <b>DRM1125</b> • 2" NPT/BSP thread • 29cm W x 38cm L x 33cm H                       | £238.00 | £226.10 |
| <b>DRM1127</b> • w/ Overfill Preventer • 2" NPT/BSP thread • 29cm W x 38cm L x 33cm H | £315.75 | £299.96 |

Patent 5,676,185

### PIG® Drum Funnel Flame Arrestor

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| <b>DRM617</b> • 15cm L • Use with DRM1125 & DRM1127 | £107.50 | £102.13 |

## Drum Adaptors and The Wedge — Get the most out of your drums.

- Adaptor converts 2" BSP threads to other thread styles; choose **DRML400** to convert to 2" Trisure, **DRML401** to convert to 2" Mauser or **DRML402** to convert to Din 61
- Economical Wedge **fits under the edge of 210L and 115L drums** stored vertically
- **DRM299** contains **100% recycled polyethylene**

### Drum Adaptors

| Item #   | 1-2   | 3+    |
|--|-------|-------|
| <b>DRML400</b> • Converts 2" BSP to 2" Trisure Buttress M56x4 • Orange | £4.95 | £4.70 |
| <b>DRML401</b> • Converts 2" BSP to 2" Mauser M70x6 • Blue             | £4.95 | £4.70 |
| <b>DRML402</b> • Converts 2" BSP to Din 61 • Yellow                    | £4.95 | £4.70 |

### The Wedge

| Item #                                       | 1-2    | 3+     |
|--|--------|--------|
| <b>DRM299</b> • 24.5cm W x 30.5cm L x 14cm H | £21.50 | £20.43 |

## Drum Wrenches — Open and close almost any drum.

- **Drum Wrench for Bungs & Bung Adaptors** (DRME108) are made of heavy-duty plastic that is strong, durable, and non-sparking. Fits all 2" drum adaptors to easily tighten or unscrew
- **Universal Drum Plug Wrench** (DRM315) is made of durable cast iron with a zinc-plated finish; provides fast, inexpensive drum access
- **Deluxe Drum Plug Wrench** (DRME1020) has an elongated handle for extra leverage and knuckle protection; non-sparking bronze alloy construction is great for use around flammables; also works on rings and taps

### Drum Wrench for Bungs & Adaptors

| Item #           | 1-2    | 3+     |
|------------------|--------|--------|
| DRME108 • 25cm L | £19.95 | £18.95 |

### Universal Drum Plug Wrench

| Item #                    | 1-2    | 3+     |
|---------------------------|--------|--------|
| DRM315 • 6.4cm W x 30cm L | £33.50 | £31.83 |

### Deluxe Drum Plug Wrench

| Item #            | 1-2    | 3+     |
|-------------------|--------|--------|
| DRME1020 • 31cm L | £33.50 | £31.83 |

## Round Bottom Drum Liners — Lets you reuse drums and save on cleaning costs.

- **Reduces the cost** associated with cleaning, reconditioning and disposing of used drums
- Polyethylene is **safe for use with food** and cosmetics
- Contoured design is **easy to insert**; won't leave pockets that trap liquid
- **Saves time cleaning** and eliminates residue that could be a source of liability
- **Liners are ideal for storing paints, inks, coatings** and other hard-to-clean materials

### Round Bottom Drum Liners

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| DRM923 • 150/box • 57cm dia x 142cm H • Use with 210L drums  | £605.00 | £574.75 |
| DRME924 • 25/pack • 57cm dia x 142cm H • Use with 210L drums | £101.00 | £95.95  |

## Safety Drum Vents —Relieve pressure build-up.

- Automatically **relieves pressure at 5 psig**
- Can **vent manually** to relieve vacuum for fast, easy dispensing
- **Flame arrestor** prevents flashback
- Fits **2" bung openings**
- **Solid cast brass construction** is strong and chemical resistant
- ◆ **Helps you comply** with H5(G) 140

### Safety Drum Vents

| Item #  | 1-2     | 3+     |
|---|---------|--------|
| DRM201 • Brass for Horizontal Drums • 6.7cm W x 3.8cm L x 10cm H          | £64.00  | £60.80 |
| ★DRM415 • Brass with Buna-N Gasket for Vertical Drums • 8.3cm L x 8.3cm H | £103.25 | £98.09 |

## PIG® Latching Drum Lid — Opens and closes with one hand. No nuts, no bolts, no fuss.

- Nitrile gasket and locking mechanism seal lid to **help reduce vapour emissions** and keep drum contents dry and secure
- Latching design **opens and closes with one hand** for easy in-and-out drum access — keep drums covered
- Easy-access **lid closes securely**; multiple lid colour options available
- Hinge stops **keep funnel lid upright when open**
- **Chemical-resistant powder coat** helps ensure long service life
- **Lockable latch** helps prevent unauthorised access
- **Hinge pin is made for easy lid removal** without loosening band around drum

### PIG® Latching Drum Lid

Specify Lid Colour: Black Red Yellow

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| DRM659 • Use with 210L Steel Open Top Drums • 59cm W x 68cm L x 11cm H | £248.25 | £235.84 |

Patent 5,676,185

Adjustable tension means the latching handle will close properly every time.

Removable hinge pin lets you remove the lid without loosening the band.

DRM9149

### Dust Cap Drum Covers — Economical cap protects open drums from contamination.

- Durable, low-density polyethylene **meets requirements for use in food production environments**
- **Block dirt and moisture** out of containers to keep contents pure
- Clear 4 mil polyethylene **protects contents but makes them easy to inspect**
- **Elastic around the bottom** helps secure cover
- Recommended **for indoor use**

#### Dust Cap Drum Covers

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| DRM9149 • 100/box • Use with 210L New & Reconditioned Open- & Tight-Head Steel & Poly Drums  | £214.25 | £203.54 |
| DRME9150 • 20/pack • Use with 210L New & Reconditioned Open- & Tight-Head Steel & Poly Drums | £43.00  | £40.85  |

DRM614

### Snap-On Drum Lids — Economical drum protection for open- or tight-head drums.

- Cover and **protect drum heads and contents from dirt and moisture** whilst keeping bungs rust-free
- Black poly drum lids allow you to **write directly on covers to indicate drum contents**
- Durable, rigid construction **can withstand palletised stacking**
- For **inside or outdoor storage**

#### Snap-On Drum Lids

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| DRM613 • For 210L tight-head drums • 5/box • Int. Dia. 58cm x 2.5cm H  | £44.00  | £41.80  |
| DRM146 • For 210L tight-head drums • 25/box • Int. Dia. 58cm x 2.5cm H | £206.25 | £195.94 |
| DRM614 • For 210L open-head drums • 5/box • Int. Dia. 61cm x 2.5cm H   | £44.00  | £41.80  |
| DRM147 • For 210L open-head drums • 25/box • Int. Dia. 61cm x 2.5cm H  | £206.25 | £195.94 |

# DRUM TAPS

## Safely dispense liquids with our wide range of Drum Taps.

- Models available for flammable and non-corrosive liquids, viscous heavy fluids and everything in-between
- Control liquid flow to dispense liquids with accuracy
- Decant liquids safely and easily, avoiding leaks or spillages

**Brass Self-Closing Drum Tap** —  
Drains non-corrosive liquids  
from 210-litre drums.

- Able to dispense **non-corrosive liquids heavier than SAE30**

**Push Button Drum Tap** — Ideal  
for most flammable and  
non-corrosive liquids.

- **Self-closing** with nitrile seal to prevent spills
- **Fits 2" BSP bung** for dispensing large volumes of liquid

**Steel/Cast Iron Drum Tap** —  
Steel construction with  
cast-iron outlet.

- **Lockable**; for use with most flammable and non-corrosive liquids

DRME107

**Plugless/Molasses Tap —**  
Dispense heavy oils, treacle  
varnish and non-flammable  
viscous heavy fluids.

- **Cast iron body** with brass faceplate for perfect seal
- **Lockable** to prevent unauthorised or accidental dispensing

**Stainless Steel Drum Tap —**  
Compatible with corrosives.

- PTFE seal offers **secure, leak-free operation** with a wide range of liquids
- **Lockable**
- **Built-in flame arrestor** prevents ignition
- **DRME103 Screw-on extension** for secure fitment to the drum tap

DRME102

DRME103

**Plastic Drum Tap — Durable,**  
chemical-resistant and easy  
to clean.

- Comes with 2" BSP male x 3/4" BSP female **plastic adaptor**
- **Polyethylene material** is durable and chemical-resistant

DRME100

DRM346

**Polyethylene Drum Tap —**  
Ideal for use with non-viscous  
adhesives, resins and more.

- **Economic alternative** to steel drum taps to help ensure chemical compatibility
- **For non-viscous, non-corrosive liquids;** for use with 0.75" NPT Bung

DRM347

**Polyethylene Drum Tap —**  
Dispense viscous resins,  
adhesives and other liquids.

- **Can be discarded** after dispensing liquids that may harden or gel tap
- **For viscous, non-corrosive liquids;** for use with 2" NPT Bung

DRME101

**Alloy Drum Tap — Ideal for**  
most flammable and  
non-corrosive liquids.

- **Self-closing** with nylon seal to prevent spills
- **Lockable** to prevent unauthorised or accidental dispensing

DRME110

**Nickel Plated Brass Drum Tap —**  
Ideal for most flammable and  
non-corrosive liquids.

- **Lockable** to prevent unauthorised or accidental dispensing
- **3/4" barbed hose-tail**

DRM244

**Non-Adjustable Brass Safety**  
Drum Tap — Prevents ignition  
when dispensing flammables.

- **Built-in flame arrestor** keeps drum contents from igniting; FM approved
- **Self-closing** with a PTFE seal

DRM244-01

**Adjustable Brass Safety Drum**  
Tap — Dispense flammables  
without ignition.

- **FM approved** for dispensing flammable liquids; has **built-in flame arrestor**
- Dispenses **non-corrosive, non-viscous liquids**

#### Drum Taps

| Item #    | Product Name                                      | Liquids   | Bung Fitting                           | Additional Feature                                   | 1-2     | 3+      |
|-----------|---|---|--|--|---------|---------|
| DRME105   | 2" Brass Self-Closing Drum Tap                    | For Non-corrosive Liquids Heavier than 30 wt. Oil | For 2" NPT/BSP Bung                    | Self closing   | £129.00 | £122.55 |
| DRME109   | 2" Aluminium Push Button Drum Tap                 | For Flammable & Non-corrosive Liquids             | For 2" NPT/BSP Bung                    | Self closing with Nitrile seal                       | £13.75  | £13.06  |
| DRME104   | 2" Steel/Cast Iron Drum Tap                       | For Flammable & Non-corrosive Liquids             | For 2" NPT/BSP Bung                    | Lockable   | £89.95  | £85.45  |
| DRME107   | 2" Cast Iron & Brass Plugless/Molasses Tap        | For Viscous, Non-corrosive Liquids                | For 2" NPT/BSP Bung                    | Lockable   | £58.00  | £55.10  |
| DRM346    | 3/4" Polyethylene Drum Tap                        | For Non-viscous, Non-corrosive Liquids            | For .75" NPT/BSP Bung                  | Twists open / closed                                 | £5.00   | £4.75   |
| DRM347    | 2" Polyethylene Drum Tap                          | For Viscous, Non-corrosive Liquids                | For 2" NPT/BSP Bung                    | Twists open / closed                                 | £15.25  | £14.49  |
| DRME102   | 3/4" Stainless Steel Drum Tap                     | For Flammable & Corrosive Liquids                 | For .75" NPT/BSP Bung                  | Self closing with PTFE seal                          | £99.50  | £94.53  |
| DRME103   | Flexi Extension for 3/4" Stainless Steel Drum Tap | For Flammable & Corrosive Liquids                 | Use with 3/4" Stainless Steel Drum Tap | Flexible, bend & shape                               | £16.75  | £15.91  |
| DRME101   | 3/4" Alloy Drum Tap                               | For Flammable & Non-corrosive Liquids             | For .75" NPT/BSP Bung                  | Self closing with nylon seal                         | £8.25   | £7.84   |
| DRME110   | 3/4" Nickel Plated Brass Drum Tap                 | For Flammable & Non-corrosive Liquids             | For .75" NPT/BSP Bung                  | Lockable, with barbed hose-tail                      | £35.00  | £33.25  |
| DRME100   | 3/4" Plastic Drum Tap with 2" Adaptor             | For Non-viscous, Non-corrosive Liquids            | For 2" or .75" NPT/BSP Bung            | Use in either 2" or 3/4" bungs                       | £2.35   | £2.23   |
| DRM244    | 3/4" Brass Safety Drum Tap                        | For Non-viscous, Non-corrosive Liquids            | For .75" NPT/BSP Bung                  | Self closing with builtin flame arrestor             | £43.50  | £41.33  |
| DRM244-01 | 3/4" Brass Safety Drum Tap                        | For Non-viscous, Non-corrosive Liquids            | For .75" NPT/BSP Bung                  | Adjustable, Self closing with builtin flame arrestor | £63.75  | £60.56  |

# DRUM PUMPS LEVER ACTION

PMPE126

## An excellent option for fast, controlled dispensing.

- No power source required — ideal for applications where you don't have access to electricity or compressed air
- Adjustable suction tube accommodates a range of drum sizes (does not apply to PMPE146 and PMPE129)
- Lightweight designs can be broken down for compact storage or disassembled for easy cleaning
- Typically suitable for low viscosity fluids

### Polypropylene Lever Hand Pump — High quality lever action pump is ideal for a wide range of liquids.

- Telescopic suction tube fits 50- to 210-litre drums
- Suitable for diesel, biodiesel B100, petrol, kerosene, light oils, paraffin, antifreeze, water, water-based chemicals, acid and alkaline solutions

PMPE125

### Ryton Lever Hand Pump — Chemically resistant lever action pump is ideal for strong chemicals.

- Telescopic suction tube fits 50- to 210-litre drums
- Suitable for strong acids, including nitric and strong alkaline solutions

PMPE126

### Metal Lever Hand Pump — Lever action pump is ideal for light industrial use.

- Telescopic suction tube fits 50- to 210-litre drums
- Ideal for light industrial use
- Suitable for diesel, biodiesel up to B30, light oils, transmission and hydraulic fluid, but not water, solvents or corrosives

PMPE114

### Heavy-Duty Aluminium Lever Hand Pump — Works for all grades of oil, including heavy gear oils.

- Suitable for all petroleum products, kerosene, oil and lubricants, including heavy gear oils
- Features an inbuilt tray with cover and drip return to hold small containers whilst dispensing

PMPE146

### AdBlue Lever Hand Pump — Ideal for dispensing AdBlue and a wide range of liquids.

- Suitable for AdBlue, light oils, kerosene, diesel, mild chemicals and ketones
- Capable of delivering up to 500mL per stroke

PMPE129

#### Lever Action Drum Pumps

| Item #  | Use with  | Fits                                   | Outlet  | Max. Flow    | Max. Liquid Viscosity              | Composition / Wetted Parts                         | 1-2    | 3+     |
|---------|---|--|---------|--------------|------------------------------------|--|--------|--------|
| PMPE125 | Oil Based Liquids & General-Purpose Chemicals         | 50 to 210 ltr. Drum w/ 2" NPT/BSP Bung | 23mm OD | 500mL/Stroke | 240 cSt, or SAE 20W Oil (@ 40°C)   | Polypropylene, 304 Stainless Steel, Viton          | £43.00 | £40.85 |
| PMPE126 | Acids, Alkali Solutions, and Nitric Acid              | 50 to 210 ltr. Drum w/ 2" NPT/BSP Bung | 23mm OD | 500mL/Stroke | 240 cSt, or SAE 20W Oil (@ 40°C)   | Ryton, Stainless Steel, Viton                      | £63.00 | £59.85 |
| PMPE114 | Oil Based & Flammable or Combustible Liquids          | 50 to 210 ltr. Drum w/ 2" NPT/BSP Bung | 20mm OD | 300mL/Stroke | 240 cSt, or SAE 20W Oil (@ 40°C)   | Steel, Aluminium, Nylon                            | £38.50 | £36.58 |
| PMPE146 | Oil Based & Flammable or Combustible Liquids          | 210 ltr. Drum w/ 2" NPT/BSP Bung       | 20mm OD | 600mL/Stroke | 1000 cSt, or SAE 50+W Oil (@ 40°C) | Aluminium, Plated Steel, NBR, Acetal, Polyethylene | £77.50 | £73.63 |
| PMPE129 | AdBlue, Diesel, Light Oils, and Mild Acids & Caustics | 210 ltr. Drum w/ 2" NPT/BSP Bung       | 23mm OD | 500mL/Stroke | 240 cSt, or SAE 20W Oil (@ 40°C)   | Polypropylene, 316 Stainless Steel, Viton          | £28.00 | £26.60 |

# DRUM PUMPS ROTARY ACTION

PMPE142

**For fast, easy dispensing of large volumes of liquid.**

- Rugged and hard wearing for frequent use
- No power source required — ideal for applications where you don't have access to electricity or compressed air
- Lightweight designs can be broken down for compact storage or disassembled for easy cleaning

### Hi-Flow Petrol & Diesel Rotary Hand Pump — Perfect for use for refuelling in garage or fleet areas.

- Delivery hose and nozzle are **perfect for use for refuelling in garage or fleet areas**
- Built-in #80 mesh strainer at inlet **removes fibre or particle contamination**

### Cast Iron Rotary Pump — Stands up to everyday use.

- Heavy-duty cast iron construction enables Pump to **withstand heavy, frequent use**
- Excellent for use with **light oils, diesel and other non-corrosive fluids**

### Corrosion-Resistant Rotary Pump — For light oils, solvents and water-based chemicals.

- **Low cost corrosion-resistant** Rotary Pump is ideal for light oils, solvents and water-based chemicals

### Polypropylene and Ryton Rotary Pumps — Highest quality construction provides excellent chemical resistance.

- **PMPE137** Suitable **for water based solutions** of acids, alkalis and salts, some organic solvents, water and all petroleum products
- **PMPE138** Suitable **for aggressive chemicals** such as chlorinated solvents, aromatic and aliphatic hydrocarbons

### Stainless Steel Rotary Pumps — Made for specialised applications.

- **PMPE139** A high quality, technical rotary drum pump **for specialised applications using Aggressive Chemicals and Solvents**. Suitable for corrosive chemicals, solvents, oils, and liquid foodstuffs such as juice, milk, wine, cooking oils, water, vinegar, liquid additives and more
- **PMPE140** Stainless steel and Teflon components **for the highest level of chemical resistance**. Suitable for chemicals and solvents including acids, acetones, alcohols, mineral oils, sodium solutions and more

### Rotary Drum Pumps for 210 ltr. Drum with 2" NPT/BSP Bung

# DRUM PUMPS LIFT / SYPHON

PMPE141

T-handle design is easy to operate and ideal for applications where you don't have access to electricity or compressed air.

## Stainless Steel and PTFE Pumps — Resist chemicals.

- Stainless steel and Teflon components for the **highest level of chemical resistance**
- **Compatible with highly aggressive chemicals and solvents** with concentrations up to 100%, acids, alkalis, de-greasers and AdBlue

PMPE141

## Dual Purpose PVC and Nylon Syphon/Lift Pumps — High output for a range of fluids.

- Dual purpose pump for can be used as conventional lift pump for drums or to **syphon fluids from boats, sumps, tanks, vats and more**
- Suitable for **light oils, water, diesel, non-corrosive chemicals and detergents**
- **PMPE135** composed of **PVC, polypropylene and polyethylene**
- **PMPE136** composed of **nylon, polypropylene and polyethylene**

PMPE135

## Lift Drum Pumps

| Item #         | Use with  | Fits                                   | Outlet               | Max. Flow                                  | Max. Liquid Viscosity            | Composition / Wetted Parts         | 1-2            | 3+             |

# SMALL CONTAINER PUMPS

PMPL117

Capable of moving liquids from small 25-litre containers or emptying liquids from containment pallet sumps without removing the grates.

**Nylon Lift Pump for 25-Litre Drums — A versatile lift pump for 20- and 25-litre drums.**

- Fitted with a universal, internal-clamp adaptor to **fit into all 2" drum openings**
- Suitable for **light to medium oils, diesel, kerosene, solvents and some chemicals**

PMPE145

**Stainless Steel and PTFE Pump — Resists chemicals.**

- Stainless steel and Teflon components for the **highest level of chemical resistance**
- Includes an **extension hose for easy dispensing**

PMPL117

**Battery Operated Syphon Pump — Low-cost, compact solution for liquid transfer.**

- Battery operated Pump for a **low-cost, compact solution for liquid transfer** from small containers
- Can be used with a variety of **non-corrosive liquids like water, light oils, diesel, kerosene and detergents**

PMPE101

## Pumps for Smaller Containers

| Item #         | Use with                            | Fits                               | Outlet     | Max. Flow      | Max. Liquid Viscosity              | Composition / Wetted Parts          | 1-2           | 3+            |

| <b>PMPE145</b> | For Light to Medium Oils            | Drums/Containers up to 25 ltr.     | 16mm OD    | 100mL/Stroke   | 240 cSt, or SAE 20W Oil (@ 40°C)   | Nylon, Viton, Stainless Steel       | <b>£29.50</b> | <b>£28.03</b> |
| <b>PMPL117</b> | For Aggressive Chemicals & Solvents | 25 ltr. Drum w/ 2" NPT/BSP Bung    | 500mm Hose | 200mL/Stroke   | 1000 cSt, or SAE 50+W Oil (@ 40°C) | 316 Stainless Steel, PTFE           | <b>£85.00</b> | <b>£80.75</b> |
| <b>PMPE101</b> | For Water and Non-Corrosive Liquids | Drums/Containers up to 400mm depth | 580mm Hose | 10 ltr./Minute | 50 cSt, or SAE 10W Oil (@ 40°C)    | Polyethylene, Polypropylene & Steel | <b>£17.00</b> | <b>£16.15</b> |

## Seal-less Drum Pump — An ideal combination of value and performance.

- **Pump motor is double insulated and splashproof (IP24)** making it suitable for use indoors or outdoors; will also handle liquids up to 66°C
- Powerful 1/3rd horsepower (230-250W) continuous duty motor **transfers up to 64 ltrs/min** utilising a two speed switch for control of the fluid flow
- Supplied with a **102cm long intake tube** to accommodate two 10-litre drums
- **Integrated hose and cord clip** on pump tube keeps hose and plug off the floor

### EF Series Drum Pump System

Specify: 110 volt or 240 volt

| Item #  | 1-2            | 3+             |
|---|----------------|----------------|
| <b>PMPE118</b> • Motor Power: 230-250W • 6.1m Max Head • 200cm L x 1.9cm ID PVC output hose | <b>£735.00</b> | <b>£698.25</b> |

## Electric Pump — Designed for container-to-container transfer of liquids.

- Pumps up to **151 litres per minute**
- **Pump motor is double insulated and splashproof (IP24)** making it suitable for use indoors or outdoors
- Quick connection of motor to pump tube with unique collet design — **no tools required**
- **Infinitely variable electronic speed control** for 3,500–10,000 rpm speed
- Double wall thermoplastic motor housing **reduces noise and vibration**

### PF Series Drum Pump System

Specify: 110 volt or 240 volt

| Item #   | 1-2             | 3+              |
|--|-----------------|-----------------|
| <b>PMPL102</b> • Motor Power: 650W • 24m Max Head • 200cm L x 1.9cm ID PVC output hose | <b>£1289.00</b> | <b>£1224.55</b> |

## IBC Gravity Feed Kit — Ideal for filling smaller drums and containers.

- 3-metre long dispensing hose fitted with **trigger nozzle to control liquid flow**
- Trigger can be latched open providing a **flowrate of up to 30 litres per minute**
- **Uses gravity** to dispense into containers positioned lower than the IBC
- Swivel hose fitting **threads onto the 2" outlet valve** on your IBC

### IBC Gravity Feed Kit

| Item #  | 1-2           | 3+            |
|---|---------------|---------------|
| <b>PMPE127</b> • For 1,000L IBC w/2" outlet valve | <b>£49.00</b> | <b>£46.55</b> |

## Manual Syphon Pumps — Help save time and reduce liquid waste.

- **Chemical-resistant** and durable construction maximises life of pump
- **PMPL100** has a 380mm L suction tube for drums up to 25L
- **PMPE104** has a 590mm L suction tube for drums up to 60L
- **PMPL105** has an 850mm L suction tube for drums up to 210L
- Efficient pump delivers **mild solvents, light oils, corrosives, disinfectants, diluted acids/caustics and liquid waxes**

### Manual Syphon Pumps

| Item #   | 1-2           | 3+            |
|--|---------------|---------------|
| <b>PMPL100</b> • 380mm L suction tube • For drums up to 25L    | <b>£5.75</b>  | <b>£5.46</b>  |
| <b>PMPE104</b> • 590mm L suction tube • For drums up to 60L    | <b>£13.50</b> | <b>£12.83</b> |
| ★ <b>PMPL105</b> • 850mm L suction tube • For drums up to 210L | <b>£18.50</b> | <b>£17.58</b> |

CAN166

CAN167

### Drain Can — Makes solvent collection easier and neater.

- Wide-mouth funnel top **minimises drainage drips and splashes**
- **Built-in flame arrestor** prevents ignition
- **100% leak-tested** and fully FM compliant construction
- Durable galvanised steel construction with powder-coated finish **helps prevent corrosion**
- **CAN167 protects contents** when can is not in use
- ◆ **Helps you comply** with HS(G) 140

Dolly features a rugged polyethylene with UV inhibitors for indoor or outdoor use.

DRM664

## PIG® Mobile Dispensing Dollies — Do-it-all dollies transport, dispense and contain.

- **Transports** 210-litre drums; **tilts** to create a dispensing station; **acts as secondary containment**
- Dispensing well contains minor leaks and drips from a drum tap — **cleans easily before liquid enters main sump**
- One-piece polyethylene construction with UV inhibitors — **corrosion-proof, durable, won't degrade in sunlight**
- **DRM662** features poly wheels for smooth transport; **DRM664** features hard rubber wheels for rough terrain
- ◆ **Helps you comply** with the Control of Pollution (Oil Storage) (England) 2001, The Water Environment (Oil Storage) (Scotland) Regulations 2006, and The Control of Pollution (Oil Storage) Regulations (Northern Ireland) 2010

Dispense liquids without removing the drum.

Dolly makes it easy to wheel your drum or overpack to any location.

## PIG® Drum Dolly — Expands for a precise fit on drums/overpacks up to 67cm diameter.

- **Heavy-duty 5mm steel frame** adjusts in minutes with bolts and lock nuts
- Curved ends **hold drum tight**
- Wide, stable wheelbase helps **prevent tipovers**
- Hard rubber casters for **smooth rolling**
- **All four casters have brakes** to offer secure positioning and keep dolly from moving
- Built strong to **hold up to 363kg**

## 1,000-Litre IBC with Plastic Pallet — Store liquids in bulk in this durable IBC unit in a steel cage.

- 1,000-litre Intermediate Bulk Container **replaces five 200-litre drums, saving space and reducing costs** associated with filling, dispensing, handling and disposal
- **UN-certified** IBC meets storing and shipping requirements
- **Steel cage surrounds and protects** inner polyethylene tank
- Attached **support pallet adds strength** and manoeuvrability
- **Forklift entry** for quick and easy transportation, even when full
- High Density Polyethylene (HDPE) tank is **chemical-resistant and lightweight**
- **2" outlet valve** is fitted at IBC's base for easy dispensing

# ACID SPILLS? THINK PINK!

Only PIG HazMat Chemical Absorbents are designed to absorb high concentration chemicals — even 98% sulfuric acid.

SHOP FROM OUR HAZMAT  
RANGE ON PAGES 72–79.

# Aerosol Can Recycler — Avoid the hassle and expense of haz waste handling.

- Recycling system easily punctures aerosol cans, rendering them **exempt from hazardous waste regulations** when properly emptied
- **Eliminates the risks** associated with illegal aerosol disposal and the expense of hazardous waste handling
- **Minimises worker injuries** caused by fire, explosion or VOC release from improperly emptied cans
- System works with **domed mini, standard and jumbo aerosol cans**
- Improved one-piece filter system **captures odours and potentially harmful VOC's** released by punctured aerosol cans
- **Timestrip indicator** eliminates the guesswork of carbon cartridge changeouts
- **Unit mounts directly into 2" bung** on a 115- or 210-litre closed-head drum; residual liquids drain directly into drum (not included). Drum should not be filled more than 70% full to provide proper displacement for released contents
- **Included ground wire** helps prevent static electricity build-up
- **Replacement filter** sold separately (DRM1265); coalescing filter life is six months

## PIG® Aerosol Can Recycler

| <b>DRM1265</b> • PIG® Combination Coalescing/Carbon Filter   | <b>£158.75</b> | <b>£150.81</b> |

## REDUCE YOUR HAZ WASTE **18x**

### 1 DRUM

#### USING A PIG AEROSOL CAN RECYCLER

One 210-litre drum can hold the residual liquid from 4,200 emptied cans. The cans can then be recycled or sold for scrap metal.

**DRUMS OF HAZ WASTE = 1**  
**RECYCLABLE CANS = 4,200**

VS

### 18 DRUMS

Without puncturing cans, you'd fill eighteen 210-litre drums with waste, and they would all have to be disposed of as hazardous if not completely emptied.

**DRUMS OF HAZ WASTE = 18**  
**RECYCLABLE CANS = 0**

NOTE: Be sure to check applicable regulations.

When you consider drum prices, haz waste disposal costs, transportation costs, labour costs, storage space and environmental impact, can you really afford **NOT** to empty your aerosol cans? **PIG AEROSOL CAN RECYCLER IS A NO-BRAINER!**

## Oil Safe Containers — Store and dispense your lubricants, and choose from six lid colours to help prevent contamination.

These compact, ergonomically designed **containers are available in 3 sizes** — all have a wide-mouth opening, so you can fill them quickly without spilling.

- Made of industrial grade HDPE, Oil Safe Containers are **heat and contamination resistant** and treated with UV stabilisers and anti-static additives
- Choose from several lid styles. **“Quick-twist” spouts completely seal container** and open for dispensing
- See-through containers are **marked with both litre and quart measurements** and include labels to identify contents
- Containers have standard neck sizes, so **all lids fit all containers**. Vent button on spout lids restricts flow until depressed
- Add Pumps **GLE0008** or **GLE0018** to your oilsafe system to dispense lubricants in hard-to-reach spots

Lids and premium pump available in 6 colours:

### Oil Safe® Lids & Attachments

Specify lid colour for GLE0017, GLE0014, GLE0011, GLE0015, GLE0016: Black, Blue, Green, Orange, Red or Yellow

| Item #                                 | 1-2    | 3+     |
|--|--------|--------|
| GLE0017 • Utility Lid                  | £32.00 | £30.40 |
| GLE0014 • Storage Lid                  | £28.00 | £26.60 |
| GLE0011 • Mini Spout Lid               | £61.00 | £57.95 |
| GLE0015 • Stretch Spout Lid            | £57.00 | £54.15 |
| GLE0016 • Stumpy Spout Lid             | £77.00 | £73.15 |
| GLE0013 • Stumpy Spout Hose Extension  | £31.50 | £29.93 |
| GLE0006 • Stretch Spout Hose Extension | £23.50 | £22.33 |

### Oil Safe® Containers

| Item #                 | 1-2    | 3+     |
|------------------------|--------|--------|
| GLE0002 • 3L capacity  | £29.50 | £28.03 |
| GLE0003 • 5L capacity  | £33.50 | £31.83 |
| GLE0004 • 10L capacity | £52.00 | £49.40 |

### Oil Safe® Pump

| Item #   | 1-2    | 3+     |
|--|--------|--------|
| GLE0008 • Fits GLE0002, GLE0003 and GLE0004 only | £99.95 | £94.95 |

### Oil Safe® Premium Pump

Specify lid colour: Black, Blue, Green, Orange, Red or Yellow

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| GLE0018 • Fits GLE0002, GLE0003 and GLE0004 only | £153.00 | £145.35 |

NOTE: GLE0008 and GLE0018 requires GLE0017 to attach to drum.  
Oil Safe® is a registered trademark of Oil Safe Systems, Pty Ltd.

Stretch spout extension (GLE0006) reaches tough places; replaces tip of stretch spout lid.

Storage lid (GLE0014) with moulded handle fits all containers; prevents contamination.

Utility lid (GLE0017) with screw cap allows you to pour without removing lid; also accepts pump.

Stretch spout lid (GLE0015) has a twist-open valve to regulate flow of low-viscosity liquids.

Stumpy spout lid (GLE0016) is great for high-volume delivery of lubricants.

Pump (GLE0008) dispenses liquids in difficult places; requires utility lid (GLE0017).

## **PIG** Essentials UniKart — Mobile bin suitable for indoor and outdoor storage.

- Made from polyethylene, it's **strong, durable**, has good impact resistance and is easy to clean
- Large capacity is **ideal for storing grit**, sand or absorbents
- **Compact and space-saving design** easily fits through standard doorways
- Robust rubber wheels and slanted lid are **ideal for outdoor use and storage**

# SPILL CONTAINMENT

With spills, secondary containment comes first.

# PREVENT SPILLS AND KEEP LIQUIDS IN THEIR PLACE

Comply with regulations and avoid fines with PIG-proven solutions to control, confine and contain.

Most workplaces handle hazardous liquids in some capacity. If you're one of them, you know proper transport, organisation, storage, and training are essential — all easier said than done in a busy workplace, right? That's where no-nonsense **PIG Containment Pallets, Decks** and more can help.

## Keep liquids secure — no matter the conditions.

**PIG Spill Containment** products are tested and workplace-proven to handle real-world abuse and harsh weather, year after year. Perfect for helping you store and secure liquids in drums, IBCs and tanks safely — no matter the conditions.

Our range includes **PIG Heavy-Duty Spill Pallets** - featuring the toughest grates and the lowest profile of any pallet on the market, while our **Drum and IBC Storage Units** are built to handle up-to 96 drums of your liquid.

We also offer **Collapsible Containment**, featuring patented designs and offering portable, quick-deploy solutions with capacities from 29 to over 2800 litres.

## New Pig has you covered.

Precautions are a necessity when storing drums outdoors. Without containment, your leaks and spills are direct contaminants to the environment. Even regular pallets don't cut it — they just fill up with rainwater and spill out.

**PIG Roll Top Hardcovers** are a customer favourite for oil containment indoors or out. They stand up to even the toughest conditions, keeping liquids in and the elements out.

You can find out more about how our range of **Spill Containment** helps you **comply with regulations** and which products are manufactured using **recycled content** — just look out for the icons on pages 233, 235-242.

# CONTAIN LIQUIDS ANYWHERE.

Collapsible sidewalls have attached skirt with aluminium-reinforced supports.

PAK792

## Collapse-A-Tainer Spill Containment Berms — Affordable drive-in containment sets up quickly anywhere you need it.

- Re-engineered to provide exceptional value whilst maintaining the **quality and performance** you expect from PIG Collapse-A-Tainers
- Durable, coated geomembrane **resists chemicals, abrasion and tearing**
- **Folds to a compact size** for easy handling and storage
- Ideal for use under storage tanks, tote tanks, pillow tanks, pallets loaded with drums and more; **can be stowed in a vehicle for containment in remote locations**
- **One-piece design** requires no additional parts or tools
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

Quick setup — just pull out one support and the entire wall takes shape.

NOTE: Not suitable for temperatures over 65°C/150°F.

**NEED A CUSTOM SIZE?**  
**CALL 0800 919 900 FOR DETAILS.**

Sides easily fold down to allow pallet jacks and forklifts to be driven into and out of containment.

Folds to a size that's easy to handle, carry and store.

## PIG® Accessories for Collapse-A-Tainer Containment Berms — Extras can help extend product life.

These helpful accessories can enhance the life and durability of your Collapse-A-Tainer containment system. Maximise the service life of your system by giving it the care it deserves.

**1 Track Belting** on the floor of a Collapse-a-Tainer System offers heavy protection against lorry tyres. **Sold in 30cm length increments.**

**2 Ground Mat** is a thick protective underlayer; made of PVC-coated polyester for unpaved surfaces. **Sold in 30cm length increments.**

**3 Ground Tarp** provides extra puncture resistance on paved surfaces.

#### PIG® Accessories for Collapse-a-tainer® Containment Berms

Cost per 30cm length increment • Please specify total length when ordering

Pallet jacks roll right in for easy loading and unloading.

## PIG® Collapse-A-Tainer IBC Containment Berm — IBC spill containment has never been easier.

- **Helps meet secondary containment regs** with a small footprint
- **Easy to set up and tear down**; lightweight and portable for on-the-go containment of IBCs at job sites
- **Sidewalls collapse completely flat** for fast and easy forklift access to your IBC
- **No assembly required**; collapsible sidewalls have attached skirt with outside aluminium-reinforced supports that help the walls stay rigid and upright
- One-piece design requires **no additional parts or tools**
- Constructed of a durable, coated geomembrane that **resists chemicals, abrasion and tearing**
- **Folds up flat** for easy storage and transport
- **Can be held in place** with sandbags or with stakes through attached grommets
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

PAK721

### PAK929 Storage Bag

Easy to store in a lorry or emergency response vehicle. Position the Pool under the leak to catch and contain liquids.

PAK926

## PIG® Portable Containment Pools — Don't leave home without our “stow & go” spill pool in your vehicle.

- Spill catcher for **blown hydraulic lines, punctured tanks, leaking containers** and decontamination operations
- **Heavy-duty, 18 oz., vinyl-coated polyester** provides high resistance to tears and punctures
- Rim has a **foam ring** that rises with level of liquid contained
- Pliable material **folds easily for storage** on a truck or emergency response vehicle
- Excellent way to **equip your fleet for punctured fuel tanks or drums** whilst on the road
- **Deploys instantly** for use in an emergency; decontaminate and **re-use**

| PAK128 • Sump capacity 758L • 3.2m W x 5.6m L x 5cm H   | £644.25 | £612.04 |

Note: Not intended for larger vehicle traffic such as cars, vans or trucks

# YOU CAN'T BUY A STRONGER PALLET OR DECK.

Containment products are your last line of defence against nasty liquids — so failure is not an option. That's why PIG makes the best pallets and decks you can buy.

## Extreme measures for extreme strength

We built the hulking machine shown on this page to push the limits of our decks and pallets. It can easily simulate your real-world applications, but that's just the beginning. We crank up the pressure — and keep it there for months — to ensure performance when it counts. So whatever you do to your PIG Pallets, we've torture-tested ours even more.

Don't waste your money on products that can't take the pressure. PIG Decks and Pallets are designed, tested and guaranteed not to fail.

## Thickest grates on the market

Anti-slip structural grates on our heavy-duty pallets add incredible strength, provide enhanced foot traction.

## Lowest Loading Height

A low pallet height means less effort to load and unload drums safely on and off the drum pallet.

## Proven chemical compatibility

Steel and poly pallets are compatible with every type of liquid you need to store, whether it's flammable or hazardous.

## Fireproof painted steel

Our rugged steel pallets provide safe, ultra-duty storage for flammable liquids. They're tough, groundable for extra safety and painted for rust-resistant durability.

Designed  
& Tested  
**PIG**  
**TOUGH**

## PASS! PIG grates can take the pressure.

Our compression tester simulates long-term, full-capacity drum storage. PIG Decks and Pallets pass the test with flying colours.

## FAIL! Other brands bend and bow.

Anything less than level is an accident waiting to happen. Why risk it? Play it safe with stronger grates from PIG.

# NEED CONTAINMENT?

## LET US HELP YOU CHOOSE THE RIGHT TYPE.

## PALLET OR DECK?

**PAK210**  
PIG Poly Spill Containment Pallet  
**See page 233**

**PAK531**  
PIG Poly Modular Spill Deck  
**See page 239**

### Pallets are best when:

- **You need full containment** for your drum storage area to meet regulations; Spill Pallets have larger sumps to accommodate the number of drums they're intended to be used with
- **You need to move your containment** with a forklift; most models can only be moved without drums, but our Heavy-Duty Pallets can be moved fully loaded (see page 235)
- **You don't have enough floor space** to build a modular drum storage system; pallets are taller, making them a better choice when you can't build outward

### Decks are ideal when:

- **You need to store drums of non-hazardous liquids** in order to catch leaks and drips, but compliance is not required
- **You need to store smaller containers** of hazardous liquids in full containment to meet regulations; as long as the math works out, decks can help you meet regs, but not as efficiently as pallets (call us on 0800 919 900 for help if you're not sure).
- **You need easier access** to your drum tops or containers; decks are lower profile than pallets, keeping stored items closer at hand
- **You need to connect multiple units** with shared sumps

## ◆ HELPS YOU COMPLY

### Anyone storing > 200l of oil must comply:

- ◆ **The Control of Pollution (Oil Storage) (England) 2001.**
- ◆ **The Water Environment (Oil Storage) (Scotland) Regulations 2006**
- ◆ **The Control of Pollution (Oil Storage) Regulations (Northern Ireland) 2010**
- ◆ **The Water Resources (Control of Pollution) (Oil Storage) (Wales) Regulations 2016**

You must follow the regulations for businesses if your oil container can hold more than 200 litres of oil and oil based liquids. They state that bunds or drip trays are required to prevent pollution, and bunds must have a 110% capacity of the largest container, or 25% of the total volume being stored, whichever is the greatest.

### You might also need to consider:

- ◆ **The Control of Substances Hazardous to Health Regulations (COSHH) 2002** are designed to protect people from hazardous substances used at work.

When compliance is a must, put your trust in PIG. Look for the blue diamond.

### ◆ HSG 51 The Storage of Flammable Liquids in Containers

Provides guidance on the safe storage of flammable liquids establishes steps which can be taken to control the risks of fire and explosion.

- ◆ **The Dangerous Substances and Explosive Atmospheres Regulations 2002 (DSEAR)** places duties on employers to protect people from safety risks due to fires, explosions and similar events in the workplace. This includes any substances that could, if not properly controlled, harm people as a result of a fire or explosion. They include such things as solvents, paints, varnishes, flammable gases and LPG.

### ISO14001 Compliance

ISO14001 is an international standard which specifies the requirements for an environmental management system (EMS) that an organisation can use to enhance its environmental performance.

Just look for the ISO14001 icon throughout this section to find PIG products that help.

PAKE232

4-way forklift entry for easy movement when not loaded.

## **PIG** Essentials Poly Spill Containment Pallets — Affordable containment for everyday drum storage.

- 1-, 2- and 4-drum spill containment pallets
- Moulded-in sump catches leaks, drips and spills to help you comply with regulations and **keep your storage areas clean and safe**
- Polyethylene construction **resists UV rays, rust, corrosion and most chemicals**
- Lift out grate for **easy sump access and inspection**
- 2-way forklift entry for **PAKE231** and 4-way forklift entry for **PAKE232** allow easy movement from either direction (unloaded only)
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

PAKE233

Low profile

Lift out grate for easy inspection.

# STAND FIRM ON PIG

PAK672

Anti-slip structural  
grates on the deck  
surface won't bow,  
buckle or break.

Only  
22cm high.

Four-way forklift entry  
for easy movement —  
even when fully loaded.

## Heavy-Duty Spill Pallets — The strongest pallet on the market won't bow or buckle. Guaranteed.

- Heavy structural grates are the **toughest on the market** — won't bow, buckle or break under the load
- **Ideal for storing liquids with high specific gravities** in steel or poly 210-litre drums
- Pallet **can be moved with fully loaded drums in place** (except PAK213 3-Drum Pallet)
- Anti-slip grate adds traction to **reduce slips and falls** whilst low profile provides easy access to pumps and funnels
- **Multiple access for forklifts:** PAK987, PAK604 and PAK213 have 2-way forklift entry and PAK672 has 4-way forklift entry
- **PAK987 contains 30% post-industrial recycled polyethylene**
- **PAK604 contains 38% post-industrial recycled polyethylene**
- **PAK213 contains 43% post-industrial recycled polyethylene**
- **PAK672 contains 48% post-industrial recycled polyethylene**
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

Anti-slip structural  
grates on the deck  
surface won't bow,  
buckle or break.

## PIG® Essentials 2- and 4-Drum Poly Workfloor — Capture nuisance drips and small spills before they ever hit your floor.

- Low-profile 15cm-high design is **easy to load or unload**; pumps and funnels are easy to access
- Moulded-in sump catches leaks, drips and spills to help **keep your storage areas clean and safe**
- Polyethylene construction **resists UV rays, rust, corrosion and most chemicals**
- **Ramp** features user friendly gradient for easy loading; slip resistant texture on surface provides traction for added safety

### PIG® Essentials 2- and 4- Drum Poly Workfloor

| Item #  | 1-2            | 3+             |
|---|----------------|----------------|
| <b>PAKE240</b> • 2-Drum • 1000kg load capacity • 120L sump capacity<br>160cm W x 80cm D x 15cm H  | <b>£186.00</b> | <b>£176.70</b> |
| <b>PAKE241</b> • 4-Drum • 2000kg load capacity • 240L sump capacity<br>160cm W x 160cm D x 15cm H | <b>£261.50</b> | <b>£248.43</b> |
| <b>PAKE242</b> • Ramp • 129cm L x 81cm W x 18cm H   | <b>£122.25</b> | <b>£116.14</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Poly Deck with Pallet Truck Pockets — Just slide in your pallet truck to easily transfer drums.

- **Fork pockets are spaced to fit most pallet trucks**; deck can be moved fully loaded with properly secured drums (straps not included)
- **908kg UDL capacity** is strong enough to support two fully loaded steel or poly drums; PIG decks will never buckle or bow
- Low-profile 16.5cm H design is **easy to load or unload**; pumps and funnels are easy to access
- **83-litre sump** catches leaks, drips and spills during drum transfers
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **PAK1020 contains 39% post-industrial recycled polyethylene**

### PIG® 2-Drum Poly Deck with Pallet Truck Pockets

| Item #  | 1-2            | 3+             |
|---|----------------|----------------|
| <b>PAK1020</b> • 908kg load capacity • 83L sump capacity<br>66cm W x 132cm L x 17cm H | <b>£254.50</b> | <b>£241.78</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Poly Drip Decks — Won't buckle or bow. Guaranteed for life.

- Low-profile 15cm-high design is **easy to load or unload**; pumps and funnels are easy to access
- Moulded-in sump catches leaks, drips and spills to help **keep your storage areas clean and safe**
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **PAK527 contains 39% post-industrial recycled polyethylene**
- **PAK565 contains 43% post-industrial recycled polyethylene**
- **PAK566 contains 48% post-industrial recycled polyethylene**

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

### PIG® Poly Loading Ramp

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| <b>PAK726</b> • For 15cm high Decks • 272kg load capacity • 89cm W x 63cm L x 15cm H | £150.25 | £142.74 |

# WE'VE GOT A WIPE FOR THAT.

Wipes for sanitising hands,  
disinfecting surfaces to rough  
scrubbing and everything in between.

SHOP FULL RANGE ON PAGES 110-118.

## Poly Modular Spill Decks — Build up to your required sump capacity with our connectable, sump-sharing decks.

Our 15cm High Modular Decks feature our patented bulkhead fittings with pre-drilled ports to easily connect deck sections. Each deck comes with everything you need to use it alone or connect it to other decks — cheaper than concrete containment walls.

- Patented **flow-through sump design** lets liquid pass from one sump to another; helps you meet containment regs
- Made of 100% polyethylene **treated with UV inhibitors**
- Built to last with thick grates set on moulded supports; **ideal for drums**
- **Special tools and hardware** to connect sections included
- **Mix and match the sections you need** to fit your space and help meet sump capacity requirements
- **Textured grating** adds traction and lifts out for easy sump access
- Low-profile 15cm high design is **easy to load or unload**; pumps and funnels are easy to access
- Translucent white sidewalls allow **easy visual inspection**
- **PAK524 contains 39% post-industrial recycled polyethylene**
- **PAK529 contains 43% post-industrial recycled polyethylene**
- **PAK531 contains 48% post-industrial recycled polyethylene**
- ◆ **Helps you comply** with all current UK Oil Storage Regulations when configured accordingly — see page 231 for full details

PAK524

Our patented bulkhead fittings let liquids from leaking drums flow from one connected deck to another.

PAK529

Removing the predrilled ports lets you connect deck sections, creating a larger storage or work area and increasing sump capacity.

PAK529

PAK524

PAK531

### PIG® Poly Modular Spill Decks

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| <b>PAK524</b> • 1-Drum • 680kg load capacity • 42L sump capacity<br>66cm W x 66cm L x 15cm H      | £153.25 | £145.59 |

UK Patent 2,300,847 and other Foreign Patents

## DID YOU KNOW?

**Uniform Distribution Load (UDL)** refers to the amount of weight a product can handle over its entire surface. For example, a unit with a 2,722kg UDL capacity will not be able to support the weight of a 2,722kg tank on four legs. The weight needs to be evenly distributed over the entire surface.

### Combine sections to create a custom containment area:

Configure to tight spaces easily.

Create a 6-drum deck that complies — with just 2 sections.

Create a linear storage area.

**PAK538**  
Steel Ramp

**PAK726**  
Poly Ramp

### PIG® Loading Ramps — Add a ramp to make drum loading and unloading easier.

- A poly ramp (PAK726) is easy to handle and more economical
- A steel ramp (PAK538) has a heavier weight capacity

#### PIG® Poly Loading Ramp

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| <b>PAK726</b> • For 15cm high Decks • 272kg load capacity • 89cm W x 63cm L x 15cm H | £150.25 | £142.74 |

#### PIG® Adjustable Steel Loading Ramp

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| <b>PAK538</b> • For 11-15cm high Decks • 454kg load capacity • 75cm W x 97cm L | £399.00 | £379.05 |

**THIS SETUP DOESN'T MEET REGS.**

PAK736  
Bucket shelf makes dispensing easy.

**COMPLY  
AND KEEP  
IT CLEAN**

Anti-slip grate surface provides secure footing.

PAK735

2-way forklift entry for easy movement when not loaded.

## Poly IBC Containment Units — Your heavy IBC is no problem for our 3,632kg capacity pallet.

- **Strong enough for long-term storage of IBCs**, this innovative design transfers weight to load bearing channels to maximise capacity
- Moulded-in sump catches leaks, drips and spills to **help you comply with regulations** and keep storage areas clean
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- Textured grating holds a variety of IBC sizes; lifts out for **easy access to sump**
- **Low profile** for easy access to and dispensing from IBC tanks
- **2-way forklift entry** for easy movement when not loaded
- Add a **PIG IBC Cover** (PAK753) for outdoor storage; keeps out rainwater whilst diverting leaks into sump
- **PAK735 contains 27% post-industrial recycled polyethylene**
- **PAK736 contains 26% post-industrial recycled polyethylene**
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

**PAK753**

Keep rainwater out of your sump with this affordable cover for outdoor storage.

### PIG® Poly IBC Containment Units

| Item #   | 1-2      | 3+       |
|--|----------|----------|
| ★ <b>PAK735</b> • 1,363L sump capacity • UDL capacity: 3,632kg<br>157cm W x 157cm L x 66cm H                   | £1079.00 | £1025.05 |
| <b>PAK736</b> • With bucket shelf • 1,363L sump capacity • UDL capacity: 3,632kg<br>157cm W x 157cm L x 66cm H | £1169.00 | £1110.55 |

NOTE: Assembly required.

### CHOOSING THE RIGHT IBC PALLET SYSTEM IS EASY.

**Two-IBC pallet (PAKE130)**

Includes: 2 pallets, 3 expansion tanks • Capacity: 1,306L  
Provides secondary containment for two 1,000-litre IBC units.

**Three-IBC pallet (PAKE131)**

Includes: 3 pallets, 2 expansion tanks • Capacity: 1,344L  
Provides secondary containment for three 1,000-litre IBC units.

**Four-IBC pallet (PAKE132)**

Includes: 4 pallets, 1 expansion tank • Capacity: 1,382L  
Provides secondary containment for four 1,000-litre IBC units.

**Five-IBC pallet (PAKE133)**

Includes: 5 pallets • Capacity: 1,420L  
Provides secondary containment for five 1,000-litre IBC units.

PAKE738

Capture leaks and drips with optional Bucket Shelf.

PAKE737

## **Twin Poly IBC Containment Unit** — Get easy access to two IBC units and catch stray liquids from errant pouring or dispensing.

- Low-profile deck surface provides **easy access** for filling and dispensing
- All-poly construction **resists chemicals, rust and corrosion**
- Full, flat-grate deck surface makes it **easy to position IBCs**
- **2,500kg UDL weight capacity** is strong enough to hold two fully-loaded IBCs
- **1,140-litre sump capacity** helps you comply with regulations
- **Bucket Shelf** (PAKE738) can be bulkheaded to main sump to drain away drips and splashes
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

PAKE737

This deck stores your drums while the built-in sump contains any leaks, spills or drips.

NOTE: Remove all drums & containers from the pallet before moving.

### PIG® Essentials Dispensing Bucket — For Single IBC Poly Containment Pallet.

Add this Bucket Shelf to the Single IBC Poly Containment Pallet to create a contained dispensing station. Shelf's mini-sump over-flows back to the main sump to drain away drips and splashes.

- **100 litre "mini-sump"** hooks onto the main sump and allows easy dispensing into containers from an IBC
- **Raised edges** overflow any excess liquid back into the main sump of the containment unit
- Robust **100% polyethylene construction** is strong, durable and corrosion resistant

### PIG® Essentials Dispensing Bucket

| Item #  | 1-2           | 3+            |

## Steel IBC Pallets — Get 1,100 litres of IBC sump capacity for hazardous liquids.

**NPL214**  
Pallet supports a full 1,000 litre IBC.

- **Contains entire contents of IBC** to protect personnel and the environment
- **Tough 2.0mm sheet steel** with fully-welded seams stands up to flammables, chemicals and other hazardous liquids
- Support beams securely hold removable galvanised grates in place and **distribute loads for maximum stability**
- Chemical and corrosion-resistant finish **resists harsh liquids and weather**
- Lower-profile **Double Pallet** (NPL251) allows you to store two IBCs side by side
- ◆ **Helps you comply** with all current UK Oil Storage Regulations and HSG 51 "The Storage of Flammable Liquids" — see page 231 for full details

**NPL251**  
Pallet supports two full 1,000-litre IBCs

### Steel IBC Pallets

| Item #   | Price                   |

## PIG® Single Drum Pallet Roll Top Hardcover — Protected storage and liquid containment for a frequently accessed drum.

Setup is simple. Just load a drum on the pallet, drop sleeve over drum and attach roll top hardcover.

Removable top lets you insert and replace drums.

- **Three-piece design** provides protected storage and liquid containment for a frequently accessed drum
- **Extra high and extra wide design** allows drum to be stored with a pump or funnel in place; heavy-duty bottom poly pallet captures leaks, drips and spills
- Heavy-duty bottom poly pallet is **ideal for capturing leaks, drips and spills**
- Weather-resistant design **prevents contaminants from entering storm water**
- Low-density polyethylene (LDPE) with UV inhibitors **resists UV rays, rust, corrosion and most chemicals**
- Contains **12% post-industrial recycled polyethylene**
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

### PIG® Single Drum Pallet Roll Top Hardcover

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| PAK150 • 1-Drum • 231L sump capacity<br>363kg load capacity • 102cm W x 102cm L x 203cm H | £859.00 | £816.05 |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Poly Loading Ramp — Make loading and unloading easier.

- **Lightweight polyethylene construction** is chemical-resistant and easy to position
- **Edge guards guide drum trucks** and help prevent them from rolling off the sides
- **Ribbed surface provides traction** for added safety
- Metal plate **secures ramp to pallet or deck** and provides a smooth transition for loading and unloading
- Compatible with Pallets: **PAK210** (Page 233), **PAK672** (Pages 235, 242) and **PAK213** (Page 235)
- Compatible with Roll Tops **PAK601** and **PAK901** (Page 247)

### PIG® Poly Loading Ramp

| Item #  | 1-2     | 3+      |
|---|---------|---------|
| PAK734 • For 22cm to 25cm high pallets<br>317.5kg load capacity • 72cm W x 139cm L x 22cm H | £260.50 | £247.48 |

## PIG® IBC Roll Top Hardcover — Protect your IBCs from the elements using our roomy roll top.

- Roll top slides up for **easy access to IBCs** while the rest of the unit stays closed
- Provides **protected storage and liquid containment** for IBC units up to 132cm L x 132 cm W x 132cm H
- **Weather-resistant design** prevents contaminants from entering stormwater and protects the IBC inside
- Heavy-duty construction has **two-way forklift entry** for easy movement (unloaded only)
- Low-density polyethylene (LDPE) with UV inhibitors **resists UV rays, rust, corrosion and most chemicals**
- Doors and roll top **can be secured with padlock** (not included)
- Contains **14% post-industrial recycled polyethylene**
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

Durable rolling cover and swing-out doors on both sides provide easy access to your IBC.

### PIG® IBC Roll Top Hardcover

|  |                 |
|--|-----------------|
| Item #   | 1+              |
| ★ <b>PAK902</b> • 1,363L sump capacity • 3,632kg load capacity • 165cm W x 157cm D x 244cm H | <b>£2199.00</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Roll Top Hardcovers — Outdoor storage that helps you comply with environmental regulations.

- Ergonomically designed roll top only goes down to waist height to **eliminate bending and stretching**
- Roll top slides up for **easy access to drum tops** whilst the rest of the unit stays closed; store drums with pumps or funnels in place
- **Low-profile pallet with sump** catches leaks, drips and spills whilst keeping drum tops and accessories within reach
- Heavy-duty construction allows hardcover and pallet to be lifted by a forklift **with drums in place**
- **PAK901 contains 17% post-industrial recycled polyethylene**
- **PAK601 contains 13% post-industrial recycled polyethylene**
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

Hardcover and pallet can be lifted by a forklift with drums in place. No need to unload them.

Ramp (PAK734) makes drum loading and unloading easier. See pages 233, 246.

| <b>PAK901</b> • 4-Drum • 284L sump capacity<br>4,082kg load capacity • 165cm W x 157cm D x 201cm H | <b>£1599.00</b> |                 |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## Steel Drum Storage Units — Lift lids for easy inspection.

- Hinged lid features **gas spring-assisted opening** — stays upright when open
- Removable **galvanised grid mesh floor**
- **Easily relocatable** with a forklift
- Designed specifically for **outdoor storage**
- **For use with 210-litre drums** — accommodates 2 drums horizontally (with additional frame) or 4 drums vertically
- ◆ **Helps you comply** with all current UK Oil Storage Regulations and HSG 51 “The Storage of Flammable Liquids” — see page 231 for full details

**NPL201**  
Integral 2-point rod-lever locking mechanism (2 keys included).

**NPL200**  
Lockable lift-up lid prevents unauthorised access (padlock not included).

### Steel Drum Storage Units

| Item #  | Price                   |
|---|-------------------------|
| <b>NPL200</b> • 4-Drum Storage Unit with lift-up lid • 300L sump capacity • 1,500kg load capacity<br>140cm W x 144cm H x 140cm D    | <b>Call for a Quote</b> |
| <b>NPL201</b> • 4-Drum Storage Unit with lockable doors • 300L sump capacity • 1,500kg load capacity<br>140cm W x 144cm H x 140cm D |                         |

The opening flap of the cover has ties to hold it in place when “rolled” up and open.

## **pig** Essentials Covered Drum Containment Pallets — Load your drums inside for all-weather protection.

- Ideal for the **storage of chemicals, drum dispensing and hazardous waste collection**
- Tall headspace **easily accommodates drums with rotary pump equipment and conical funnels** still in place
- **Pallet sump catches leaks, drips and spills** while keeping drum tops and accessories within reach
- Steel frame with **PVC Cover prevents stormwater from entering** and protects the drums inside
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

### PIG® Essentials Covered Containment Drum Pallet

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services

NOTE: Flat packed. Self-assembly required.

**PAKE224**

**PAKE234**

## **pig** Essentials Covered Drum and IBC Containment Pallets — Store and protect your drums and IBCs in any weather.

- Ideal for the **storage of chemicals, drum dispensing and hazardous waste collection**
- Tall headspace **easily accommodates drums with rotary pump equipment and conical funnels** still in place
- **Pallet sump catches leaks, drips and spills** while keeping drum tops and accessories within reach
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

### PIG® Essentials Covered Drum & IBC Containment Pallets **pig**

| Item #   | 1-2             | 3+              |
|--|-----------------|-----------------|
| <b>PAKE224</b> • 8-Drum or 2-IBC • 2500kg load capacity<br>1140L sump capacity • 256cm W x 135cm D x 221cm H | <b>£1995.00</b> | <b>£1895.25</b> |
| <b>PAKE234</b> • 1-1000L IBC • 1500kg load capacity<br>1100L sump capacity • 135cm W x 176cm L x 241cm H     | <b>£1729.00</b> | <b>£1642.55</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services

NOTE: Flat packed. Self-assembly required.

## **PIG** Essentials 2- and 4-Drum Hard Top Containment Pallets — Roomy all-weather protection and liquid containment.

- **Rigid, double walled construction** is ideal for the storage of chemicals, drum dispensing and hazardous waste collection
- Tall headspace **easily accommodates drums with rotary pump equipment** and conical funnels still in place
- **Pallet sump catches leaks, drips and spills** while keeping drum tops and accessories within reach
- Weather-resistant design **prevents contaminants from entering stormwater** and protects the drums inside
- **PAKE223** has access to both sides (one side at a time) via two, tough, flexible and ribbed easy sliding shutters. **PAKE222** has access, via sliding shutter door, to one side only.
- **Supplied assembled** and ready to use immediately

- **4 recessed external side pockets** for bolting the unit to the ground (bolts not supplied)
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

### PIG® Essentials 2- and 4-Drum Hard Top Containment Pallets

| Item #   | 1-2             | 3+              |
|--|-----------------|-----------------|
| <b>PAKE222</b> • 2-Drum • 650kg load capacity • 250L sump capacity<br>156cm W x 100cm D x 211cm H    | <b>£889.75</b>  | <b>£845.26</b>  |
| ★ <b>PAKE223</b> • 4-Drum • 1250kg load capacity • 250L sump capacity<br>156cm W x 162cm D x 211cm H | <b>£1155.00</b> | <b>£1097.25</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## **PIG** Essentials IBC Hardtop Containment Pallet — Load your IBCs into a roomy Hardtop Containment Pallet for all-weather protection and liquid containment.

- Rigid, polyethylene construction is **ideal for the storage of chemicals and hazardous waste collection**
- **Ample head space** for IBCs fitted with mixers, funnels or pumps still in place
- **Integrated 2-litre platform spill tray plus 70cm-high pallet sump** catches leaks, drips and spills
- **Two large platform apertures** allow sump inspection to identify if there has been a spill without having to remove the platform
- **Integrated venting panels** allow air circulation through the unit; roof designed for quick rainwater run-off to the rear
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

### PIG® Essentials IBC Hardtop Containment Pallet

| Item #   | 1-2             | 3+              |
|--|-----------------|-----------------|
| <b>PAKE279</b> • 1 - 1000L IBC • 2500kg load capacity • 1260L sump capacity<br>177cm W x 226.5cm H x 177.5cm D | <b>£2075.00</b> | <b>£1971.25</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

NOTE: Remove all drums & containers from the pallet before moving.

NOTE: Flat packed. Self-assembly required.

Double swing doors with three-point locking mechanism (2 keys supplied) for secure storage.

NPL250

Fixed shelves are made of perforated galvanised steel.

Lockable double doors keep drums extra secure.

GENE260

Vents encourage air circulation.

## External Drum Store for 25L Drums — High capacity cabinet holds up to 48 25L drums on three levels.

- **Lockable** for added security
- Galvanised grid **flooring removes easily** for inspection and cleaning
- **Vents located on upper and lower half of cabinet** encourage air circulation within the cabinet
- Ideal storing flammables, chemicals and hazardous materials
- Per HSG 51, lightweight roof is designed to be the weakest point to maximise safety; **in case of fire or explosion, the blast will go upwards through the roof instead of blowing the doors or walls outwards**

◆ **Helps you comply** with all current UK Oil Storage Regulations and HSG 51 "The Storage of Flammable Liquids" — see page 231 for full details

### External Drum Store for 25L Drums

| Item #   | Price                   |
|--|-------------------------|
| <b>NPL250</b> • For (16) 25L drums • 250L sump capacity • 375kg load capacity<br>141cm W x 148cm H x 81cm D    | <b>Call for a Quote</b> |
| <b>GENE260</b> • For (48) 25L drums • 380L sump capacity • 1,500kg load capacity<br>80cm W x 250cm L x 240cm H |                         |

NPL206

"T" latch lock system prevents unauthorised access.

Relocatable Stores can be moved with a suitable forklift, crane or hi-ab (by using boat slings and spreader bars).

## General Purpose Safety Stores — Safely store flammables, chemicals and other hazardous materials.

- Fully welded, **2mm-thick steel construction** with banded base offers increased strength and durability over alternative riveted stores
- **Lightweight, galvanised roof** is pitched to prevent rainwater from puddling and collecting
- Per HSG 51, the roof is designed to be the weak point of the stores; **in the event of a fire or explosion, the blast will go upwards instead of outwards**
- **Removable galvanised grid flooring** for sump inspection and removal of collected liquids
- Fully opening **double doors are lockable** via a drop "T" latch lock (Two keys included)

◆ **Helps you comply** with all current UK Oil Storage Regulations and HSG 51 "The Storage of Flammable Liquids" — see page 231 for full details

**CUSTOM SIZES ARE AVAILABLE**  
**CALL US ON 0800 919 900 TO DISCUSS YOUR NEEDS.**

### General Purpose Safety Stores

| Item #   | Price                   |
|--|-------------------------|
| <b>NPL206</b> • 800L sump capacity • 3,375kg load capacity<br>Ext. dim.: 210cm sq. x 240cm H • Shelf dim.: 50cm W x 200cm L          | <b>Call for a Quote</b> |
| <b>NPL207</b> • 1300L sump capacity • 5,545kg load capacity<br>Ext. dim.: 250cm W x 290cm D x 240cm H • Shelf dim.: 60cm W x 270cm L |                         |

NOTE: These units are not suitable for temperature-sensitive liquids such as low flash point flammables and paint.

GENE228

## Dual-Purpose Storage Units — Secure steel storage units have capacity for both Drums and IBCs.

- **Large sump capacity** captures leaks, drips and spills from Drums or IBCs; helps prevent groundwater contamination
- Per HSG 51, lightweight roof is designed to be the weakest point to maximise safety; **in case of fire or explosion, the blast will go upwards instead of outwards**
- **Fully-welded, 2mm-thick steel construction** offers improved strength and durability over riveted units; ideal for flammable storage
- High- and low-level flame-arrested **vents increase air circulation and help prevent pressure buildup**
- **Chemical- and corrosion-resistant paint** also withstands harsh outdoor conditions
- **GENE229 and GENE230** have sliding doors/access from two sides
- ◆ **Helps you comply** all current UK Oil Storage Regulations and HSG 51 "The Storage of Flammable Liquids" — see page 231 for full details

GENE228

Fixed cross member support beams on both the upper and lower storage levels.

## Hazardous Substance Cabinets — Comply with the control of hazardous substances in all working environments.

- Enables the separate storage of hazardous substances as demanded by the **COSHH regulations**
- **“No snag” handles** with 2-point locking
- Spill-retaining, **galvanised shelf is adjustable** to accommodate various container sizes
- **Integral liquid-tight sump** in base of cabinet collects and controls leaks and spills
- **New regulation labels enclosed** allow the cabinet to be identified to suit regulations or liquids
- ◆ **Helps you comply** with HSG 51 “The Storage of Flammable Liquids”, The Control of Substances Hazardous to Health Regulations (COSHH) 2002 and The Dangerous Substances and Explosive Atmospheres Regulations 2002 (DSEAR) — see page 231 for full details

### Hazardous Substance Cabinets

| Item #         | Size  | 1-2     | 3+      |
|----------------|---|---------|---------|
| <b>CABE140</b> | Capacity 3L • Single Door • 1 Adjustable shelf<br>35cm W x 70cm H x 30cm D      | £255.00 | £242.25 |

| <b>CABE146</b> | Capacity 18L • Double Door • 3 Adjustable shelves<br>120cm W x 180cm H x 46cm D | £675.00 | £641.25 |

NOTE: 50 litres is the maximum volume of any flammable liquid with a flash point below 32°C that may be stored in a flame-resistant cabinet within a workroom, regardless of the total cabinet capacity.

PAKE265

PAKE266

PAKE269

## **PIG® Essentials Polyethylene Storage Cabinets — Store 1, 5 and 25 L containers in these robust cabinets.**

- **Integral sump** contains any leaks and drips from containers
- Two internal, removable shelves for simple organisation of stored containers (**PAKE265** and **PAKE266** only, not **PAKE269**)
- **Lockable door** provides secure storage
- Made from polyethylene, it's **strong, durable, has good impact resistance, and is easy to clean**
- Suitable for storing **oil, chemicals, batteries** or **paint**

### PIG® Essentials Polyethylene Storage Cabinets

| Item #  | 1-2            | 3+             |
|---|----------------|----------------|

| <b>PAKE266</b> • 57cm W x 65cm D x 165cm H • 70L sump capacity  | <b>£419.50</b> | <b>£398.53</b> |
| <b>PAKE269</b> • 92cm W x 72cm D x 152cm H • 100L sump capacity | <b>£575.00</b> | <b>£546.25</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## **PIG® Essentials Polyethylene Storage Cabinet — Store smaller containers in this robust polyethylene cabinet.**

- **Integral sump** contains any leaks and drips from small containers — **sump is compliant with current oil storage regulations**
- Removable grid gives **easy access to sump** for inspection or cleaning
- **Lockable door** provides secure storage
- Internal, removable shelf for simple organisation of smaller stored containers
- Made from polyethylene, it's **strong, durable, has good impact resistance, and is easy to clean**
- Suitable for storing **oil, chemicals, batteries** or **paint**
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

### PIG® Essentials Polyethylene Storage Cabinets

| Item #  | 1-2            | 3+             |
|---|----------------|----------------|
| <b>PAKE268</b> • With Shelf • 92cm W x 72cm D x 184cm H • 225Ltrs sump capacity | <b>£559.50</b> | <b>£531.53</b> |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Essentials Mobile Poly Spill Tray — Perfect for transporting and storing up to four 25L drums of oil, acid, caustic or other liquid.

- Durable tray **contains liquid messes** from oily parts and leaky containers
- Ideal for **temporary storage of small containers** that may leak or drip liquids onto the floor
- Features **four castors (two lockable)** and **100cm high steel handle** for stability and easy movement
- Strong sidewalls **won't bend or warp**
- Lightweight, chemical-resistant poly **won't rust or corrode** and is easy to clean

### PIG® Essentials Mobile Poly Spill Tray

| Item #  | Size            | Sump capacity | 1-2     | 3+      |
|---------|-----------------|---------------|---------|---------|
| PAKE249 | 70cm W x 55cm L | 100L          | £285.00 | £270.75 |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Essentials Poly Spill Trays — Designed to store several small to medium containers of oils, acids, caustics or other liquids.

- Durable, one-piece tray **contains liquid messes** from oily parts and leaky containers
- **Ideal for temporary storage of small containers** that may leak or drip liquids onto the floor
- **Sidewalls won't bend or warp**; containers sit deep into the sump, minimising any potential splashes

PAKE287

### PIG® Essentials Poly Spill Trays

| Item #  | Size                        | Sump capacity | 1-2     | 3+      |

## PIG® Essentials Poly Spill Tray with Grate — Ideal for storing 25L drums of oil, acid, caustic or other liquid.

- Durable tray **contains liquid messes** from oily parts and leaky containers
- Ideal for **temporary storage of small containers** that may leak or drip liquids onto the floor
- **Removable platform elevates the drums** to keep away from any captured liquids
- Strong sidewalls **won't bend or warp**

### PIG® Essentials Poly Spill Trays with Grate

| Item #  | Size                       | Sump capacity | 1-2     | 3+      |
|---------|----------------------------|---------------|---------|---------|
| PAKE248 | 72cm W x 92cm L x 17.5cm H | 100L          | £149.50 | £142.03 |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## Poly Utility Trays — Great for lining your benches and shelving.

PAK656

- Light-coloured, flat-bottom design **makes it easy to see screws, springs and other small parts**
- All-poly construction resists most chemicals; **will not rust or corrode**
- **Rotationally moulded spill tray** is ideal for applications that would compromise injected or thermoformed trays
- **Made from FDA-compliant resins** for containment of food and cosmetic products

PAK657

### Poly Utility Trays

## PIG® Utility Trays — Store batteries, leaky containers and more on this heavy-duty tray.

- Durable tray is great **for temporary storage of leaking parts or cores awaiting degreasing, repair or pick-up**
- **Saves valuable bench space** by allowing you to store large, heavy parts safely on floor
- Polyethylene tray **resists many chemicals**
- **Heavy-duty walls** add strength and prevent warping
- **Ribbed bottom** prevents batteries and containers from resting in spilled liquids
- **PAK112 is designed to fit on top of a pallet** for easy mobility with a forklift

### PIG® Utility Trays

| PAK920 • 86cm W x 132cm L x 13cm H  | £106.75 | £101.41 |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Utility Tray with Grate — Creates storage area for batteries or liquid containers.

- **Sump catches leaks and drips** from batteries, liquid containers and more
- **Grate elevates stored objects out of sump** and away from collected liquids to keep them cleaner
- **Heavy-duty walls and ribbed bottom** enhance overall strength
- Polyethylene tray **resists many chemicals**; will not rust or corrode
- Contains **55% post-industrial recycled polyethylene**

### PIG® Utility Tray with Grate

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| PAK123 • With grate • Sump Capacity 30L • 64cm W x 125cm L x 8cm H | £128.25 | £121.84 |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

Grate lifts out for easy access to sump.

PAK1292

### **PIG® Collapsible Utility Trays** — Fold for compact storage but deploy instantly.

- Collapsible trays **require less storage space**, so it's easy to keep them handy wherever needed to catch leaks and drips
- Easy-to-clean PVC trays are **perfect for small liquid transfers**, maintenance, fluid changing areas, and engine part degreasing and cleaning
- **Deploy quickly and easily** to catch unexpected leaks and drips
- **Rigid corner supports hold shape** when in use

DRM369

### **PIG® Drum Spill Trays** — Contain drips and spills from 210L drums.

- Lightweight polyethylene **won't corrode**
- **DRM369** holds 19 litres of liquid with a 210-litre drum in place
- **DRM371** keeps drums out of collected liquids; lift out grates for sump access; pour hole allows you to recapture collected liquids
- **DRM371 contains 40% post-industrial recycled polyethylene**

DRM371 with Grate

DRM787

DRM786

### **PIG® Mobile Spill Tray** — Simple answer for drum storage and transport holds up to 227kg and includes 42-litre sump.

- Dolly holds **42-litres when empty and 19-litres with a 210-litres drum** in place
- Free-rolling castors and optional **Handle (DRM787)** make moving a drum easy
- Rugged polyethylene with **UV inhibitors for indoor and outdoor use**

## Essentials Spill Trays — Ideal for storing several small- to medium-sized containers.

- All-polyethylene spill trays are **ideal for acids, caustics, oils or other liquids**
- Lightweight, chemical-resistant poly **won't rust or corrode**
- High-quality polyethylene **sump is extremely durable**
- **Stackable** for easy transportation and storage
- Designed to **easily fit multiple units onto standard Euro shipping pallets**
- **Standard trays (PAKE294, PAKE270, PAKE272, PAKE274, PAKE298 and PAKE276)** have high sidewalls that won't bend or warp; containers sit deep into the sump, minimising any potential splashes
- **Spill trays with grate (PAKE295, PAKE271, PAKE273, PAKE275, PAKE299 and PAKE277)** have an anti-slip, removable grate that keeps containers out of the sump and away from collected liquids

PAK372

**PIG® Mini Drip Decks** — If containers leak, drip or crack, this tray's built-in sump will catch the liquid.

- **Built-in pour spout** for quick and easy sump drainage
- Chemical-resistant polyethylene **won't rust or corrode**
- Translucent sidewalls make it **simple to spot leaks**
- Compact size **fits on tabletop or counter**; ideal for use in labs

#### PIG® Mini Drip Decks

# FLOOR SAFETY STARTS WITH PIG

For safer industrial floors, choose PIG Adhesive-Backed Grippy Floor Mat with Safety Borders — the **ONLY** mat on the market with an adhesive backing, hi-vis edging and a high-traction top.

SEE PAGES 130 & 183.

## PIG® Utility Pans — Lightweight pans have many uses throughout your workplace.

- **Capture drips, temporarily contain greasy parts, organise a workbench** and much more
- **Chemical-resistant polypropylene** can be used with a variety of workplace materials
- **Easy to clean** for re-use
- **Nestable** — occupies minimal space for shipping and storing
- Use alone or with PIG Small Pillows (**PIL204**, sold on page 39)

### PIG® Utility Pans

| Item #                                      | 1-2    | 3+     |
|---|--------|--------|
| PAN404 • 12/box • 26cm W x 26cm L x 7.6cm H | £35.75 | £33.96 |

## PIG® Single Drum Container — Economical containment for a 210L drum.

- Low-density polyethylene construction **resists UV rays, rust, corrosion and most chemicals**
- Top collar lets you **easily move container with a forklift**
- **Translucent white sidewalls** allow easy visual inspection
- ◆ **Helps you comply** with all current UK Oil Storage Regulations — see page 231 for full details

### PIG® Single Drum Container

| Item #   | 1-2     | 3+      |
|--|---------|---------|
| DRM373 • 83cm L x 83cm W x 69cm H 544 kg Load Capacity UDL 265 L Sump Capacity | £166.75 | £158.41 |

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please call Technical Services.

## Oil Drain Pans — Collect drained fluids from multiple points with minimal mess.

- Large collection area and capacity allow you to **drain high volumes of fluids** from multiple sources; simplify maintenance and repairs by using a single pan
- Spout lets you **empty pan without drips or spills**; waste tanks stay clean
- **Moulded-in handles** makes carrying, pouring and storing easy
- **Chemical-resistant**; won't rust or corrode

### Oil Drain Pans

| Item #               | 1-2    | 3+     |
|----------------------|--------|--------|
| TLSE152 • 5-litre    | £3.30  | £3.14  |
| TLSE153 • 12-litre   | £11.95 | £11.35 |
| ★ TLSE159 • 17-litre | £14.50 | £13.78 |

## Oil & Fluid Extractor Drainer — No need to get under vehicles or machines to drain oil.

- **Operates by manual pre-pressurisation**, this device extracts waste oils and fluids simply from dip stick openings, filler cap openings and other apertures
- Suitable for **use on vehicles, marine engines, plant and industrial machinery**; it can be used to extract waste oils, cutting fluids and low viscosity fluids such as water
- Comes with **three suction probes**: 6mm dia x 1140mm L, 9mm dia x 1160mm L; and 10mm dia x 1120mm L

### Oil & Fluid Extractor Drainer

| Item #  | 1-2    | 3+     |

## Featured Products

### Scoops

Non-sparking tool for safer clean-ups of volatile or flammable waste.

**See page 262**

### Polythene Disposal Bags

Safe, temporary storage of hazardous or contaminated waste.

**See page 263**

### Patching Paste

Ready to use paste instantly stops leaks for up to 2 hours even in cold temperatures.

**See page 264**

### Liquid Remediact

Effective non-toxic microbial remediation that works on soil and water within 60 days.

**See page 266**

# Nonsparking Tools — These tools make it safer to clean up flammable or volatile spill waste.

- Made of **durable, corrosion-resistant** polypropylene for excellent chemical resistance
- **Hardwood-core handle** resists hundreds of pounds of pressure
- Shovel is in two pieces for **easy storage**
- Ideal for **use with flammable or volatile chemicals**

# **PIG Multi-Purpose Epoxy Putty** — Top quality resins bond better and stay stronger so repairs last — we guarantee it.

- Customer-favourite PIG Epoxy Putty **sticks to almost anything and cures fast**
- Made with the highest-quality epoxy resins to bond better and stay stronger; **adheres to steel, glass, masonry and most plastics**
- **Convenient, premeasured epoxy** has Parts A and B in one tube ready for kneading
- **Sets in 20 minutes and cures concrete-hard in 1 hour** for drilling, tapping, sanding or painting
- Nontoxic, VOC- and solvent-free putty **can be used on potable water lines**
- **3- to 5-minute** working time

## **PIG® Multi-Purpose Epoxy Putty**

| PTY292 • 18cm L • 6/box   | £39.75 | £37.76 |

NOTE: For Repair Purposes Only. Not intended for structural applications.

## **PIG Plug-N-Seal Patching Paste** — Stop leaks now so you can fix them later, even in cold temps.

- Excellent chemical resistance makes it **ideal for flammable or hazardous leaks**
- **Stops leaks** from 2 minutes up to 2 hours until the system can be drained or the source moved into a containment area
- **Ready to use** without mixing
- **No surface preparation needed**; even works on dirt and rust

## **PIG® Plug-N-Seal® Patching Paste**

| Item #                      | 1-2    | 3+     |
|-----------------------------|--------|--------|
| PTY220 • 454 gram container | £17.00 | £16.15 |

## **Rupture Seal™ for Pipe Leaks** — Deploys in seconds to provide temporary control of leaks.

- **Seals in seconds** — no tools required; Can be used on rough, unclean or splintered surfaces
- Choose **PTY1000** for pipes; **PTY1001-1003** for drums, tanks and IBCs

## **Rupture Seal™**

| Item #  | For                | Size                      | Unit   | 1-2     | 3+     |
|---------|--------------------|---------------------------|--------|---------|--------|

| PTY1003 | Drums, Tanks, IBCs | 15cm W x 5cm L            | 1/pack | £104.00 | £98.80 |

## Kibosh Rapid Pipe Repair — Clamp provides fast and effective fix for broken pipes.

- Fits in tight spaces, joist notches and around clipped pipes; can accommodate leaking pipe fittings
- Works on hot or cold pipes; suitable for copper, plastic, metal and multi-layered pipes
- Stops leaks immediately to limit water damage and disruption
- After installation, pipe can function normally, even under pressure up to 10Bar/150PSI, until a permanent repair is arranged
- Clamp is reusable; store in “open” position to preserve sealing gasket
- Easy to install — **no tools required**; open the clamp, place the housing (not attached to latch) behind pipe, slide it over the leak and clamp shut
- Ideal for plumbers, joiners, builders, electricians, carpet fitters, as well as maintenance, service, janitorial, DIY and more

TLSE250

Clamps stop leaks immediately to limit water damage and disruption.

### Kibosh Rapid Pipe Repair Clamps for Pipes

| Item #  | Use With                                   | 1-2    | 3+     |
|---------|--|--------|--------|

TLSE255  
Kit comes with clamps, tape and carrying case.

## Kibosh FastFreeze Clamps — The fast and efficient pipe freezing solution.

- Freeze spray is injected into the clamp to create an isolating ice plug within the pipe
- Contact foam inside the clamp cavity absorbs freeze spray (TLSE270) and allows it to slowly evaporate through the vent hole
- Uses less freeze gas than traditional foam sleeves to create and maintain an isolating ice plug
- Suitable for copper, steel, plastic, lead or iron pipes
- When clamps and spray are used together, they will freeze to -30°C, and will typically freeze a 15mm copper pipe in 3-5 minutes

TLSE260

### Kibosh FastFreeze Clamps for Pipes

| Item #  | Use With                                   | 1-2    | 3+     |

Kit comes with clamps, spray, foam pads, pipe reducers, straw and carrying case

## BIOREMEDIATION: WHAT IS IT?

Bioremediation is the process of using micro-organisms to digest harmful contaminants and turn them into non-toxic compounds. Nature will heal itself, but it often takes a great amount of time. Using microbes helps speed up this process by concentrating the number of helpful micro-organisms within a given area.

### What are oil-eating microbes?

Commonly known as "bio-bugs," these microscopic, single-celled organisms digest hydrocarbons and transform them into harmless carbon dioxide and water. Microbes are found naturally everywhere in the world and are collected from sources such as soil and water.

### What are the advantages?

Bioremediation is a safe, natural process that produces no harmful by-products. Since it can be done on-site, it is often more cost effective than having soil or water hauled away for burning or other reclamation. It is also safer for workers, because no harmful chemicals are used in the process.

### Is bioremediation safe?

Bioremediation is very safe because it uses the same microbes that already naturally occur in soil or water; this process simply adds more of these organisms to those already present. No dangerous chemicals are used in the process, and harmful contaminants are completely destroyed.

### How long does it take?

Although they start to work immediately, bio-bugs, unlike humans, aren't in a big hurry. They do take some time to work. The time it takes for complete remediation depends on the types and amounts of contamination present, the size and depth of the polluted area, the type of environment and other conditions present. So, results will vary from site to site.

### What happens to the microbes after the oil has been consumed?

Like any living creature, if there is no food source, bio-bugs will die out. When this happens, their final by-products are carbon, carbon dioxide and water.

**Liquid Remediate — Soil and water contamination? This effective microbial remediation that works within 60 days.**

- Solve soil and water contamination problems with one product and **economically dispose of potentially hazardous waste**; helps you comply with ISO 14001 and provides effective microbial remediation within 60 days
- **Oxidises and unadheres hydrocarbons from soil** to quickly tackle contamination
- **Highly concentrated**; dilute with water to treat over 50 tons of soil
- **Environmentally friendly micro-organisms** are obtained from natural and sustainable sources
- Solvent-free, pH-neutral product is **not toxic or hazardous**

#### Liquid Remediate™

| Item #                         | 1-2     | 3+      |
|--------------------------------|---------|---------|
| CLNE203 • 2 - 10-litre bottles | £645.00 | £612.75 |

NOTE: Treated spillages should always be checked before discharge into the environment to ensure effective remediation has taken place.

**FleetKleen Cleaner & Degreaser — Clean and degrease hard surfaces, parts and tools without harsh solvents.**

- **Eats grease and oil** for economical disposal of potentially hazardous waste; helps you comply with ISO 14001 and **eliminates hydro-carbon pollution** and leaves surfaces slip free
- **Effective on workplace surfaces, tools and more**; even works on oily rags, allowing disposal with normal waste
- **Highly concentrated**; dilute with water 20:1 for heavy-duty tasks, 50:1 for routine maintenance or 75:1 for use in scrubber/dryer floor machines
- **Cleans and pulls oils out of concrete surfaces**; dilute with water 20:1 and allow to soak for at least 10 minutes before scrubbing

#### FleetKleen™ Cleaner & Degreaser

| Item #                         | 1-2     | 3+      |
|--------------------------------|---------|---------|
| CLNE200 • 2 - 10-litre bottles | £225.00 | £213.75 |

NOTE: Treated spillages should always be checked before discharge into the environment to ensure effective remediation has taken place.

# Terms and Conditions of Sale

## TERMS & CONDITIONS OF SALE

New Pig advises the Buyer to read these Terms and Conditions carefully, prior to placing an order, and to save a copy for future reference. By ordering from New Pig the Buyer agrees to be bound by these Terms and Conditions (including terms and conditions referred to in them).

New Pig may amend or update these Terms and Conditions from time to time without notice to the Buyer to comply with law or otherwise as required by New Pig. Any updates or amendments will be posted on the Website at [www.newpig.co.uk](http://www.newpig.co.uk). The Buyer confirms that it is not dealing as a consumer (i.e. acting otherwise than in the course of business), and that any order it places shall be on a business-to-business basis. Anyone wishing to purchase Goods from New Pig as a consumer must contact New Pig for formal written approval in the first instance. New Pig will not supply Goods to any person under the age of 18, and can only deliver Goods to an address within the United Kingdom.

## 1. INTERPRETATION

In these Conditions:

(a) the following words have the following meanings:

The Buyer/you: the person, firm or company who purchases the Goods from New Pig;

New Pig/we/us/the Seller: New Pig Limited, a company incorporated in Scotland under the Companies Acts (Company Number SC141633), with its registered office at Hogs Hill, Watt Place, Hamilton International Technology Park, Blantyre, Glasgow, G72 0AH;

Contract: any contract between New Pig and the Buyer for the sale and purchase of the Goods, which contract shall incorporate these Conditions;

Delivery Point: the place where delivery of the Goods is to take place under condition 4;

Goods: any goods agreed in the Contract to be supplied to the Buyer by New Pig (including any part or parts of them);

(b) references to any statute or statutory provision shall, unless the context otherwise requires, be construed as a reference to that statute or statutory provision as from time to time amended, consolidated, modified, extended, re-enacted or replaced;

(c) references to one gender include the other genders and to the singular include the plural and vice versa as the context admits or requires; and

(d) headings are for reference only and will not affect the construction or interpretation of these Conditions.

## 2. APPLICATION OF TERMS

Subject to any variation permitted under this condition 2, the Contract will be on these Conditions to the exclusion of all other terms and conditions (including any terms or conditions which the Buyer purports to apply under any purchase order,

confirmation of order, specification or other document). The Buyer acknowledges that no representations have been made or relied upon other than those expressly set out herein.

No terms or conditions endorsed upon, delivered with or contained in the Buyer's purchase order, confirmation of order, specification or other document will form part of the Contract simply as a result of such document being referred to in the Contract.

These conditions apply to all New Pig's sales and any variation to these Conditions and any representations about the Goods shall have no effect unless expressly agreed in writing and signed by a director of New Pig.

Each order for Goods by the Buyer from New Pig shall be deemed to be an offer by the Buyer to purchase Goods subject to these Conditions and an order shall not be deemed to have been withdrawn unless New Pig acknowledges the withdrawal in writing and the Buyer shall be liable for all costs, expenses or other losses suffered by the Seller due to the withdrawal by the Buyer of any such order.

No order placed by the Buyer shall be deemed to be accepted by New Pig until a written acceptance of order is issued by New Pig or (if earlier) New Pig delivers the Goods to the Buyer (or allows the Buyer to uplift the Goods in the case of collection by the Buyer).

The Buyer must ensure that the terms of its order and any applicable specification are complete and accurate.

Any quotation is given on the basis that no contract will come into existence until New Pig despatches an acknowledgement of order to the Buyer. Any quotation is valid for a period of 60 days only from its date, provided that New Pig has not previously withdrawn it.

Any typographical, clerical or other error or omission in any sales literature, website, quotation, price list, acceptance of offer, invoice or other document or information issued by New Pig (whether in electronic format or otherwise) shall be subject to correction without any liability on New Pig's part.

## 3. DESCRIPTION

The description, packaging and specification of the Goods shall be as set out in New Pig's current website and catalogues and marketing material (whether in electronic format or otherwise), subject to any changes in design, specification or form from time to time introduced by New Pig in its discretion.

All drawings, descriptive matter, specifications and advertising issued by New Pig and any descriptions or illustrations are issued or published for the sole purpose of giving an approximate idea of the Goods described in them for guidance only, and will not form part of the Contract.

## 4. DELIVERY & COLLECTION

Unless otherwise agreed in writing by New Pig, delivery of the Goods shall take place at the Buyer's United Kingdom address as intimated in the Buyer's order for Goods (or at New Pig's premises in the case of Buyer collection).

New Pig will not be able to process orders or facilitate collection of Goods on UK Bank Holidays, Saturdays and Sundays. Saturday deliveries may be available upon request, subject to carrier restrictions and availability.

Any "non-stocked", "supplier delivered" or "special order" Goods, not held in stock by New Pig, will be highlighted to the Buyer at time of order. Where possible, part-delivery/collection will be arranged.

The Buyer will provide at its expense at the Delivery Point adequate and appropriate equipment and manual labour for unloading the Goods.

New Pig only delivers products to buyers in the United Kingdom, Channel Islands, Isle of Man and Scottish Islands and will not deliver to box numbers whether Post Office or British Forces Post Office.

Delivery shall normally be completed by one person (the driver) up to the vehicle tailgate only unless New Pig agrees otherwise in writing with the Customer). The Buyer is responsible for ensuring that adequate vehicular access is available to its desired Delivery Point. For the avoidance of doubt, delivery to the 'Delivery Address' means New Pig's carrier or driver will deliver only to the postal address provided there is a suitable road to the point where delivery is requested. If no such road exists, delivery shall be made to the nearest point at which, in the driver's opinion, the vehicle can safely and lawfully unload. New Pig's carrier is not obliged to deliver orders to a particular part of a property or location within the property at the Delivery Address.

Any dates specified by New Pig for delivery of the Goods are intended to be an estimate and time for delivery shall not be made of the essence by notice. If no dates are so specified, delivery will be within a reasonable time.

Delivery charges, timescales and restrictions vary depending on the type of Goods ordered, the service selected by the Buyer and the Delivery Address. Further information on New Pig's delivery charges and restrictions can be obtained by calling 0800 919 900 or visiting the website at [www.newpig.co.uk](http://www.newpig.co.uk).

Subject to the other provisions of these Conditions New Pig will not be liable for any direct, indirect or consequential loss (all three of which terms include, without limitation, loss of profits, loss of business, depletion of goodwill and like loss), costs, damages, charges or expenses caused directly or indirectly by any delay or default in the delivery of the Goods (even if caused by New Pig's negligence), nor will any delay entitle the Buyer to terminate or rescind the Contract unless such delay exceeds 180 days.

If for any reason the Buyer will not accept delivery, or New Pig is unable to deliver the Goods on time because the Buyer has not provided appropriate instructions, documents, licences or authorisations, New Pig may in its discretion deem:

(a) the Goods to have been delivered and all risk in the Goods will pass to the Buyer; or

(b) the Contract to have been repudiated by the Buyer in which case New Pig may recover from the Buyer New Pig's whole losses, costs and expenses related to the Contract.

New Pig reserves the right to deliver by way of instalments. Where the Goods are to be delivered in instalments, each delivery shall constitute a separate agreement and any failure to deliver any one or more of the instalments, in accordance with these Terms and Conditions, or any claim by the Buyer in respect of any one or more instalments shall not entitle it to treat any agreement as a whole as repudiated.

In the case of orders for collection by the Buyer, New Pig will contact the Buyer to confirm when the Goods are available for collection.

Goods may usually be collected by the Buyer between the hours of 08:45 until 17:30, Monday to Friday (excluding bank holidays) from New Pig's premises at Hogs Hill, Watt Place, Hamilton International Technology Park, Blantyre, Glasgow, G72 0AH.

It is the Buyer's responsibility to provide the appropriate vehicle to collect the Goods. If the Buyer is unable to complete the collection on the agreed date, then New Pig shall be entitled to place the Goods in storage until such times as collection or delivery may be effected and the Buyer shall be liable for any expense associated with such storage or delivery. Goods will be reserved for 10 working days from the date on which all stocked Goods subject to the Contract become available for collection. If the Buyer has not collected the Goods by the expiry of this period New Pig may at its discretion treat such order as cancelled.

## 5. NON-DELIVERY

The quantity of any consignment of Goods as recorded by New Pig upon despatch or collection (as the case may be) from New Pig's place of business shall be conclusive evidence of the quantity received by the Buyer on delivery unless the Buyer can provide evidence proving the contrary in terms satisfactory to New Pig.

New Pig shall not be liable for any non-delivery of Goods (even if caused by New Pig's negligence) unless written notice is given to New Pig within 7 days of the date when the Goods would, in the ordinary course of events, have been received.

Any liability of New Pig for non-delivery of the Goods shall be limited to replacing the Goods within a reasonable time or issuing a credit note at the pro rata Contract rate against any invoice raised for such Goods.

## 6. RISK & TITLE

6.1 The Goods are at the risk of the Buyer from the time of delivery (or collection). Ownership of the Goods shall not pass to the Buyer until New Pig has received in full (in cash or cleared funds) all sums due to it in respect of:

(a) the Goods (including VAT and applicable delivery charges); and

(b) all other sums which are or which become due to New Pig from the Buyer on any account. New Pig shall be entitled to recover payment for the Goods notwithstanding that ownership of any of the Goods has not yet passed from New Pig.

6.2 Until title in the Goods does pass to the Buyer then (without prejudice to the Buyer's right to resell the Goods in the ordinary course of business), the Buyer shall keep the Goods separate from its own Goods and the Goods of others and clearly marked or identified as being the property of New Pig and shall ensure that the Goods are kept safe, secure and insured.

For as long as the Goods have not been resold by the Buyer in the ordinary course of business and title in the Goods has not passed to the Buyer, New Pig may at any time retake possession of the Goods in such way as it thinks fit, including entering any premises of the Buyer where the Goods are to remove them. This right to retake possession shall apply whether or not the Buyer is or is deemed to be insolvent or otherwise.

## 7. PRICE

Unless otherwise agreed by New Pig in writing the price for the Goods shall be the price set out in New Pig's website, catalogue, price list or other marketing material current on the date of the order and such price is, up to that date, subject to alteration without notice although we will make every reasonable effort to maintain quoted prices.

The price for the Goods are in pounds sterling and are exclusive of any value added tax and all costs or charges in relation to loading, unloading, carriage and insurance all of which amounts if applicable the Buyer will pay in addition when it is due to pay for the Goods.

## 8. PAYMENT

Except where the Buyer wishes to pay using its credit account with New Pig, payment for all Goods shall be made by credit or debit card (Visa, MasterCard or American Express) at the time the order is placed. If it is not possible to obtain the full payment for the Goods from the details provided then the Contract shall be cancelled by New Pig and any further deliveries suspended.

By using a credit or debit card to pay for Goods, the Buyer confirms the card being used is theirs or that it is authorised to use it.

All credit and debit card holders are subject to validation checks and authorisation by the card issuer. If the issuer of the card refuses to authorise payment New Pig will not accept the Buyer's order, will not be obliged to inform the Buyer of the reason for refusal and will not be liable for the Goods not being supplied or delivered to the Buyer. New Pig are not responsible for the card issuer or bank charging the Buyer's card as a result of New Pig's processing of the Buyer's credit or debit card payment in accordance with its order.

New Pig recommends that Buyers do not communicate payment card details to anyone, including New Pig, via email or other electronic means. New Pig cannot be responsible for any losses the Buyer may incur in transmitting information to them by internet link or email. Any such loss, in its entirety, shall be the Buyer's responsibility.

The Buyer is responsible for all orders placed by its employees and for any purchases made on cards issued to them and New Pig are not bound by any individual order limit the Buyer may impose on its employees or representatives.

Applications for trade credit are subject to status and acceptance. In the event that an application is accepted the Buyer will be notified of the credit limit available to it. If the Buyer exceeds the stated credit limit New Pig shall be entitled to suspend performance of all its obligations hereunder without liability to the Buyer to the fullest extent permitted by relevant law.

If the Buyer holds a credit account with New Pig, unless otherwise agreed in writing, payment of the price for the Goods, value added tax and any other applicable costs, is due on the last working day of the month following the month in which the Goods are delivered, subject to approved credit terms, or deemed to be delivered, and all payments payable to New Pig under the Contract shall become due immediately upon termination of this Contract despite any other provision.. Time for payment shall be of the essence, and no payment shall be deemed to have been received until New Pig has received cleared funds.

If the Buyer fails to pay New Pig any sum due pursuant to the Contract the Buyer will:

(i) be liable to pay interest to New Pig on such sum from the due date for payment at the annual rate of 2% above the base lending rate from time to time of the Bank of Scotland, accruing on a daily basis until payment is made, whether before or after any judgment;

(ii) forfeit any discount previously agreed by New Pig;

(iii) have its account suspended until payment has been received in full, meaning the Buyer will not be able to order any Goods from New Pig until it has settled its account in full; and

(iv) be liable for all costs relating to collection of the amount owed by the Buyer and not paid in time, including all judicial and extrajudicial costs and costs for legal assistance.

And New Pig shall be entitled to:

(i) require payment in advance of delivery in relation to any Goods not previously delivered;

**Continued on next page**

# Terms and Conditions of Sale

- (ii) refuse to make delivery of any undelivered Goods whether ordered under the contract or not and without incurring any liability whatsoever to the Buyer for non-delivery or any delay in delivery; and
- (iii) terminate the contract.

New Pig reserves the right to require the Buyer to pay a deposit or make a full payment for any Goods ordered prior to delivery.

The format of invoices and statements to the Buyer will solely be dictated by New Pig.

Any liability of New Pig under the Contract shall be subject to and conditional upon the due performance and observance by the Buyer of all its obligations under these conditions, and subject to these conditions, the Buyer shall make all payments due under the Contract without any deduction whether by way of set-off, counterclaim, discount, abatement or otherwise unless the Buyer has a valid court order requiring an amount equal to such deduction to be paid by New Pig to the Buyer.

## 9. CANCELLATIONS & RETURNS

### Cancellations

9.1 Orders for Bespoke/Custom/Non-Standard Goods (meaning those Goods manufactured, imported or sourced to the Customer's specification or request) are specifically excluded from this condition and may not be cancelled.

9.2 Other orders may be cancelled by the Buyer at any time before they are dispatched by either:

- (a) Emailing [pigpen@newpig.com](mailto:pigpen@newpig.com); or by
- (b) Calling New Pig on 0800 919 900.

### Returns

9.3 Orders for Bespoke/Custom/Non-Standard Goods (meaning those Goods manufactured, imported or sourced to the Customer's specification or request) are specifically excluded from this condition and may not be returned (unless they are faulty).

9.4 Prior to returning Goods the Buyer must contact New Pig, to request a 'Product Return/Credit Request Form', by either:

- (a) Emailing [pigpen@newpig.com](mailto:pigpen@newpig.com); or by
- (b) Calling New Pig on 0800 919 900.

### 100% Money-Back Guarantee - PIG Branded Products

9.5 If at any time following delivery, the Buyer is not satisfied with the PIG branded Goods, the Buyer may notify New Pig to that effect. New Pig shall then:

- (a) uplift the unused portion of such Goods from the Buyer (provided the Buyer gives New Pig all reasonable assistance in doing so) and
- (b) on return to New Pig, refund to the Buyer the Price actually paid by the Buyer for such Goods. Where Goods that have been returned to New Pig are found to be contaminated in any way, New Pig shall be entitled to deduct from any such refund the costs of disposing of the contaminated Goods safely and in accordance with applicable laws. Where the cost of disposing of contaminated Goods exceeds the amount paid by the Buyer for them, the Buyer shall pay to New Pig upon demand the difference between the price paid for the Goods and the costs of such disposal.

9.6 New Pig warrants that (subject to the other provisions of these Conditions) upon delivery the Goods will be of satisfactory quality within the meaning of the Sale of Goods Act 1979 as amended. New Pig shall not be liable for a breach of the foregoing warranty unless:

- (a) the Buyer gives written notice of the defect to New Pig, and (if the defect is as a result of damage in transit) to the carrier, within 7 calendar days of the time when the Buyer discovers or ought to have discovered the defect; and
- (b) New Pig is given a reasonable opportunity after receiving the notice of examining such Goods and the Buyer (if asked to do so by New Pig) returns such Goods to New Pig's place of business for the examination to take place there. New Pig shall not be liable for a breach of the foregoing warranty if:
  - (i) the Buyer makes any further use of such Goods after giving such notice; or
  - (ii) the defect arises because the Buyer failed to follow New Pig's oral or written instructions as to the storage, installation, commissioning, use or maintenance of the Goods or (if there are none) good trade practice; or
  - (iii) the Buyer alters or repairs such Goods without the written consent of New Pig. If any of the Goods do not conform with the foregoing warranty, New Pig shall at its option repair or replace such Goods (or the defective part) or refund the price of such Goods at the pro rata Contract rate and on doing so shall have no further liability for any breach of warranty.

### Returns Policy - Non-PIG Branded Products

9.7 The Buyer may return Goods for any reason within 20 working days from the date of delivery/collection provided the following conditions are satisfied:

- (a) Goods are returned in brand-new, unused condition are fit for immediate resale;
- (b) Packaged Goods are returned with original packaging intact and in reasonable, resalable condition; and
- (c) The Buyer supplies a completed 'Product Return/Credit Request Form'.

9.8 Where Goods are returned pursuant to clause 9.7 (where they are not faulty):

- (a) a restocking charge may apply; and

(b) the risk and cost of returning the Goods shall be the Buyer's.

9.9 New Pig will examine the returned Goods and process any refund due to the Buyer within 30 days of receipt. Any refund offered will include VAT (if applicable) and exclude all applicable carriage charges. Any refund offered will be by way of a credit to the Buyer's account.

9.10 Subject to the provisions of clause 9.6, if Goods do not comply with the warranty given at clause 9.6, New Pig shall, at its option, repair or replace the defective Goods, or refund the price of the defective Goods in full. The Buyer may be responsible for some or all of the costs of transporting the Goods to New Pig.

9.11 If New Pig so requests, the Buyer shall return any defective Goods to New Pig. Any Goods which have been replaced following such return will belong to New Pig.

## 10. THIRD-PARTY GUARANTEES & WARRANTIES

10.1 New Pig shall pass to the Buyer, to the extent it is able, any benefits obtainable under any warranty and/or guarantee given by New Pig's suppliers provided that ownership and title in the goods has passed to the Buyer. During the continuance of any such warranty and/or guarantee, New Pig undertakes, at its option, to replace or refund the purchase price of any Goods sold or supplied in the following circumstances only:

- (a) where the Goods do not correspond to any written identifying description applied to them; and/or
- (b) where the Goods prove to be unfit for a particular purpose which has been expressed in writing by New Pig; and/or
- (c) where the Goods prove to be defective and not fit for purpose.

10.2 New Pig's liability under this clause shall be accepted by the Buyer in lieu of any warranty or condition whether express or implied by law (except those warranties that may not be lawfully excluded by New Pig). Concerning New Pig's PIG Branded Products 100% Money-Back Guarantee, please refer to the special conditions available under clause 9.5.

## 11. LIMITATION OF LIABILITY

Subject to condition 9, the following provisions set out the entire financial liability of New Pig (including any liability for the acts or omissions of its employees, agents and subcontractors) to the Buyer in respect of:

- (a) any breach of these Conditions; and
- (b) any representation, statement or delictual act or omission including negligence arising under or in connection with the Contract. Although nothing in these Conditions excludes or limits the liability of New Pig for death or personal injury caused by New Pig's negligence fraud or fraudulent misrepresentation or for any other liability which cannot be limited or excluded under applicable law:
  - (i) New Pig's total liability in contract, delict (including negligence or breach of statutory duty), misrepresentation, restitution or otherwise, arising in connection with the performance or contemplated performance of this Contract shall be limited to the price paid by the Buyer under the Contract; and
  - (ii) New Pig shall not be liable to the Buyer for any indirect or consequential loss or damage (whether for loss of revenue or profit, interruption to or loss of business, depletion of good will or otherwise), costs, expenses or other claims for consequential compensation whatsoever (howsoever caused) which arise out of in connection with the Contract.

All warranties, conditions and other terms implied by statute or common law (save for the conditions implied by section 12 of the Sale of Goods Act 1979) are, to the fullest extent permitted by law, excluded from the Contract.

Goods are intended for use in the UK only and New Pig cannot confirm the Goods comply with any laws, regulations or other standards applicable outside the UK. All Goods are sold in accordance with the manufacturer's specifications and are subject to any qualifications, representations or instructions contained in the documentation associated with the Goods.

## 12. ASSIGNATION & WAIVER

The parties to this Contract do not intend that any term of this Contract will be enforceable by any person that is not party to it. No third party shall be entitled to enforce any of these terms and conditions, whether by virtue of the Contracts (Rights of Third Parties) Act 1999 or otherwise.

The Buyer shall not be entitled to assign the Contract or any part of it without the prior written consent of New Pig. New Pig may assign the Contract or any part of it to any person at its discretion.

Failure or delay by New Pig in enforcing or partially enforcing any provision of the Contract will not be construed as a waiver of any of its rights under the Contract. Any waiver by New Pig of any breach of, or any default under, any provision of the Contract by the Buyer will not be deemed a waiver of any subsequent breach or default and will in no way affect the other terms of the Contract.

## 13. FORCE MAJEURE

New Pig reserves the right to defer the date of delivery or to cancel the Contract or reduce the volume of the Goods ordered by the Buyer (without liability to the Buyer) if it is prevented from or delayed in the carrying on of its business due to circumstances beyond the reasonable control of New Pig including, without limitation, acts of God, tempest, fire, explosion, flood, epidemic, natural disaster or accident, governmental actions, war or national emergency, acts of terrorism, protests, riot, civil commotion, lockouts, strikes or other labour disputes and industrial actions (whether or not relating to either party's workforce or that of a third party), or restraints or delays affecting carriers or inability or delay in obtaining supplies of adequate or suitable materials, labour, fuel, parts machinery or

Goods, import or export impositions or embargoes and/or failure of telecommunications networks, internet service providers or power failure.

If the force majeure in question continues for a continuous period in excess of 180 days, the Buyer shall be entitled to give notice in writing to New Pig to terminate the Contract.

## 14. PRIVACY & DATA PROTECTION STATEMENT

New Pig is committed to preserving the privacy of its customers and is registered under the Data Protection Act 2018 (as amended). New Pig will safeguard customer information in line with the requirements of the Act, as well as the GDPR, and as stated in New Pig's Privacy Policy A copy of New Pig's Privacy Policy can be requested by calling 0800 919 900 or visiting the Website at [www.newpig.co.uk/privacypolicy](http://www.newpig.co.uk/privacypolicy). The Data Protection Act 2018 (as amended) gives the Buyer legal rights to see personal data New Pig holds about it and has the right to correct any inaccuracies. New Pig takes its responsibilities as data controllers very seriously, and if the Buyer wishes to exercise any of these rights, or if it has any queries in general about New Pig's approach to data protection and privacy, they may write to New Pig at: Data Protection, New Pig Limited, Hogs Hill, Watt Place, Hamilton International Technology Park, Blantyre, Glasgow, G72 0AH.

## 15. GENERAL

### Severance

Each right or remedy of New Pig under the Contract is without prejudice to any other right or remedy of New Pig whether under the Contract or not. If any provision of the Contract is found by any court, tribunal or administrative body of competent jurisdiction to be wholly or partly illegal, invalid, void, voidable, unenforceable or unreasonable it shall to the extent of such illegality, invalidity, voidness, voidability, unenforceability or unreasonableness be deemed severable and the remaining provisions of the Contract and the remainder of such provision shall continue in full force and effect. The parties to this Contract do not intend that any term of this Contract will be enforceable by any person that is not a party to it.

### Notices

Any notice to be given by either party to the other under the Contract shall be in writing to the address of the other party given in the Contract or to another address intimated to the other party in terms of this condition.

Notices will be deemed to have been duly given:

- (i) When delivered, if delivered by courier or other messenger (including registered mail) during the normal business hours of the recipient; or
- (ii) When sent, if transmitted by fax or email and a successful transmission report or return receipt is generated.

All notices under these Terms & Conditions must be addressed to the most recent address, email address or fax number notified to the other party.

### Law and Jurisdiction

The formation, existence, construction, performance, validity and all aspects of the Contract shall be governed by Scottish law and the parties submit to the exclusive jurisdiction of the Scottish courts.

## Adhesive-Backed Mats Disclaimer

### New Pig Grippy® Adhesive-Backed Mat Notice:

New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive-backed mats, please be sure to use only on carpeted surfaces and never on uncarpeted, hard surfaces. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through and, as such, are considered to be non-breathable and may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, and finishes. All adhesive mats have some potential to leave residue or lift or discolour finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floors or other surfaces. For these reasons and others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discrete or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months depending on conditions and traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage and should always be replaced no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.
